USE OF PROCEEDS

We will use the net proceeds from the offering of the notes, estimated at approximately \$395.1 million, for general corporate purposes, which may include repaying commercial paper in anticipation of repayments of debt maturing in early 2003. At September 24, 2002, our outstanding commercial paper had an average weighted remaining term of 13 days with maturities ranging from 1 to 62 days and had an average weighted annualized interest rate of 1.74%. The proceeds from these commercial paper borrowings were used for working capital and our general corporate purposes and those of our consolidated subsidiaries. Pending these uses, we may invest the net proceeds in short-term interest-bearing obligations.

RATIO OF EARNINGS TO FIXED CHARGES

The following table presents the ratio of our earnings to fixed charges excluding minority interest for the periods indicated:

YEAR ENDED DECEMBER 31,					SIX MONTHS
1997	1998	1999	2000	2001	ENDED JUNE 30, 2002
4.10	4.42	4.92	4.37	4.35	4.38

For the purpose of computing the ratio of earnings to fixed charges excluding minority interest, earnings have been calculated by adding to income from continuing operations before income taxes the amount of fixed charges. Fixed charges consist of interest on debt and a portion of net rental expense deemed to represent interest.

These ratios have been reclassified to reflect the discontinued operations associated with the spin-off of Pitney Bowes' Office Systems business, now known as Imagistics International Inc., on December 3, 2001; the sale of Atlantic Mortgage & Investment Corporation in 2000; and the sale of operations and assets of Colonial Pacific Leasing Corporation in 1998. Interest expense and the portion of rent which is representative of the interest factor of these discontinued operations have been excluded from fixed charges in the computation. If these amounts had been included, the ratio of earnings to fixed

charges excluding minority interest would be 4.19 for 2001, 4.21 for 2000, 4.66 for 1999, 3.78 for 1998 and 4.00 for 1997.

DESCRIPTION OF NOTES

THE FOLLOWING DESCRIPTION OF THE PARTICULAR TERMS OF THE NOTES OFFERED BY THIS PROSPECTUS SUPPLEMENT SUPPLEMENTS THE DESCRIPTION OF THE GENERAL TERMS AND PROVISIONS OF THE DEBT SECURITIES IN THE ACCOMPANYING PROSPECTUS.

The notes will be issued under an indenture, dated as of February 15, 2002, between us and SunTrust Bank, as trustee, and will be limited initially to \$400,000,000 aggregate principal amount. The notes will be issued in denominations of \$1,000 and integral multiples of \$1,000. The notes are unsecured, will mature on October 1, 2012 and will rank equally with all our other unsecured and unsubordinated indebtedness.

The notes will bear interest from September 27, 2002 at the annual rate stated on the cover of this prospectus supplement, payable on April 1 and October 1 of each year, commencing April 1, 2003, to the person in whose name the notes are registered at the close of business on March 15 and September 15, as the case may be, immediately preceding that April 1 or October 1. Interest on the notes will be computed on the basis of a 360-day year composed of twelve 30-day months. If any payment date for notes is not a business day, we will make the payment on the next business day, but we will not be liable for any additional interest as a result of the delay in payment. By business day, we mean any Monday, Tuesday, Wednesday, Thursday or Friday which is not a day when banking institutions in New York City and the place of payment are authorized or obligated by law to be closed.

We may issue additional notes of the same series with the same terms in the future, without obtaining the consent of any holders of these notes.

S-3

OPTIONAL REDEMPTION

We may redeem the notes, in whole or in part, at our option at any time, at a redemption price equal to the greater of (1) 100% of the principal amount of the notes to be redeemed or (2) as determined by the quotation agent described below, the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed, not including any portion of these payments of interest accrued as of the date on which the notes are to be redeemed, discounted to the date on which the notes are to be redeemed on a semi-annual basis, assuming a 360-day year consisting of twelve 30-day months, at the adjusted treasury rate described below plus 15 basis points, plus, in each case, accrued interest on the notes to be redeemed to the date on which the notes are to be redeemed.

We will utilize the following procedures to calculate the adjusted treasury rate described in the previous paragraph. We will appoint Deutsche Bank Securities Inc. and J.P. Morgan Securities Inc. or their successors and one or more other primary U.S. Government securities dealers in New York City as reference dealers and we will select one of these reference dealers to act as our quotation agent. If Deutsche Bank Securities Inc. and/or J.P. Morgan Securities Inc. or their respective successors are no longer primary U.S. Government securities dealers, we will substitute other primary U.S. Government securities dealers in their place.

The quotation agent will select a United States Treasury security which has a maturity comparable to the remaining maturity of our notes which would be used in accordance with customary financial practice to price new issues of corporate debt securities with a maturity comparable to the remaining maturity of our notes. The reference dealers will provide us and the trustee with the bid and asked prices for that comparable United States Treasury security as of 5:00 p.m. on the third business day before the redemption date. We will calculate the average of the bid and asked prices provided by each reference dealer, eliminate the highest and the lowest reference dealer quotations and then calculate the average of the remaining reference dealer quotations. However, if we obtain fewer than three reference dealer quotations, we will calculate the average of all the reference dealer quotations and not eliminate any quotations. We call this average quotation the comparable treasury price. The adjusted treasury rate will be the semi-annual equivalent yield to maturity of a security whose price,

expressed as a percentage of its principal amount, is equal to the comparable treasury price.

We will mail notice of any redemption at least 30 days but not more than 60 days before the redemption date to each holder of the notes to be redeemed. Unless we default in payment of the redemption price on the redemption date, interest will cease to accrue on the notes or portions of notes called for redemption on and after the redemption date.

The notes are not entitled to the benefits of any sinking fund--that is, we will not set aside money on a regular basis in a separate custodial account to repay the notes.

DEFEASANCE AND COVENANT DEFEASANCE

The provisions in the indenture allowing us to be discharged from our obligations under the indenture as a whole or to avoid complying with its restrictive covenants will apply to the notes. See "Description of Debt Securities -- Defeasance and Covenant Defeasance" on page 6 of the accompanying prospectus for a description of the terms of any defeasance of this kind.

GLOBAL NOTES

The notes will be represented by one or more global notes deposited with The Depository Trust Company as the depository for the notes and registered in the name of DTC's nominee. See "Description of Debt Securities -- Global Securities" in the accompanying prospectus for additional information about DTC and procedures applicable to the global notes.

Global notes may not be transferred except as a whole among the depository and its nominees and successors. In any of the cases below, a global note is exchangeable for the definitive notes in registered form, bearing interest at the same rate, having the same date of issuance, maturity and other terms and of differing denominations aggregating a like amount, only if

- o the depository notifies us that it is unwilling or unable to continue as depository for that global note or if at any time the depository ceases to be a clearing agency registered under the Securities Exchange Act of

S-4

1934 and we do not appoint a successor depository registered as a clearing agency under the Exchange Act within 90 days,

- o we in our sole discretion determine that such global note will be exchangeable for definitive notes in registered form, or
- o any event will have occurred and be continuing which after notice or lapse of time, or both, would become an event of default with respect to the notes.

If issued, the definitive notes will be registered in the names of the owners of the beneficial interests in the global notes as provided by the depository's participants. Except as described above, global notes are not exchangeable, except for global notes of like denomination to be registered in the name of the depository or its nominee.

So long as the depository for any global note, or its nominee, is the registered owner of the global note, the depository or its nominee, as the case may be, will be considered the sole owner or holder of the global note for the purposes of receiving payment on the notes, receiving notices and for all other purposes under the indenture and the notes. Except as provided above, owners of beneficial interests in any global note will not be entitled to receive physical delivery of notes in definitive form and will not be considered the holders of notes for any purpose under the indenture. Accordingly, each person owning a beneficial interest in the global note must rely on the procedures of the depository and, if that person is not a participant, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the indenture. The laws of some jurisdictions require that some types of purchasers of securities take physical delivery of the securities in definitive form. The limits and laws described in this paragraph may impair the ability to transfer beneficial interests in the global notes.

We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in any global note desires to give or take any action which a holder is entitled to give or take under the indenture, the depository would authorize the participants holding the relevant beneficial interests to give or take that action, and the participants would authorize beneficial owners owning through these participants to give or take that action or would otherwise act upon the instructions of beneficial owners owning through them.

Investors may hold interests in a global note through organizations that participate, directly or indirectly, in the DTC system. These organizations include Euroclear and Clearstream, Luxembourg, which are securities clearance systems in Europe. Both systems clear and settle securities transactions between their participants through electronic, book-entry delivery of securities against payment. Payments, deliveries, transfers, exchanges, notices and other matters relating to the notes made through Euroclear or Clearstream, Luxembourg must comply with the rules and procedures of those systems. Those systems could change their rules and procedures at any time. We have no control over those systems or their participants and we take no responsibility for their activities. Transactions between participants in Euroclear or Clearstream, Luxembourg, on one hand, and participants in DTC, on the other hand, are also subject to DTC's rules and procedures.

Investors will be able to make and receive through Euroclear and Clearstream, Luxembourg payments, deliveries, transfers, exchanges, notices and other transactions involving the notes only on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States. In addition, because of time-zone differences, U.S. investors who hold their interests in the notes through these systems and wish to transfer their interests, or to receive or make a payment or exercise any other right with respect to their interests, on a particular day may find that the transaction will not be effected until the next business day in Brussels or Luxembourg, as applicable. Thus, investors who wish to exercise rights that expire on a particular day may need to act before the expiration date. In addition, investors who hold their interests through Euroclear or Clearstream, Luxembourg may need to make special arrangements to finance any purchases or sales of their interests between DTC and the European clearing systems, and those transactions may settle later than would be the case for transactions within one clearing system.

THE TRUSTEE, PAYING AGENT AND SECURITY REGISTRAR

SunTrust Bank is the trustee, paying agent and security registrar with respect to the notes and maintains a banking relationship with us. Colin G. Campbell, one of our directors, is also an Advisory Director of SunTrust Bank.

UNDERWRITING

Deutsche Bank Securities Inc. and J.P. Morgan Securities Inc. are acting as joint book-running managers of the offering and are acting as representatives of the underwriters named below.

Subject to the terms and conditions in the underwriting agreement between us and the underwriters, we have agreed to sell to each underwriter, and each underwriter has severally agreed to purchase from us, the principal amount of notes that appears opposite its name in the table below:

UNDERWRITER -----	PRINCIPAL AMOUNT -----
Deutsche Bank Securities Inc.	\$ 160,000,000
J.P. Morgan Securities Inc.	160,000,000
Barclays Capital Inc.	20,000,000
Merrill Lynch, Pierce, Fenner & Smith Incorporated	20,000,000
RBC Dominion Securities Corporation	20,000,000
SunTrust Capital Markets, Inc.	20,000,000

Total	\$ 400,000,000
	=====

The underwriting agreement provides that the underwriters will purchase all the notes if any of them are purchased.

The underwriters initially propose to offer the notes directly to the public at the public offering price that appears on the cover page of this prospectus supplement. The underwriters may offer the notes to selected dealers at the public offering price minus a concession of up to 0.40% of the principal amount. In addition, the underwriters may allow, and those selected dealers may reallocate, a concession of up to 0.25% of the principal amount to certain other dealers. After the initial offering, the underwriters may change the public offering price and any other selling terms. The underwriters may offer and sell notes through certain of their affiliates.

The notes are a new issue of securities with no established trading market. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. One or more of the underwriters have advised us that they intend to make a secondary market for the notes. However, they are not obligated to do so and may discontinue making a secondary market for the notes at any time without notice. We do not know how liquid the trading market for the notes will be.

We have agreed to indemnify the underwriters against certain liabilities, including certain liabilities under the Securities Act, or contribute to payments which the underwriters may be required to make in respect of these liabilities.

Deutsche Bank Securities Inc. and J.P. Morgan Securities Inc. will make the securities available for distribution on the Internet through a proprietary web site and/or a third-party system operated by Market Axess Inc., an Internet-based communications technology provider. Market Axess Inc. is providing the system as a conduit for communications between Deutsche Bank Securities Inc. and J.P. Morgan Securities Inc. and their customers and is not a party to any transactions. Market Axess Inc., a registered broker-dealer, will receive compensation from Deutsche Bank Securities Inc. and J.P. Morgan Securities Inc. based on transactions they conduct through the system. Deutsche Bank Securities Inc. and J.P. Morgan Securities Inc. will make the securities available to their customers through the Internet distributions, whether made through a proprietary or third-party system, on the same terms as distributions made through other channels.

The underwriters may engage in over-allotment, stabilizing transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

- o Over-allotment involves syndicate sales in excess of the offering size, which creates a syndicate short position.
- o Stabilizing transactions consist of certain bids or purchases of notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.
- o Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions.

S-6

- o Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the notes originally sold by the syndicate member are purchased in a syndicate covering transaction or stabilizing purchase.

Any of these transactions may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than it would otherwise be in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our out-of-pocket expenses for this offering will be approximately \$150,000.

One or more of the underwriters or their affiliates engage in transactions

with and perform services, including commercial and investment banking and hedging services, for us and our affiliates in the ordinary course of business, for which they receive customary compensation. SunTrust Capital Markets, Inc., one of the underwriters, is an affiliate of SunTrust Bank, the trustee under the indenture under which the notes are to be issued. Upon the occurrence of an event of default, or an event which, after notice or lapse of time or both, would become an event of default, the trustee may be deemed to have a conflicting interest with respect to the notes for the purposes of the Trust Indenture Act of 1939 and, accordingly, may be required to resign as trustee under the indenture. In that event, we would be required to appoint a successor trustee. Colin G. Campbell, one of our directors, is also an Advisory Director of SunTrust Bank.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, referred to as the SEC in this prospectus, utilizing a shelf registration process. Under this shelf registration process, we may issue, from time to time, up to \$2,000,000,000 of debt securities, preferred stock, preference stock and depositary shares. Each time we issue any securities under the registration statement, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with the additional information described under the heading "Where You Can Find More Information."

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

In this prospectus and in the documents we incorporate by reference, we may state our views about our future performance. These views, which constitute "forward-looking statements" under the Private Securities Litigation Reform Act of 1995, involve risks and uncertainties that are difficult to predict and may cause our actual results to differ materially from the results discussed in those forward-looking statements. Some of the factors that may significantly affect our performance are discussed in "Management's Discussion and Analysis of Financial Condition and Results of Operations," which is contained in our most recent Annual Report on Form 10-K that is on file with the SEC.

2

PITNEY BOWES INC.

Pitney Bowes was organized in 1920 and is a Delaware corporation.

Pitney Bowes operates in three segments:

- o GLOBAL MAILING--Global Mailing includes worldwide revenues from the rental of postage meters and the sale, rental and financing of mailing equipment, including mail finishing and software-based mail creation equipment; software-based shipping, transportation and logistics systems; and related supplies and services.
- o ENTERPRISE SOLUTIONS--Enterprise Solutions consists of Pitney Bowes Management Services and Document Messaging Technologies. Pitney Bowes Management Services includes revenues from facilities management contracts for advanced mailing, reprographic, document management and other high-value services. Document Messaging Technologies includes revenues from the sale, service and financing of high speed, software-enabled production mail systems, sortation equipment, incoming mail systems, electronic statement, billing and payment solutions and mailing software.
- o CAPITAL SERVICES--Capital Services provides large ticket financing and fee-based programs covering a broad range of products and other financial services. Products financed include both commercial and non-commercial aircraft, over-the-road trucks and trailers, locomotives, railcars, rail and bus facilities, office equipment and high-technology equipment, such as data processing and communications equipment.

On December 11, 2000, Pitney Bowes announced that its Board of Directors approved a formal plan to spin off Pitney Bowes' Office Systems business to stockholders as an independent, publicly-traded company. The transaction is expected to be completed by the end of the fourth quarter of 2001.

The world headquarters of Pitney Bowes are located at One Elmcroft Road, Stamford, Connecticut 06926-0700 (telephone: 203-356-5000).

USE OF PROCEEDS

We expect to use the net proceeds from sales of the securities described in this prospectus to repay short-term debt, to repurchase our common stock, to refinance our other indebtedness from time to time and for other general corporate purposes, including possible acquisitions. We will describe our intended use of the proceeds from a particular offering of securities in the related prospectus supplement. Funds not required immediately for any of the previously mentioned purposes may be temporarily invested in marketable securities.

RATIO OF EARNINGS TO FIXED CHARGES AND RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED AND PREFERENCE STOCK DIVIDENDS

The following table presents the ratio of our earnings to fixed charges excluding minority interest for the periods indicated:

SIX MONTHS ENDED JUNE 30,		YEAR ENDED DECEMBER 31,				
2001	2000	2000	1999	1998	1997	1996
4.72	4.34	4.37	4.92	4.42	4.10	3.58

The following table presents the ratio of our earnings to fixed charges and preferred and preference stock dividends excluding minority interest for the periods indicated:

SIX MONTHS ENDED JUNE 30,		YEAR ENDED DECEMBER 31,				
2001	2000	2000	1999	1998	1997	1996
4.71	4.34	4.37	4.92	4.42	4.10	3.57

For the purpose of computing the above ratios, earnings have been calculated by adding to income from continuing operations before income taxes the amount of fixed charges. Fixed charges consist of interest on debt

3

and a portion of net rental expense deemed to represent interest. These ratios have been reclassified to reflect Pitney Bowes' Office Systems business, which Pitney Bowes plans to spin off to its stockholders in 2001, Atlantic Mortgage & Investment Corporation, which Pitney Bowes sold in 2000, and Colonial Pacific Leasing Corporation, whose operations and assets Pitney Bowes sold in 1998, as discontinued operations. Interest expense and the portion of rent which is representative of the interest factor of these discontinued operations have been excluded from fixed charges in the computation. If these amounts had been included, the ratio of earnings to fixed charges excluding minority interest would be 4.54 for first half 2001, 4.21 for first half 2000, 4.21 for 2000, 4.66 for 1999, 3.78 for 1998, 4.00 for 1997 and 3.54 for 1996. If these amounts had been included, the ratio of earnings to fixed charges and preferred and preference stock dividends excluding minority interest would be 4.53 for first half 2001, 4.19 for first half 2000, 4.21 for 2000, 4.65 for 1999, 3.78 for 1998, 4.00 for 1997 and 3.54 for 1996.

DESCRIPTION OF DEBT SECURITIES

DEBT MAY BE SENIOR OR SUBORDINATED

We will issue the senior debt securities under one or more senior debt indentures and the subordinated debt securities under one or more subordinated debt indentures. We will appoint a trustee to act in a fiduciary capacity under each of these indentures. In this prospectus we refer to these senior debt indentures as our "senior debt indenture" and to these subordinated debt indentures as our "subordinated debt indenture". We have filed the form of our senior debt indenture and subordinated debt indenture as exhibits to the registration statement of which this prospectus is a part.

The senior debt securities will be part of our senior debt and will rank equally with all of our other unsecured and unsubordinated debt. The subordinated debt securities will be junior in right of payment to all of our "senior indebtedness", as defined in our subordinated debt indenture. If this prospectus is being delivered in connection with a series of subordinated debt securities, the accompanying prospectus supplement or the information we incorporate in this prospectus by reference will indicate the approximate amount of senior indebtedness outstanding as of the end of the most recent fiscal quarter preceding the date of that prospectus supplement. Neither indenture limits our ability to incur additional senior indebtedness.

We have summarized below the material provisions of the indentures and the debt securities, or indicated which material provisions will be described in the

related prospectus supplement. These descriptions are only summaries, and each investor should refer to the applicable indenture, which contains the terms and definitions summarized below as well as additional information regarding the debt securities.

Any reference to particular sections or defined terms of the applicable indenture in any statement under this heading qualifies the entire statement and incorporates by reference the applicable section or definition into that statement. The indentures are substantially identical, except for the provisions relating to limitations on liens and limitations on sales and leasebacks, which are included in the senior debt indenture only, and to subordination, which are included in the subordinated indenture only.

We may issue debt securities from time to time in one or more series. The debt securities may be denominated and payable in U.S. dollars or foreign currencies. We may also issue debt securities, from time to time, with the principal amount or interest payable on any relevant payment date to be determined by reference to one or more currency exchange rates, securities or baskets of securities, commodity prices or indices. Holders of these types of debt securities will receive payments of principal or interest that depend upon the value of the applicable currency, security or basket of securities, commodity or index on the relevant payment dates. As a result, you may receive a payment of principal on any principal payment date, or a payment of interest on any interest payment date, that is greater than or less than the amount of principal or interest otherwise payable on those dates, depending upon the value on those dates of the applicable currency, security or basket of securities, commodity or index. Information as to the methods for determining the amount of principal or interest payable on any date, the currencies, securities or baskets of securities, commodities or indices to which the amount payable on that date is linked and any material United States federal income tax considerations will be provided in the applicable prospectus supplement.

Debt securities may bear interest at a fixed rate, which may be zero, or a floating rate. Debt securities bearing no interest or interest at a rate that at the time of issuance is below the prevailing market rate may be sold at a

4

discount below their stated principal amount. We refer to debt securities of this kind that are sold at a discount as "original issue discount securities".

We may, without the consent of the existing holders of any series of debt securities, issue additional debt securities having the same terms so that the existing debt securities and the new debt securities form a single series under the applicable indenture.

TERMS SPECIFIED IN PROSPECTUS SUPPLEMENT

The prospectus supplement will contain, where applicable, the following terms of, and other information relating to, any offered debt securities:

- o title;
- o whether the debt securities are senior or subordinated;
- o aggregate principal amount and purchase price;
- o currency in which the debt securities are denominated and/or in which principal, and premium, if any, and/or interest, if any, is payable, if not U.S. dollars;
- o authorized denominations, if other than \$1,000 and integral multiples of \$1,000;
- o date of maturity;
- o the interest rate or rates or the method by which a calculation agent will determine the interest rate or rates, if any;
- o the interest payment dates, if any;
- o any repayment, redemption, prepayment or sinking fund provisions,

including any redemption notice provisions;

- o the name of the trustee and any authenticating agent, paying agent, transfer agent or registrar for the debt securities;
- o whether we will issue the debt securities in definitive form or in the form of one or more global securities;
- o the terms on which holders of the debt securities may convert or exchange these securities into our common stock, preferred stock or preference stock or other securities of Pitney Bowes or other issuers;
- o information as to the methods for determining the amount of principal or interest payable on any date and/or the currencies, securities or baskets of securities, commodities or indices to which the amount payable on that date is linked;
- o any special United States federal income tax consequences applicable to the debt securities being issued; and
- o any other specific terms of the debt securities, including any additional events of default or covenants, and any terms required by or advisable under applicable laws or regulations.

REGISTRATION AND TRANSFER OF DEBT SECURITIES

Holders may exchange their debt securities for debt securities of smaller denominations or combine them into fewer debt securities of larger denominations, as long as the total principal amount is not changed. You may not exchange your debt securities for securities of a different series or having different terms, unless your prospectus supplement says you may.

You may present debt securities for exchange and transfer in the manner, at the places and subject to any restrictions described in the applicable prospectus supplement. We will provide you those services free of charge, although you may have to pay any tax or other governmental charge payable in connection with any exchange or transfer, as provided in the applicable indenture.

5

If any of the debt securities are held in global form, the procedures for transfer of interests in those securities will depend upon the procedures of the depositary for those global securities. See "- Global Securities" for more information about those provisions.

DEFEASANCE AND COVENANT DEFEASANCE

Unless the prospectus supplement states otherwise, we will be able to discharge all of our obligations, other than administrative obligations such as facilitating transfers and exchanges of certificates and replacement of lost or mutilated certificates, relating to a series of debt securities under an indenture by depositing cash and/or U.S. Government obligations with the trustee in an amount sufficient to make all the remaining payments of principal, premium and interest on those debt securities when those payments are due. We can do this only if we have delivered to the trustee, among other things, an opinion of counsel based on a United States Internal Revenue Service ruling or other change in U.S. federal income tax law stating that holders will not recognize any gain or loss for U.S. federal income tax purposes as a result of this deposit.

We can also avoid having to comply with the restrictive covenants in the senior debt indenture, such as the limitation on liens and the limitation on sale and leaseback transactions, by depositing cash and/or U.S. Government obligations with the trustee in an amount sufficient to make all the remaining payments of principal, premium and interest on the outstanding debt securities when those payments are due. We can do this only if we have delivered to the trustee, among other things, an opinion of counsel stating that holders of those securities will not recognize any gain or loss for U.S. federal income tax purposes as a result of this deposit.

SUBORDINATION PROVISIONS

There are contractual provisions in the subordinated debt indenture that

may prohibit us from making payments on our subordinated debt securities. Subordinated debt securities are subordinate and junior in right of payment, to the extent and in the manner stated in the subordinated debt indenture, to all of our senior indebtedness, including the debt securities we have issued and will issue under the senior debt indenture.

The subordinated debt indenture defines senior indebtedness generally as obligations of, or guaranteed or assumed by, Pitney Bowes for borrowed money or evidenced by bonds, notes or debentures or other similar instruments or incurred in connection with the acquisition of property, and amendments, renewals, extensions, modifications and refundings of any of that indebtedness. The subordinated debt securities and any other obligations specifically designated as being subordinate in right of payment to senior indebtedness are not senior indebtedness as defined in the subordinated debt indenture.

The subordinated debt indenture provides that, unless all principal of and any premium or interest on the senior indebtedness has been paid in full, or provision has been made to make those payments in full, no payment of principal of, or any premium or interest on, any subordinated debt securities may be made in the event:

- o of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization, assignment for the benefit of creditors or other similar proceedings involving us or a substantial part of our property;
- o a default has occurred in the payment of principal, any premium, interest or other monetary amounts due and payable on any senior indebtedness, and that default has not been cured or waived or has not ceased to exist;
- o there has occurred any other event of default with respect to senior indebtedness that permits holders or any trustee of the senior indebtedness to accelerate the maturity of the senior indebtedness, even if that maturity is not in fact accelerated, and that event of default has not been cured or waived or has not ceased to exist; or
- o that the principal of and accrued interest on any subordinated debt securities have been declared due and payable upon an event of default as defined under the subordinated debt indenture and that declaration has not been rescinded and annulled as provided under the subordinated debt indenture.

If the trustee under the subordinated debt indenture or any holders of the subordinated debt securities receive any payment or distribution that is prohibited under the subordination provisions, then the trustee or the holders will have to repay that money to the holders of the senior indebtedness.

Even if the subordination provisions prevent us from making any payment when due on the subordinated debt securities of any series, we will be in default on our obligations under that series if we do not make the payment when due. This means that the trustee under the subordinated debt indenture and the holders of debt securities of that series can take action against us, but they will not receive any money until the claims of the holders of senior indebtedness have been fully satisfied.

The subordinated debt indenture allows the holders of senior indebtedness to obtain a court order requiring us and any holder of subordinated debt securities to comply with the subordination provisions.

COVENANTS RESTRICTING LIENS, MERGERS AND OTHER SIGNIFICANT CORPORATE ACTIONS

IN THE FOLLOWING DISCUSSION, WE USE A NUMBER OF CAPITALIZED TERMS WHICH HAVE SPECIAL MEANINGS UNDER THE INDENTURES. WE PROVIDE DEFINITIONS OF THESE TERMS UNDER "--DEFINITIONS" BELOW.

LIMITATION ON LIENS. The senior debt indenture provides that so long as any of the senior debt securities remains outstanding, we will not, nor will we permit any Restricted Subsidiary to, issue, assume, guarantee or become liable for any Indebtedness if that Indebtedness is secured by a Mortgage upon any

Principal Domestic Manufacturing Plant or upon any shares of stock or Indebtedness of any Restricted Subsidiary without in any such case effectively providing that the senior debt securities will be secured equally and ratably with (or prior to) that Indebtedness, except that the foregoing restrictions will not apply to:

- o Mortgages on property of any corporation existing at the time that corporation is acquired by us or a Restricted Subsidiary (including by way of merger or consolidation) or at the time of a sale, lease or other disposition of substantially all of the properties of a corporation to us or a Restricted Subsidiary, as long as that Mortgage is not extended to cover any property previously owned by us or a Restricted Subsidiary;
- o Mortgages on property of a corporation existing at the time the corporation first becomes a Restricted Subsidiary;
- o Mortgages on any property existing on the date securities are first issued under that indenture or when we acquired that property;
- o Mortgages securing any Indebtedness that a wholly-owned Restricted Subsidiary owes to us or another wholly-owned Restricted Subsidiary;
- o Mortgages that we enter into within specified time periods to finance the acquisition, repair, improvement or construction of any property;
- o mechanics' liens, tax liens, liens in favor of a governmental body to secure progress payments or the acquisition of real or personal property from the governmental body, and other specified liens which were not incurred in connection with any borrowing of money, as long as we are contesting those liens in good faith or those liens do not materially impair the use of any Principal Domestic Manufacturing Plant;
- o Mortgages arising from any judgment, decree or order of a court in a pending proceeding;
- o any extension, renewal or replacement of any of the Mortgages described above, as long as the amount of Indebtedness secured does not exceed the amount originally secured plus any fees incurred in connection with the refinancing.

Notwithstanding the above, we may issue, assume or guarantee, and may permit any Restricted Subsidiary to issue, assume or guarantee, secured Indebtedness which would otherwise be subject to the foregoing restrictions, provided that the total of the aggregate amount of that Indebtedness then outstanding, excluding secured Indebtedness permitted under the foregoing exceptions, does not exceed 15% of Consolidated Net Tangible Assets.

7

THE SUBORDINATED DEBT INDENTURE DOES NOT INCLUDE ANY LIMITATION ON OUR ABILITY TO INCUR THESE TYPES OF LIENS.

LIMITATION ON SALES AND LEASEBACKS. Under the senior debt indenture, we and our Restricted Subsidiaries are not allowed to enter into any sale and leaseback arrangement involving a Principal Domestic Manufacturing Plant which has a term of more than three years, except for sale and leaseback arrangements between us and a wholly-owned Restricted Subsidiary or between wholly-owned Restricted Subsidiaries, unless:

- o we enter into the sale and leaseback transaction within 180 days after the Principal Domestic Manufacturing Plant is acquired, constructed or placed into service by us;
- o the rent that we pay under the related lease is reimbursed under a contract between us or a Restricted Subsidiary and the United States Government or one of its agencies or instrumentalities;
- o the aggregate amount of all Attributable Debt with respect to sale and leaseback transactions plus all Indebtedness secured by Mortgages on Principal Domestic Manufacturing Plants (with the exception of secured Indebtedness which is excluded as described under "- Limitations on Liens" above) does not exceed 15% of Consolidated Net Tangible Assets; or

- o we apply an amount equal to, in the case of a sale or transfer for cash, the lesser of the net proceeds of the sale or transfer of the Principal Domestic Manufacturing Plant and the net book value, or, in the case of a sale or transfer otherwise than for cash, the lesser of the fair market value of the Principal Domestic Manufacturing Plant and the net book value, within 180 days of the effective date of the sale and leaseback arrangement to the retirement of our or a Restricted Subsidiary's Indebtedness, which may include the senior debt securities. However, we cannot satisfy this test by retiring Indebtedness that we were otherwise obligated to repay within the 180-day period.

THE SUBORDINATED DEBT INDENTURE DOES NOT INCLUDE ANY LIMITATIONS ON SALES AND LEASEBACKS.

CONSOLIDATION, MERGER OR SALE OF ASSETS. The senior debt indenture provides that we will not consolidate or merge with or into any other corporation and will not sell, lease or convey our properties and assets as an entirety, or substantially as an entirety, to another corporation if, as a result of that action, any of our assets would become subject to a mortgage, unless either:

- o that mortgage could be created under the senior debt indenture without equally and ratably securing the senior debt securities; or
- o the senior debt securities will be secured equally and ratably with or prior to the Indebtedness secured by that mortgage.

Each of the indentures provides that we may consolidate or merge or sell all or substantially all of our assets if:

- o we are the continuing corporation or if we are not the continuing corporation, the continuing corporation is organized and existing under the laws of the United States of America or any state of the United States or the District of Columbia and assumes by supplemental indenture the due and punctual payment of the principal of, and premium, if any, and interest, if any, on, the debt securities and the due and punctual performance and observance of all of the covenants and conditions of the applicable indenture to be performed by us; and
- o we are not, or the continuing corporation is not, in default in the performance of any covenant or condition of the applicable indenture to be performed by us immediately after the merger, consolidation or sale of assets.

DEFINITIONS

"Attributable Debt" in respect of a sale and leaseback arrangement is defined in the senior debt indenture to mean, at the time of determination, the lesser of:

- o the sale price of the Principal Domestic Manufacturing Plant to be leased multiplied by a fraction the numerator of which is the remaining portion of the base term of the lease and the denominator of which is the base term of the lease; and

8

- o the total rental payments under the lease discounted to present value using an interest factor determined in accordance with generally accepted financial practice. However, if we cannot readily determine that interest factor, we will use an annual rate of 11%, compounded semiannually. We will also exclude from rental payments any amounts paid on account of property taxes, maintenance, repairs, insurance, water rates and other items which are not payments for property rights.

"Consolidated Net Tangible Assets" is defined in the senior debt indenture to mean as of any particular time, the aggregate amount of assets after deducting current liabilities, goodwill, patents, copyrights, trademarks, and other intangibles, in each case as shown on our most recent consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles.

"Consolidated Net Worth" is defined in the senior debt indenture to mean

the sum of (1) the par value of our capital stock, (2) our capital in excess of par value and (3) retained earnings, in each case as shown on our most recent consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles.

"Indebtedness" is defined in the senior debt indenture to mean any notes, bonds, debentures or other similar indebtedness for money borrowed.

"Mortgage" is defined in the senior debt indenture to mean a mortgage, security interest, pledge or lien.

"Principal Domestic Manufacturing Plant" is defined in the senior debt indenture to mean any manufacturing or processing plant or warehouse (other than any plant or warehouse which, in the opinion of our Board of Directors, is not material to our total business), including land and fixtures, which is owned by us or a subsidiary, located in the United States and has a gross book value (without deduction of any depreciation reserves) on the determination date of more than 1% of our Consolidated Net Worth.

"Restricted Subsidiary" is defined in the senior debt indenture to mean any Subsidiary of ours which

- o is organized under the laws of the United States or any state of the United States or the District of Columbia;
- o transacts all or a substantial part of its business in the United States; and
- o owns a Principal Domestic Manufacturing Plant.

However, "Restricted Subsidiary" does not include Pitney Bowes Credit Corporation or any other Subsidiary which

- o is primarily engaged in providing or obtaining financing for the sale or lease of products that we or our Subsidiaries sell or lease or is otherwise primarily engaged in the business of a finance company; or
- o is primarily engaged in the business of owning, developing or leasing real property other than a Principal Domestic Manufacturing Plant.

"Subsidiary" is defined in both indentures to mean any corporation of which at least a majority of the outstanding voting stock is owned by us, or by us and one or more Subsidiaries, or by one or more Subsidiaries.

EVENTS OF DEFAULT, WAIVER AND NOTICE

The indentures provide that the following events will be events of default with respect to the debt securities of a series:

- o we default in the payment of any interest on the debt securities of that series for 30 days or more;
- o we default in the payment of any principal or premium on the debt securities of that series on the date that payment was due;
- o we default in making any sinking fund payment on the debt securities of that series on the date that payment was due;
- o we breach any of the other covenants applicable to that series of debt securities and that breach continues for 90 days or more after we receive notice from the trustee or the holders of at least 25% of the aggregate principal amount of debt securities of that series;

- o we commence bankruptcy or insolvency proceedings or consent to any bankruptcy relief sought against us; or
- o we become involved in involuntary bankruptcy or insolvency proceedings and an order for relief is entered against us, if that order remains in effect for more than 60 consecutive days.

The prospectus supplement may specify additional events of default that may

be applicable to debt securities of a series.

The trustee or the holders of 25% of the aggregate principal amount of debt securities of a series may declare all of the debt securities of that series to be due and payable immediately if an event of default with respect to a payment occurs. The trustee or the holders of 25% of the aggregate principal amount of debt securities of each affected series voting as one class may declare all of the debt securities of each affected series due and payable immediately if an event of default with respect to a breach of a covenant occurs. The trustee or the holders of 25% of the aggregate principal amount of debt securities outstanding under the applicable indenture voting as one class may declare all of the debt securities outstanding under that indenture due and payable immediately if a bankruptcy event of default occurs. The holders of a majority of the aggregate principal amount of the debt securities of the applicable series or number of series may annul a declaration or waive a past default with respect to that series except for a continuing payment default and only if all other events of default with respect to that series have been cured or waived. If any of the affected debt securities are original issue discount securities, by principal amount we mean the amount that the holders would be entitled to receive by the terms of that debt security if the debt security were declared immediately due and payable.

The holders of a majority in principal amount of the debt securities of any or all series affected and then outstanding will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the applicable trustee under the indentures. Notwithstanding the foregoing, a trustee will not have to follow any direction unless the holders of the debt securities offer to reimburse the trustee for the costs, expenses and liabilities which the trustee might incur in compliance with the request.

If we have placed funds on deposit with the trustee to avoid having to comply with the restrictive covenants in the senior debt indenture and the debt securities are declared due and payable because of an event of default, the funds on deposit will be sufficient to pay amounts due on the debt securities at the time of their stated maturity, but may not be sufficient to pay amounts due on the debt securities at the time the debt securities are declared due and payable. In that case, we would remain liable for any deficiency.

Each indenture requires that we file a certificate each year with the applicable trustee stating that there are no defaults under the indenture. Each indenture permits the applicable trustee to withhold notice to holders of debt securities of any default other than a payment default if the trustee considers it in the best interests of the holders.

MODIFICATION OF INDENTURES

We can enter into a supplemental indenture with the applicable trustee to modify any provision of the applicable indenture or any series of debt securities without obtaining the consent of the holders of any debt securities if the modification does not adversely affect the holders in any material respect. In addition, we can generally enter into a supplemental indenture with the applicable trustee to modify any provision of the indenture or any series of debt securities if we obtain the consent of the holders of a majority of the aggregate principal amount of outstanding debt securities of each affected series voting as one class. However, we need the consent of each affected holder in order to:

- o change the date on which any payment of principal or interest on any debt security is due;
- o reduce the amount of any principal, interest or premium due on any debt security;
- o change the currency or location of any payment;
- o impair the right of any holder to bring suit for any payment after its due date; or
- o reduce the percentage in principal amount of debt securities required to consent to any modification or waiver of any provision of the indenture or the debt securities.

FORM OF DEBT SECURITIES

Each debt security will be represented either by a certificate issued in definitive form to a particular investor or by one or more global securities representing the entire series of securities issued at one time. Certificated securities in definitive form and global securities will be issued in registered form. Definitive securities name you or your nominee as the owner of the security and, in order to transfer or exchange these securities or to receive payments other than interest or other interim payments, you or your nominee must physically deliver the securities to the trustee, registrar, paying agent or other agent, as applicable. Global securities name a depositary or its nominee as the owner of the debt securities represented by the global securities. The depositary maintains a computerized system that will reflect the beneficial ownership of the securities through accounts maintained by broker/dealers, banks, trust companies or other representatives, as we explain more fully below under "--Global Securities."

GLOBAL SECURITIES

We may issue the debt securities of any series in the form of one or more fully registered global securities that will be deposited with a depositary or with a nominee for a depositary identified in the prospectus supplement relating to that series and registered in the name of the depositary or its nominee. Unless we specify a different depositary in a prospectus supplement, the depositary for any global securities we issue will be The Depository Trust Company, or DTC, New York, New York. In that case, one or more global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal or face amount of outstanding registered securities of the series to be represented by the global securities. Unless and until the depositary exchanges a global security in whole or in part for securities in definitive registered form, the global security may not be transferred except in whole or in part by the depositary to a nominee of the depositary or by a nominee of the depositary to the depositary or another nominee of the depositary or by the depositary or any of its nominees to a successor of the depositary or a nominee of that successor.

If not described below, any specific terms of the depositary arrangement with respect to any portion of a series of securities to be represented by a global security will be described in the prospectus supplement relating to that series. We anticipate that the following provisions will apply to all depositary arrangements.

Ownership of beneficial interests in a global security will be limited to persons that have accounts with the depositary for that global security, which we call "participants", or persons that may hold interests through participants. Upon the issuance of a global security, the depositary for the global security will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal or face amounts of the securities represented by the global security beneficially owned by those participants. The accounts to be credited will be designated by any dealers, underwriters or agents participating in the distribution of the securities. Ownership of beneficial interests in the global security will be shown on, and the transfer of those ownership interests will be effected only through, records maintained by the depositary for the global security, with respect to interests of participants, and on the records of participants, with respect to interests of persons holding through participants.

The laws of some states may require that some purchasers of securities take physical delivery of their securities in definitive form. Those laws may impair the ability to own, transfer or pledge beneficial interests in global securities.

So long as the depositary for a global security, or its nominee, is the registered owner of the global security, the depositary or its nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by the global security for all purposes under the applicable indenture. Except as described below, owners of beneficial interests in a global security will not be entitled to have the securities represented by a global security registered in their names, will not receive or be entitled to receive physical delivery of their securities in definitive form and will not be considered the owners or holders of the securities under the applicable indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of the depositary for that global security and, if that person is not a participant, on the procedures of the participant

through which that person owns its interest, to exercise any rights of a holder under the applicable indenture. We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the

applicable indenture, the depository for that global security would authorize the participants holding the relevant beneficial interests to give or take that action, and those participants would authorize beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners holding through them.

Payments of principal, premium, if any, and interest, if any, on debt securities represented by a global security registered in the name of a depository or its nominee will be made to the depository or its nominee, as the case may be, as the registered owner of the global security. We and the trustees or any of our or their agents will not have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the global security or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests.

We expect that the depository for any debt securities represented by a global security, upon receipt of any payment of principal, premium, interest or other distribution of underlying securities or commodities to holders in respect of the global security, will immediately credit participants' accounts in amounts proportionate to their respective beneficial interests in the global security as shown on the records of the depository. We also expect that payments by participants to owners of beneficial interests in the global security held through those participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of those participants.

DTC has advised us that DTC is a limited purpose trust company organized under the laws of the State of New York, a "banking organization" within the meaning of the New York banking law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered under Section 17A of the Securities Exchange Act of 1934. DTC was created to hold securities of its participants and to facilitate the clearance and settlement of securities transactions among its participants through electronic book-entry changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of which (and/or representatives of which) are also owners of DTC. Access to DTC's book-entry systems is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly.

If the depository for any debt securities represented by a global security is at any time unwilling or unable to continue as depository or ceases to be a clearing agency registered under the Exchange Act, and we do not appoint a successor depository registered as a clearing agency under the Exchange Act within 90 days, we will issue the debt securities in definitive form in exchange for that global security. We will also issue debt securities of any series in definitive form in exchange for the global securities representing the securities of that series if any event occurs and is continuing which, after notice or lapse of time, or both, would become an event of default with respect to the securities of that series. In addition, we may at any time and in our sole discretion determine not to have any of the debt securities of a series represented by one or more global securities and, in that event, will issue debt securities of that series in definitive form in exchange for all of the global security or securities representing those debt securities. Any securities issued in definitive form in exchange for a global security will be registered in such name or names as the depository will instruct the relevant trustee. We expect that those instructions will be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the global security.

DESCRIPTION OF PREFERRED STOCK AND PREFERENCE STOCK

The following description of the material terms of our preferred stock and preference stock is based on the provisions of our restated certificate of incorporation, as amended. For more information as to how you can obtain a current copy of our restated certificate of incorporation, see "Where You Can Find More Information."

Our restated certificate of incorporation, as amended, authorizes the issuance of 600,000 shares of cumulative preferred stock, par value \$50.00 per share, 5,000,000 shares of preference stock, without par value, and 480,000,000 shares of common stock, par value \$1.00 per share.

PREFERRED STOCK

We may issue preferred stock from time to time in one or more series, without stockholder approval. Subject to limitations prescribed by law, our board of directors is authorized to determine the voting powers, if any, designations and powers, preferences and rights, and the qualifications, limitations or restrictions, for each series of preferred stock that may be issued and to fix the number of shares of each series.

At August 31, 2001, there were 488 shares of our 4% Convertible Cumulative Preferred Stock outstanding. Each share of our outstanding 4% preferred stock is entitled to cumulative dividends at the rate of \$2 per year, can be redeemed at our option, in whole or in part at any time, at a price of \$50 per share, plus dividends accrued to the redemption date, and is convertible into 24.24 shares of our common stock, subject to anti-dilution adjustment.

DIVIDENDS. Holders of preferred shares of each series will be entitled to receive, when and as declared by our board of directors out of funds legally available for the payment of dividends, cumulative dividends at the rate determined by our board of directors for that series, and no more. Dividends on the preferred shares will accrue from the date fixed by our board of directors for that series. Unless we have declared and paid in full all dividends payable on all of our outstanding preferred shares for the current period and all prior periods, we will not be allowed to make any dividend payments on any class of stock that is subordinate to our preferred shares and we will not be allowed to redeem or otherwise repurchase any shares of any class of stock which ranks equally with or subordinate to our preferred shares.

Accrued and unpaid dividends on the preferred shares will not bear interest.

REDEMPTION. The terms, if any, on which preferred shares of any series may be redeemed will be described in a prospectus supplement.

If we decide to redeem fewer than all of the outstanding preferred shares of any series, we will determine the method of selecting which shares to redeem.

CONVERSION OR EXCHANGE RIGHTS. The prospectus supplement relating to any series of preferred stock that is convertible or exchangeable will state the terms on which shares of that series are convertible into or exchangeable for shares of common or preference stock or another series of preferred stock of Pitney Bowes or securities of any third party.

LIQUIDATION. In the event of our voluntary or involuntary liquidation, before any distribution of assets will be made to the holders of any class of shares ranking subordinate to the preferred shares as to assets, the holders of the preferred shares of each series will be entitled to receive out of our assets available for distribution to our shareholders the sum of the par value for that series and all accrued and unpaid dividends on those shares. In the event of a voluntary liquidation, the holders of preferred shares also will receive the premium, if any, assigned to that series. The holders of all series of preferred shares are entitled to share ratably, in accordance with the respective amounts payable on their shares, in any distribution upon liquidation

which is not sufficient to pay in full the aggregate amounts payable on all of those shares. After payment in full of the liquidation price of the preferred shares, the holders of those shares will not be entitled to any further participation in any distribution of our assets. Neither the consolidation or merger of Pitney Bowes with or into any other corporation or corporations, nor the merger or consolidation of any other corporation into and with Pitney Bowes, will be deemed to be a voluntary or involuntary liquidation if the transaction is consented to by the holders of 66 2/3% of the outstanding preferred shares. However, the sale, exchange or transfer of all or substantially all of the assets of Pitney Bowes

13

will be deemed a voluntary liquidation of Pitney Bowes for purposes of payment of the liquidation price of the preferred shares.

VOTING. The preferred shares of a series will not be entitled to vote, except as provided below or in the applicable prospectus supplement unless required by applicable law. Unless otherwise indicated in the prospectus supplement relating to a series of preferred shares, each share of a series will be entitled to one vote on matters on which holders of that series are entitled to vote. However, we may not alter certain rights and preferences of the preferred shares without the affirmative vote of the holders of at least two-thirds of the affected outstanding preferred shares, voting as a class. In addition, whenever dividends on the preferred shares are in arrears in an aggregate amount equal to six quarterly dividend periods or we fail to retire or repurchase any shares of preferred stock that we are obligated to retire or repurchase, then the holders of all series of outstanding preferred shares, voting as a class, will be entitled to elect one-third of the total number of directors, but not less than three directors. We may not increase the amount of preferred shares or authorize or create any shares of any other class of stock ranking equal to the preferred shares as to dividends or assets or otherwise without the consent of the holders of at least a majority of all the outstanding preferred shares, voting as a class.

PREFERENCE STOCK

We may issue preference stock from time to time in one or more series, without stockholder approval. The preference shares rank as to dividends and assets junior to the preferred shares but senior to the common stock and to any other capital stock of Pitney Bowes that we may authorize in the future, other than capital stock that ranks senior or equal to the preference shares and that is authorized as described below under "--Voting". Each series of preference shares will rank equally to each other series of preference shares as to dividends and assets, unless the prospectus supplement relating to a particular series of preference shares states that the shares of that series rank junior to the other series of preference shares as to dividends or assets or both.

Subject to the limitations prescribed by law, our board of directors is authorized to determine the voting powers, if any, designations and powers, preferences and rights, and the qualifications, limitations or restrictions for each series of preference stock that may be issued and to fix the number of shares of each series.

At August 31, 2001, there were 59,774 shares of \$2.12 Convertible Preference Stock outstanding. Each share of our outstanding \$2.12 preference stock is entitled to cumulative dividends at the rate of \$2.12 per year, can be redeemed at our option, in whole or in part at any time, at a price of \$28 per share, plus dividends accrued to the redemption date, and is convertible into 16 shares of our common stock, subject to anti-dilution adjustment.

DIVIDENDS. Holders of preference shares of each series will be entitled to receive, when and as declared by our board of directors out of funds legally available for the payment of dividends, cumulative dividends at the rate determined by our board of directors for that series, and no more. Dividends on the preference shares will accrue from the date fixed by our board of directors for that series. Because the preference shares rank junior to the preferred shares, unless we have declared and paid in full all dividends payable on all of our outstanding preferred shares for the current period and all prior periods, we will not be allowed to make any dividend payments on the preference shares and we will not be able to redeem or repurchase any preference shares. We will also not be allowed to make any dividend payment on any series of preference shares unless at the same time we pay dividends, in the same proportion to the

preferential dividend rates, for each other series of preference shares ranking equally with that series. In addition, unless we have paid in full all dividends payable on all of our outstanding preference shares for the current period and all prior periods, we will not be allowed to make any dividend payments on any class of stock that is subordinate to our preference shares and we will not be allowed to redeem or otherwise repurchase any shares of any class of stock which ranks equally with or subordinate to our preference shares.

REDEMPTION. The terms, if any, on which preference shares of any series may be redeemed will be described in a prospectus supplement.

If we decide to redeem fewer than all of the outstanding preference shares of any series, we will determine the method of selecting which shares to redeem.

14

CONVERSION OR EXCHANGE RIGHTS. The prospectus supplement relating to any series of preference stock that is convertible or exchangeable will state the terms on which shares of that series are convertible into or exchangeable for shares of common stock or another series of preference stock of Pitney Bowes or securities of any third party.

LIQUIDATION. In the event of our voluntary or involuntary liquidation, before any distribution of assets is made to the holders of any class of shares ranking as to assets subordinate to the preference shares, the holders of the preference shares of each series will be entitled to receive out of our assets available for distribution to our shareholders the preferential amount, in cash, that will be determined by our board of directors for that series when that series is established and all accrued and unpaid dividends on those shares, but the holders of the preference shares will not be entitled to receive the liquidation price of their shares until the liquidation price of the preferred shares outstanding at the time has been paid in full. The holders of all series of preference shares are entitled to share ratably, in accordance with the respective amounts payable on their shares, in any distribution upon liquidation which is not sufficient to pay in full the aggregate amounts payable on those shares, except to the extent that the prospectus supplement relating to a particular series of preference shares states that the shares of that series rank junior to the other series of preference shares as to dividends or assets. After payment in full of the liquidation price of the preference shares, the holders of those shares will not be entitled to any further participation in any distribution of our assets.

VOTING. The preference shares of a series will not be entitled to vote, except as provided below or in the applicable prospectus supplement and as required by applicable law. Unless otherwise indicated in the prospectus supplement relating to a series of preference shares, each share of a series will be entitled to one vote on matters on which holders of that series are entitled to vote. Notwithstanding the foregoing, we may not create, authorize or increase the authorized amount of any class of stock having preference or priority as to dividends or assets over the preference shares without the affirmative vote of the holders of at least two-thirds of the preference shares, irrespective of series. We may not increase the authorized amount of preference stock or of any previously authorized class of stock ranking equally with the preference stock as to dividends or assets, or authorize or create any class of stock ranking equally with the preference stock as to dividends or assets, without the consent of the holders of a majority of the outstanding preference shares, irrespective of series. Whenever dividends on the preference shares are in arrears in an aggregate amount equal to six quarterly dividend periods, then the holders of preference shares, voting as a class, will be entitled to elect two directors.

DESCRIPTION OF COMMON STOCK

The following description of the material terms of our common stock is based on the provisions of our restated certificate of incorporation, as amended. For more information as to how you can obtain a current copy of our restated certificate of incorporation, see "Where You Can Find More Information".

We do not intend to offer common stock directly with this prospectus. We may issue debt securities or preferred or preference stock under this prospectus that are convertible into Pitney Bowes' common stock. If a series of securities is convertible into common stock, the prospectus supplement will state the initial conversion price per share at which the securities may be converted.

Subject to the rights of the holders of any of our preferred stock or preference stock then outstanding, holders of common stock are entitled to one vote per share on matters to be voted on by our stockholders and to receive dividends, if any, when declared from time to time by our board of directors in its discretion out of legally available funds. Upon our liquidation or dissolution, holders of common stock are entitled to receive proportionately all assets remaining after payment of all liabilities and liquidation preference on any shares of preferred stock or preference stock outstanding at the time. Holders of common stock have no preemptive or other subscription rights other than the rights described below under "--Stockholder Rights Agreement", and there are no conversion rights or redemption or sinking fund provisions with respect to common stock. As of August 31, 2001, there were approximately 244,829,461 shares of our common stock outstanding, net of 78,508,451 shares of treasury stock, and approximately 18,772,315 shares reserved for issuance upon exercise of outstanding stock options and conversion of our 4% preferred shares and \$2.12 preference shares. All of our outstanding common stock is fully paid and non-assessable, which means that the holders have paid their purchase price in full and we may not ask them for additional funds, and all of the shares of common stock that may be offered with this prospectus will be fully paid and non-assessable when issued.

The transfer agent and registrar for our common stock is First Chicago Trust Company of New York, a division of Equiserve LP.

Our common stock is listed on the New York Stock Exchange under the ticker symbol "PBI".

STOCKHOLDER RIGHTS AGREEMENT

On December 11, 1995, we entered into a stockholder rights agreement. The material provisions of that rights agreement are summarized below. However, since the terms of our rights agreement are complex, this summary may not contain all of the information that is important to you. For more information, you should read the agreement, which is filed as an exhibit with the SEC. See "Where You Can Find More Information" for information on how to obtain a copy.

Our rights agreement currently provides that each share of our outstanding common stock has one right to purchase one-two-hundredth of a share of our Series A Junior Participating Preference Stock. The purchase price per one-two-hundredth of a share of preference stock under the stockholder rights agreement is \$97.50. The rights are not exercisable until they separate from the common stock, as described below.

Initially, the rights under our rights agreement are attached to outstanding certificates representing our common stock, but the rights will be represented by separate certificates on the day 10 days after someone acquires at least 20% of our common stock, or approximately 10 days after someone commences a tender offer for at least 20% of our outstanding common stock.

After the rights separate from our common stock, certificates representing the rights will be mailed to record holders of the common stock. Once distributed, the rights certificates alone will represent the rights. All shares of our common stock issued prior to the date the rights separate from the common stock have been and will be issued with the rights attached. Until the rights separate from the common stock, each right will be transferable only with the related share of common stock. The rights will expire on February 20, 2006 unless we redeem or exchange them earlier.

If an acquiring person obtains or has the right to obtain at least 20% of our common stock and none of the events described in the next paragraph have occurred, then each right will entitle the holder to purchase for \$97.50 a number of shares of our common stock having a then current market value of \$195.00.

If an acquiring person obtains or has the right to obtain at least 20% of our common stock, then each right will entitle the holder to purchase for \$97.50 a number of shares of common stock of the acquiring person having a then current market value of \$195.00 if any of the following occurs:

- o we merge into another entity;
- o an acquiring entity merges into us; or
- o we sell 50% or more of our assets or earning power.

Under our rights agreement, any rights that are or were owned by an acquiring person of more than 20% of our outstanding common stock will be null and void.

Our rights agreement contains exchange provisions which provide that after an acquiring person obtains 20% or more, but less than 50%, of our outstanding common stock, our board of directors may, at its option, exchange all or part of the then outstanding and exercisable rights for shares of our common stock, at an exchange ratio of one share of common stock or one two-hundredth of a share of Series A Junior Participating Preference Stock per right.

Our board of directors may, at its option, redeem all of the outstanding rights at a redemption price of \$0.005 per right, subject to adjustment, prior to the earlier of (1) the time that an acquiring person obtains 20% or more of our outstanding common stock, or (2) the final expiration date of the rights agreement. The ability to exercise the rights will terminate upon the action of our board of directors ordering the redemption of the rights, and the only right of the holders of the rights will be to receive the redemption price.

Holders of rights will have no rights as stockholders, such as the right to vote or receive dividends, simply by virtue of holding the rights. The rights agreement includes anti-dilution provisions designed to prevent efforts to diminish the effectiveness of the rights.

For so long as the rights are redeemable, we may amend the rights agreement in any respect. At any time when the rights are no longer redeemable, we may amend the rights in any respect that does not adversely affect the holders of rights.

Our rights agreement contains provisions that have anti-takeover effects. The rights may cause substantial dilution to a person or group that attempts to acquire us without conditioning the offer on a substantial number of rights being acquired, redeemed or declared invalid. Accordingly, the existence of the rights may deter acquirors from making takeover proposals or tender offers. However, the rights are not intended to prevent a takeover, but rather are designed to enhance the ability of our board of directors to negotiate with an acquiror on behalf of all of the stockholders.

LIMITATION OF LIABILITY AND INDEMNIFICATION MATTERS

Our certificate of incorporation provides that a director of Pitney Bowes will not be liable to Pitney Bowes or its stockholders for monetary damages for breach of fiduciary duty as a director, except in certain cases where liability is mandated by the Delaware General Corporation Law.

Our certificate of incorporation also provides for indemnification, to the fullest extent permitted by the Delaware General Corporation Law, of any person made or threatened to be made a party to any action, suit or proceeding by reason of the fact that the person is or was a director or officer of Pitney Bowes, or, at the request of Pitney Bowes, serves or served as a director, officer, employee or agent of another corporation or of a partnership, joint venture, trust or other enterprise, against all expense, liability and loss (including attorneys' fees, judgments, fines, Employee Retirement Income Security Act excise taxes or penalties and amounts paid or to be paid in settlement) reasonably incurred or suffered by that person in connection with the action, suit or proceeding. Our certificate of incorporation also provides that, to the extent authorized from time to time by our board of directors,

Pitney Bowes may provide to employees and other agents of Pitney Bowes rights of indemnification and to receive

17

payment or reimbursement of expenses, including attorneys' fees, that are similar to the rights conferred by the certificate of incorporation on directors and officers of Pitney Bowes or persons serving at the request of Pitney Bowes as directors, officers, employees or agents of any other enterprise.

SECTION 203 OF THE DELAWARE GENERAL CORPORATION LAW

Section 203 of the Delaware General Corporation Law applies to Pitney Bowes. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a "business combination" with an "interested stockholder", as defined in Section 203, for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner. A "business combination" includes a merger, asset sale or a transaction resulting in a financial benefit to the interested stockholder. An "interested stockholder", as defined in Section 203, is a person who, together with affiliates and associates, owns (or, in certain cases, within the preceding three years, did own) 15% or more of the corporation's outstanding voting stock. Under Section 203, a business combination between Pitney Bowes and an interested stockholder is prohibited unless it satisfies one of the following conditions:

- o before the stockholder became an interested stockholder, the board of directors of Pitney Bowes must have approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;
- o upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of Pitney Bowes outstanding at the time the transaction commenced, excluding, for purposes of determining the number of shares outstanding, shares owned by persons who are directors and officers; or
- o the business combination is approved by the board of directors of Pitney Bowes and authorized at an annual or special meeting of the stockholders by the affirmative vote of at least 66 2/3 % of the outstanding voting stock which is not owned by the interested stockholder.

See also "--Certain Anti-Takeover Matters--Vote Required for Certain Business Combinations" below for information about provisions in our certificate of incorporation that impose requirements similar to those of Section 203.

CERTAIN ANTI-TAKEOVER MATTERS

Our certificate of incorporation and by-laws include a number of provisions that may have the effect of encouraging persons considering unsolicited tender offers or other unilateral takeover proposals to negotiate with our board of directors rather than pursue non-negotiated takeover attempts. These provisions include:

VOTE REQUIRED FOR CERTAIN BUSINESS COMBINATIONS. Our certificate of incorporation generally requires the affirmative vote of the holders of at least 80% of the voting power of the then outstanding shares of capital stock of Pitney Bowes entitled to vote generally in the election of directors, which we call "voting stock", voting together as a single class, in addition to any other affirmative vote required by law or the certificate of incorporation, to approve:

- o any merger or consolidation of Pitney Bowes or any of its subsidiaries with an "interested stockholder", as defined in the certificate of incorporation and described below, or any other corporation which is, or after the merger or consolidation would be, an affiliate of an interested stockholder;
- o any sale, lease, exchange, mortgage, pledge, transfer or other disposition to or with any interested stockholder or any affiliate of any interested stockholder of any assets of Pitney Bowes or any of its subsidiaries having an aggregate fair market value of \$50,000,000 or

more;

- o the issuance or transfer by Pitney Bowes or any of its subsidiaries of any securities of Pitney Bowes or any of its subsidiaries to any interested stockholder or any affiliate of any interested stockholder in exchange for cash, securities or other property having an aggregate fair market value of \$50,000,000 or more;
- o the adoption of any plan or proposal for the liquidation or dissolution of Pitney Bowes proposed by or on behalf of an interested stockholder or any affiliate of any interested stockholder; or

18

- o any reclassification of securities or recapitalization of Pitney Bowes, or any merger or consolidation of Pitney Bowes with any of its subsidiaries or any other transaction which has the effect of increasing the proportionate share of the outstanding shares of any class of equity or convertible securities of Pitney Bowes or any of its subsidiaries which is directly or indirectly owned by any interested stockholder or any affiliate of any interested stockholder.

An "interested stockholder" means any person, other than Pitney Bowes or any of its subsidiaries, who or which:

- o beneficially owns, directly or indirectly, more than 20% of the voting power of the outstanding shares of voting stock;
- o is an affiliate of Pitney Bowes and at any time within the two-year period immediately before the date in question beneficially owned, directly or indirectly, 20% or more of the voting power of the then outstanding voting stock; or
- o is the assignee of any shares of voting stock which were at any time within the two-year period immediately before the date in question beneficially owned by an interested stockholder, if the assignment of those shares occurred in the course of a transaction or series of transactions not involving a public offering within the meaning of the Securities Act of 1933.

The special voting requirement described above will not apply to a transaction of any of the kinds described above, and that transaction will require only any affirmative vote that is required by law and any other provisions of our certificate of incorporation, if either:

- o a majority of our "disinterested directors" approve the transaction; "disinterested director" means any director who is unaffiliated with the interested stockholder and was a member of the board of directors before the interested stockholder became an interested stockholder, and any successor of a disinterested director who is unaffiliated with the interested stockholder and is recommended to succeed the disinterested director by a majority of disinterested directors then on the board; or
- o all of the following conditions are met:
 - the aggregate amount of the cash and the fair market value as of the date of consummation of the transaction of consideration other than cash to be received per share by holders of common stock in the transaction is at least equal to the higher of the following: (a) the highest per share price paid by the interested stockholder for any shares of common stock acquired by it within the two-year period immediately before the first public announcement of the proposal of the transaction, which we call the "announcement date", or in the transaction in which it became an interested stockholder, whichever is higher, and (b) the fair market value per share of common stock on the announcement date or the date on which the interested stockholder became an interested stockholder, whichever is higher;
 - the aggregate amount of the cash and the fair market value as of the date of consummation of the transaction of consideration other than cash to be received per share by holders of shares of any other class of outstanding voting stock is at least equal to the highest

of the following: (a) the highest per share price paid by the interested stockholder for any shares of that class of voting stock acquired by it within the two-year period immediately before the announcement date or in the transaction in which it became an interested stockholder, whichever is higher; (b) the highest preferential amount per share to which the holders of shares of that class of voting stock are entitled upon any voluntary or involuntary liquidation, dissolution or winding up of Pitney Bowes; and (c) the fair market value per share of that class of voting stock on the announcement date or the date on which the interested stockholder became an interested stockholder, whichever is higher;

- the consideration to be received by holders of a particular class of outstanding voting stock will be in cash or in the same form as the interested stockholder has previously paid for shares of that class of voting stock; if the interested stockholder has paid for shares of any class of voting stock with

19

varying forms of consideration, the consideration for that class will be either cash or the form used to acquire the largest number of shares of that class previously acquired by it;

- after the interested stockholder has become an interested stockholder and before the consummation of the transaction: (a) except as approved by a majority of the disinterested directors, Pitney Bowes has not failed to declare and pay at the regular date any full quarterly dividends on the outstanding preferred stock or preference stock; (b) except as approved by a majority of the disinterested directors, Pitney Bowes has not reduced the annual rate of dividends on the common stock or failed to increase that rate to reflect any reclassification of the outstanding shares of common stock, including any reverse stock split; (c) the interested stockholder has not become the beneficial owner of any additional shares of voting stock except as part of the transaction which results in the interested stockholder becoming an interested stockholder;
- after the interested stockholder has become an interested stockholder, the interested stockholder has not received the benefit, except proportionately as a stockholder, of any loans, advances, guarantees, pledges or other financial assistance or any tax credits or other tax advantages provided by Pitney Bowes; and
- a proxy or information statement describing the proposed transaction and complying with the requirements of the Exchange Act and the rules and regulations under that Act has been mailed to public stockholders of Pitney Bowes at least 30 days before the consummation of the transaction, whether or not the proxy or information statement is required to be mailed under that Act.

CLASSIFIED BOARD OF DIRECTORS. Our certificate of incorporation provides for a board of directors divided into three classes, with one class to be elected each year to serve for a three-year term. As a result, at least two annual meetings of stockholders may be required for the stockholders to change a majority of our board of directors. In addition, the stockholders of Pitney Bowes can only remove directors, with or without cause, by the affirmative vote of the holders of at least 80% of the outstanding shares of voting stock, voting together as a single class. Except to the extent that the holders of preferred stock and preference stock have the right to fill vacancies on the board of directors in some circumstances, vacancies on our board of directors may be filled only by our board of directors. The classification of directors and the inability of stockholders to remove directors without the vote of at least 80% of the outstanding shares of voting stock or to fill vacancies on the board of directors make it more difficult to change the composition of our board of directors, but promote a continuity of existing management.

ADVANCE NOTICE REQUIREMENTS. Our by-laws establish advance notice procedures with regard to stockholder proposals relating to the nomination of candidates for election as directors or other business to be brought before meetings of stockholders of Pitney Bowes. These procedures provide that notice of stockholder proposals of these kinds must be timely given in writing to the

Secretary of Pitney Bowes before the meeting at which the action is to be taken. Generally, to be timely, notice of stockholder proposals other than nomination of director candidates must be received at the principal executive offices of Pitney Bowes not less than 90 days before an annual meeting at which the proposals are to be presented, and notice of stockholder nominations of director candidates to be presented at an annual or special meeting must be received not later than (1) 90 days before the annual meeting or (2) the close of business on the seventh day following the date on which notice of the special meeting is first given to stockholders, as applicable. The notice must contain certain information specified in the by-laws.

NO ABILITY OF STOCKHOLDERS TO CALL SPECIAL MEETINGS. Our certificate of incorporation and by-laws deny stockholders the right to call a special meeting of stockholders, except to the extent that holders of preferred stock or preference stock have the right to call a special meeting in some circumstances. Our certificate of incorporation and by-laws provide that, except to that extent, only the board of directors may call special meetings of the stockholders.

NO WRITTEN CONSENT OF STOCKHOLDERS. Our certificate of incorporation requires all stockholder actions to be taken by a vote of the stockholders at an annual or special meeting, and does not permit our stockholders to act by written consent without a meeting.

AMENDMENT OF BY-LAWS AND CERTIFICATE OF INCORPORATION. Our certificate of incorporation requires the approval of not less than 80% of the voting power of all outstanding shares of voting stock, voting as a single class, to amend any of the provisions of the certificate of incorporation and by-laws described in this section. Those

20

provisions make it more difficult to dilute the anti-takeover effects of our by-laws and our certificate of incorporation.

BLANK CHECK PREFERRED AND PREFERENCE STOCK. Our certificate of incorporation provides for 600,000 authorized shares of preferred stock and 5,000,000 authorized shares of preference stock. The existence of authorized but unissued shares of preferred and preference stock may enable the board of directors to render more difficult or to discourage an attempt to obtain control of Pitney Bowes by means of a merger, tender offer, proxy contest or otherwise. For example, if in the due exercise of its fiduciary obligations, the board of directors were to determine that a takeover proposal is not in the best interests of Pitney Bowes, the board of directors could cause shares of preferred or preference stock to be issued without stockholder approval in one or more private offerings or other transactions that might dilute the voting or other rights of the proposed acquiror or insurgent stockholder or stockholder group. In this regard, the certificate of incorporation grants our board of directors broad power to establish the rights and preferences of authorized and unissued shares of preferred and preference stock. The issuance of shares of preferred or preference stock could decrease the amount of earnings and assets available for distribution to holders of shares of common stock. The issuance may also adversely affect the rights and powers, including voting rights, of those holders and may have the effect of delaying, deterring or preventing a change in control of Pitney Bowes.

21

DESCRIPTION OF DEPOSITARY SHARES

We may, at our option, elect to offer fractional shares of preferred stock or preference stock, rather than full shares of preferred stock or preference stock. If we exercise this option, we will issue to the public receipts for

depository shares, and each of these depository shares will represent a fraction (to be set forth in the applicable prospectus supplement) of a share of a particular series of preferred stock or preference stock.

The shares of any series of preferred stock or preference stock underlying the depository shares will be deposited under a deposit agreement between us and a bank or trust company selected by us. The depository will have its principal office in the United States and a combined capital and surplus of at least \$50,000,000. Subject to the terms of the deposit agreement, each owner of a depository share will be entitled, in proportion to the applicable fraction of a share of preferred stock or preference stock underlying the depository share, to all the rights and preferences of the preferred stock or preference stock underlying that depository share. Those rights may include dividend, voting, redemption, conversion and liquidation rights.

The depository shares will be evidenced by depository receipts issued under a deposit agreement. Depository receipts will be distributed to those persons purchasing the fractional shares of preferred stock or preference stock underlying the depository shares, in accordance with the terms of the offering. The following description of the material terms of the deposit agreement, the depository shares and the depository receipts is only a summary and you should refer to the forms of the deposit agreement and depository receipts that will be filed with the SEC in connection with the offering of the specific depository shares.

Pending the preparation of definitive engraved depository receipts, the depository may, upon our written order, issue temporary depository receipts substantially identical to the definitive depository receipts but not in definitive form. These temporary depository receipts entitle their holders to all the rights of definitive depository receipts. Temporary depository receipts will then be exchangeable for definitive depository receipts at our expense.

DIVIDENDS AND OTHER DISTRIBUTIONS. The depository will distribute all cash dividends or other cash distributions received with respect to the underlying stock to the record holders of depository shares in proportion to the number of depository shares owned by those holders.

If there is a distribution other than in cash, the depository will distribute property received by it to the record holders of depository shares that are entitled to receive the distribution, unless the depository determines that it is not feasible to make the distribution. If this occurs, the depository may, with our approval, sell the property and distribute the net proceeds from the sale to the applicable holders.

WITHDRAWAL OF UNDERLYING PREFERRED OR PREFERENCE STOCK. Unless we say otherwise in a prospectus supplement, holders may surrender depository receipts at the principal office of the depository and, upon payment of any unpaid amount due to the depository, be entitled to receive the number of whole shares of underlying preferred or preference stock and all money and other property represented by the related depository shares. We will not issue any partial shares of preferred or preference stock. If the holder delivers depository receipts evidencing a number of depository shares that represent more than a whole number of shares of preferred or preference stock, the depository will issue a new depository receipt evidencing the excess number of depository shares to that holder.

REDEMPTION OF DEPOSITORY SHARES. If a series of preferred stock or preference stock represented by depository shares is subject to redemption, the depository shares will be redeemed from the proceeds received by the depository resulting from the redemption, in whole or in part, of that series of underlying stock held by the depository. The redemption price per depository share will be equal to the applicable fraction of the redemption price per share payable with respect to that series of underlying stock. Whenever we redeem shares of underlying stock that are held by the depository, the depository will redeem, as of the same redemption date, the number of depository shares representing the shares of underlying stock so redeemed. If fewer than all the depository shares are to be redeemed, the depository shares to be redeemed will be selected by lot or proportionately, as may be determined by the depository.

VOTING. Upon receipt of notice of any meeting at which the holders of the underlying stock are entitled to vote, the depository will mail the information contained in the notice to the record holders of the depository shares

underlying the preferred stock or preference stock. Each record holder of the depositary shares on the record date (which will be the same date as the record date for the underlying stock) will be entitled to instruct the depositary as to the exercise of the voting rights pertaining to the amount of the underlying stock represented by that holder's depositary shares. The depositary will then try, as far as practicable, to vote the number of shares of preferred stock or preference stock underlying those depositary shares in accordance with those instructions, and we will agree to take all actions which may be deemed necessary by the depositary to enable the depositary to do so. The depositary will not vote the underlying shares to the extent it does not receive specific instructions from the holders of depositary shares underlying the preferred stock or preference stock.

CONVERSION OF PREFERRED OR PREFERENCE STOCK. If the prospectus supplement relating to the depositary shares says that the deposited preferred or preference stock is convertible into or exchangeable for common stock or preferred or preference stock of another series of Pitney Bowes or securities of any third party, the following will apply. The depositary shares, as such, will not be convertible into or exchangeable for any securities of Pitney Bowes or any third party. Rather, any holder of the depositary shares may surrender the related depositary receipts to the depositary with written instructions to instruct us to cause conversion or exchange of the preferred or preference stock represented by the depositary shares into or for whole shares of common stock or shares of another series of preferred or preference stock of Pitney Bowes or securities of the relevant third party, as applicable. Upon receipt of those instructions and any amounts payable by the holder in connection with the conversion or exchange, we will cause the conversion or exchange using the same procedures as those provided for conversion or exchange of the deposited preferred or preference stock. If only some of the depositary shares are to be converted or exchanged, a new depositary receipt or receipts will be issued for any depositary shares not to be converted or exchanged.

AMENDMENT AND TERMINATION OF THE DEPOSITARY AGREEMENT. The form of depositary receipt evidencing the depositary shares and any provision of the deposit agreement may at any time be amended by agreement between us and the depositary. However, any amendment which materially and adversely alters the rights of the holders of depositary shares will not be effective unless the amendment has been approved by the holders of at least a majority of the depositary shares then outstanding. The deposit agreement may be terminated by us or by the depositary only if (a) all outstanding depositary shares have been redeemed or converted or exchanged for any other securities into which the underlying preferred or preference stock is convertible or exchangeable or (b) there has been a final distribution of the underlying stock in connection with our liquidation, dissolution or winding up and the underlying stock has been distributed to the holders of depositary receipts.

CHARGES OF DEPOSITARY. We will pay all transfer and other taxes and governmental charges arising solely from the existence of the depositary arrangements. We will also pay charges of the depositary in connection with the initial deposit of the underlying stock and any redemption of the underlying stock. Holders of depositary receipts will pay other transfer and other taxes and governmental charges and those other charges, including a fee for any permitted withdrawal of shares of underlying stock upon surrender of depositary receipts, as are expressly provided in the deposit agreement to be for their accounts.

REPORTS. The depositary will forward to holders of depositary receipts all reports and communications from us that we deliver to the depositary and that we are required to furnish to the holders of the underlying stock.

LIMITATION ON LIABILITY. Neither we nor the depositary will be liable if either of us is prevented or delayed by law or any circumstance beyond our control in performing our respective obligations under the deposit agreement. Our obligations and those of the depositary will be limited to performance in good faith of our respective duties under the deposit agreement. Neither we nor the depositary will be obligated to prosecute or defend any legal proceeding in respect of any depositary shares or underlying stock unless satisfactory indemnity is furnished. We and the depositary may rely upon written advice of counsel or accountants, or upon information provided by persons presenting underlying stock for deposit, holders of depositary receipts or other persons believed to be competent and on documents believed to be genuine.

RESIGNATION AND REMOVAL OF DEPOSITARY. The depositary may resign at any

time by delivering notice to us of its election to resign. We may remove the depository at any time. Any resignation or removal will take effect upon the appointment of a successor depository and its acceptance of the appointment. The successor depository must be appointed within 60 days after delivery of the notice of resignation or removal and must be a bank or trust company having its principal office in the United States and having a combined capital and surplus of at least \$50,000,000.

23

PLAN OF DISTRIBUTION

We may sell the securities being offered by this prospectus in four ways:

- o directly to purchasers;
- o through agents;
- o through underwriters; and
- o through dealers.

We may directly solicit offers to purchase our securities or we may designate agents to solicit offers to purchase those securities. We will, in the prospectus supplement relating to an offering, name any agent that could be viewed as an underwriter under the Securities Act of 1933 and describe any commissions we must pay. Any agent will be acting on a best efforts basis for the period of its appointment or, if indicated in the applicable prospectus supplement, on a firm commitment basis. Agents, dealers and underwriters may be customers of, engage in transactions with, or perform services for us in the ordinary course of business.

As one of the means of direct issuance of securities, we may utilize the services of any available electronic auction system to conduct an electronic 'dutch auction' of the offered securities among potential purchasers who are eligible to participate in the auction of those offered securities, if so described in the prospectus supplement.

If any underwriters are utilized in the sale of the securities in respect of which this prospectus is delivered, we will enter into an underwriting agreement with them at the time of sale to them and we will set forth in the prospectus supplement relating to that offering their names and the terms of our agreement with them.

If a dealer is utilized in the sale of the securities in respect of which the prospectus is delivered, we will sell those securities to the dealer, as principal. The dealer may then resell those securities to the public at varying prices to be determined by such dealer at the time of resale.

Remarketing firms, agents, underwriters and dealers may be entitled under agreements which they may enter into with us to indemnification by us against some types of civil liabilities or to contribution in respect of those liabilities, including liabilities under the Securities Act of 1933. Remarketing firms, agents, underwriters and dealers may be customers of or engage in transactions with or perform services for us in the ordinary course of business.

If we so indicate in the prospectus supplement, we will authorize agents, underwriters or dealers to solicit offers by the types of purchasers specified in the prospectus supplement to purchase offered securities from us at the public offering price set forth in the prospectus supplement under delayed delivery contracts providing for payment and delivery on a specified date in the future. These contracts will be subject to only those conditions described in the prospectus supplement, and the prospectus supplement will set forth the commission payable for solicitation of those offers.

Any underwriter, agent or dealer utilized in the initial offering of securities will not confirm sales to accounts over which it exercises discretionary authority without the prior specific written approval of its customer.

VALIDITY OF THE SECURITIES

Unless otherwise specified in a prospectus supplement, the validity of the

securities in respect of which this prospectus is being delivered will be passed on for us by Sara E. WHERE YOU CAN FIND MORE INFORMATION

We have filed this prospectus as part of a registration statement on Form S-3 with the SEC. The registration statement contains exhibits and other information that are not contained in this prospectus. In particular, the registration statement includes as exhibits copies of the forms of our senior and subordinated indentures. Our descriptions in this prospectus of the provisions of documents filed as exhibits to the registration statement or otherwise filed with the SEC are only summaries of the documents' material terms. If you want to review any of these documents, you should obtain the documents by following the procedures described in the paragraph below.

We file annual, quarterly and special reports and other information with the SEC. You may read and copy any document we file at the SEC's Public Reference Room located at 450 Fifth Street, N.W., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the Public Reference Room. You may also read our SEC filings, including the complete registration statement and all of the exhibits to it, through the SEC's web site at <http://www.sec.gov>.

The SEC allows us to "incorporate by reference" much of the information we file with them, which means that we can disclose important information to you by referring you directly to those publicly available documents. The information incorporated by reference is considered to be part of this prospectus. In addition, information we file with the SEC in the future will automatically update and supersede information contained in this prospectus and the accompanying prospectus supplement.

We incorporate by reference the documents listed below and any filings made with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of the initial registration statement and before the effectiveness of the registration statement and after the effectiveness of the registration statement until we sell all of the securities we are offering with this prospectus:
