

Where innovation begins

Where does innovation begin? At Pitney Bowes, it starts with our clients.

More than 1.5 million strong, they have great ideas and urgent needs. We pay close attention to both.

But we also look beyond the present to the forces that will determine their success tomorrow.

Reinventing communications for the multichannel world. Opening international e-commerce with seamless transactions. Applying big-company experience to help small companies grow.

**It's all part of what we do every day:
help our clients stay a step ahead.**

Pitney Bowes Fellow, Worldwide Shipping and Tracking
Reimagining our core mailing products from the inside out

Alexandra Mack,
Research Fellow, Strategic Technology and Innovation Center
Developing client insights using anthropology, a crucial component of innovation

James Fairweather,
Vice President, Technology Development
Leading the development of software and technology innovation for our clients

Fellow shareholders:

I am honored and excited to report to you as the new president and chief executive officer of Pitney Bowes. I came here because I saw a company with enormous promise and unique strengths. We have not performed to our potential in recent years as disruptive technologies have radically altered traditional modes of communication and commerce. Yet the opportunities remain immense for a company that understands this complex new world, makes the right strategic choices and executes with discipline. Given our extraordinary legacy, global customer base and untold capacity for innovation, I am convinced that Pitney Bowes can be that company.

The evidence is all around me. We have a terrific portfolio of best-in-class technologies, from location intelligence, data quality and international e-commerce—capabilities built on years of investment in research and development. We have more than 1.5 million clients in over 100 countries—a large, diverse and valuable client base. We have a high recurring revenue stream, enviable margins and strong market share in the modern mailing industry that Pitney Bowes helped invent nearly a century ago. Most important, we have fantastic employees eager to contribute and full of good ideas. These are the ingredients for a very successful company.

Revenue and income were down in 2012 from a year ago, and our stock price declined as a result. It is too early in my tenure to make sweeping judgments about the reasons for this performance. But to borrow a phrase from the world of politics, I am confident there is nothing wrong with Pitney Bowes that cannot be cured by what is right with Pitney Bowes. We control our own destiny.

Boundless opportunity

We signed major agreements in 2012 that demonstrate how Pitney Bowes is helping our clients and their customers communicate and transact business in new ways.

Our software business entered into an agreement with Facebook that puts our geocoding technologies in the hands of one-seventh of the world's population. Facebook users can now let their friends know their location with greater accuracy whenever and wherever they log in. Facebook is also using our technology to add geographic information to billions of records a month, including instant messages, photos, videos and events.

Our agreement with Facebook puts our geocoding technologies in the hands of one-seventh of the world's population.

Combine this technology with our location-based analytical tools and extensive databases, and mobile marketing becomes much more effective. Mobile advertising revenue is projected to be \$24 billion by 2016, with over half of those ads in the U.S. powered by location awareness. Pitney Bowes is well positioned to drive and profit from this trend.

Our e-commerce business signed an agreement to streamline international sales for eBay users, creating a significant and largely untapped market opportunity for our services. Our software instantly calculates each international buyer's end-to-end costs, including shipping charges, import fees, taxes and insurance. This reduces the hidden costs that

We are streamlining international sales for eBay users.

often spoil the customer experience in cross-border online retailing. We also manage the international shipment of goods, tracking them end-to-end and clearing them through customs faster. We are using this expertise to help dozens of companies, from small merchants to major brands, break down the international barriers to online commerce and cross-border shipping.

We continue to innovate in our traditional mailing operations for the benefit of businesses of all sizes. For large mailers, we have transformed the economics of printing and mailing by reengineering key technologies. For example, a bank issuing credit cards for multiple merchants once had to print statements in separate runs, on each merchant's preprinted form. With our technology, jobs can be consolidated and printed together on the same roll of plain white paper. Each merchant's four-color graphics are printed during a common workflow that saves time, eliminates the need for preprinted forms and allows statements to be presorted by postal zones—and consequently qualifying for postage discounts. Multiply these efficiencies by hundreds of millions of statements a year, and the bank can save millions of dollars. An added bonus—statements can incorporate marketing messages personalized for each merchant's customers.

Smaller businesses also have needs we are uniquely equipped to meet. Last year we expanded our pbSmart™ suite of cloud-based services with the launch of pbSmart Mobile. Business owners can build a mobile website in minutes, without having to master any programming software, and start tracking the results of their mobile campaign immediately. Our pbSmartPostage™ service, which prints shipping labels and postage from any computer connected to the cloud, is also gaining traction.

Other milestones for the year

Australia Post selected Volly™, our secure digital delivery service, to power its own digital mail service. Once launched, the service will enable businesses in Australia to offer their customers a new secure online delivery option for bills, statements and other material. For consumers, it will reduce the clutter of physical mail while making it easy to pay bills from a single, secure online location. For businesses, the service provides a secure digital channel that allows them to promote their own brand at a fraction of the cost of printing and delivering physical mail.

We're working on ways to help marketers balance consumer demand for special offers with their concerns about privacy.

Our management services group continues to move higher up the value chain with the launch of our print outsourcing business. This has the potential to save clients up to 30 percent of their annual print spend, and improve quality by bringing exceptional rigor and extensive industry knowledge to a typically fragmented process. Large companies and advertising agencies can spend millions of dollars a year printing everything from stationery to marketing material to financial statements, yet they often do not have a handle on their total costs. Our experts reengineer the entire process, centralizing print expenditures, qualifying vendors, ensuring environmental compliance and fine-tuning design specifications. We then leverage our buying power on behalf of our clients.

Technologies that set us apart

We should not overlook the extraordinary technology that powers the postage meter and underlies our long global leadership in data security. Our ability to securely move billions of dollars in postage funds across vast networks has broad applicability at a time when people are increasingly concerned about privacy and security. Pitney Bowes has been responsible for virtually every major advance in the underlying technology since 1920—from today's Internet postage to a host of emerging applications.

Our cryptographic technology is built into our e-commerce and pbSmartPostage™ offerings, and our expertise in architecting secure systems was essential in the creation of the Volly™ digital delivery service. Our technology also informs our new pbSecure™ evidencing platform for verifying the authenticity of diplomas, employment records and other sensitive documents in business and academia. Our scientists are also working on ways to couple our data security technologies with our location intelligence applications to help marketers find the best way to balance their customers' desire for personalized offers with their concerns about privacy.

This is only a sampling of the strides Pitney Bowes made across disparate parts of its business in 2012. Our opportunities are real. Our challenge is to bring greater focus and discipline to the task of determining where and how we invest in them. I have been impressed with the technological expertise of our R&D team, who work closely with clients to gain the insights that will drive future innovations. We are already employing agile development practices to accelerate our time to market and reduce the risks inherent in entering new markets. We will do more.

Guiding principles

I believe that great companies are guided by simple principles that are clearly understood and rigorously followed. Our guiding principle is clear: we must develop a client-led culture. We are in business to serve our clients, and to do that effectively, we need to know them intimately and learn to think like them. Driving value for clients leads to driving value for shareholders. We must compete to win, and the fundamental measure of winning is sales. We may have the right ingredients, but they do not have value until clients buy them. We have work to do. I am confident we will do it.

In the short time I have been here, I have spoken with employees across the organization. I am struck by their passionate engagement in our common destiny—and their readiness for the task of turning this venerable company into a great global leader for the coming generation.

I want to express a special appreciation to my predecessor, Murray D. Martin, who retired in 2013 after more than 25 years of leadership. Murray has always been passionate about Pitney Bowes and dedicated his professional life to our company. For that my colleagues and I are very grateful.

I look forward to working with my new colleagues to build on our company's great legacy.

Marc B. Lautenbach

President and
Chief Executive Officer

Businesses face a host of new challenges today.

We help our clients clarify opportunities, streamline operations and nurture more profitable relationships.

Pitney Bowes is everywhere business gets done.

Now I know how many flyers to send out—and where!

DOMINO'S LOCATION #23

When a mobile phone order comes in, it's automatically routed to my store if I'm closest to the customer.

DOMINO'S LOCATION #17

With optimized sales territories, my store can grow to its maximum potential.

DOMINO'S LOCATION #52

LOCATION INTELLIGENCE

Capturing the business value of “where”

Vast amounts of data yield important insights when mapped against specific locations. Decision makers in virtually every industry and area of government rely on our location intelligence tools to allocate resources better, identify emerging opportunities faster and make smarter decisions in general. **Domino's Pizza Enterprises Ltd** of Australia uses our technology to more equitably establish hundreds of franchise territories across Australia and New Zealand. Factors like the number of households and related sociodemographic data help determine a territory's value in this highly competitive, fast-changing environment. Domino's is also using our technology to route customers to their closest store. No more border disputes among franchisees, no more wasted time on deliveries—nothing to interfere with customer satisfaction.

INTERNATIONAL E-COMMERCE

.....

Breaking down cross-border barriers for online retailers

The global marketplace can be daunting terrain for online retailers and their customers. Currency translation, hidden shipping charges, import fees and customs delays can all hinder cross-border shopping. Our e-commerce solutions help break down these barriers. Online retailers can now give shoppers a complete picture of end-to-end costs for every item. By offering this simple, seamless experience, San Francisco-based **Rickshaw Bagworks** has been able to attract new customers in nearly 50 countries over the past four years. Rickshaw's unique line of made-to-order messenger bags, backpacks and computer sleeves is produced by a company of just 20 people. You'd never know that from the world-class, worldwide service that Pitney Bowes makes possible for www.rickshawbags.com and other online retailers.

ENTERPRISE-WIDE
DOCUMENT MANAGEMENT

Super-size the service while trimming costs

Managing the administrative workflow for a company that serves 64 million people a day can be a tall order. But for the Workplace Programs and Services organization at **McDonald's**, it's all in a day's work—with the help of Pitney Bowes. Our on-site team manages a host of critical functions at the company's Illinois headquarters and 27 regional offices. Our coordinated approach has helped McDonald's reduce costs in areas ranging from printing and copying—now done on half the equipment it used to take—to postage and shipping for nearly a million pieces a year. The benefits go beyond savings: A single project to digitize 1,500 boxes of documents not only avoided additional building costs but made the files electronically accessible with just a few keystrokes.

MULTICHANNEL MARKETING FOR SMALL BUSINESS

Connect with prospects fast via pbSmart Mobile

How do you get a potential customer who's never heard of you to listen to your pitch in less than two minutes? That's the challenge Mary Hurley faced with her **MRH Productions** voice-over service for medical professionals. Her specialized skills have real value for doctors, dentists, device makers and their advertising agencies—but capturing their attention during a medical convention was all but impossible until she turned to pbSmart™ Mobile. Now she just hands prospects her business card and suggests they scan the pbSmart™ Code on it. The QR code takes them to her mobile website, which allows them to hear her audio demos and see samples of her script writing.

TARGETED ONLINE MARKETING

Stress relief for movers, super sales channel for retailers

Feathering the nest is a powerful instinct. Just ask the 40 million Americans who moved last year, spending \$180 billion on everything from furniture to financial advice and creating a windfall for marketers. It's not surprising: Moving is notoriously stressful, and getting comfortable helps reduce stress. We're helping too with www.MyMove.com, an online resource that combines useful information and great deals for people on the move with valuable access for participating brands such as The Container Store, Netflix and Pottery Barn. Developed by Imagitas, a Pitney Bowes company, My Move is backed by extensive research on the buying habits of people who move to maximize its value for households and advertisers. Last year more than six million consumers visited the site.

Streamline member communications for a healthier bottom line

Enrollment packages. Explanations of benefits. Regulatory letters. Member health statements. Checks. Business and courtesy envelopes. It adds up to a diverse mix of print and mail jobs for Florida Blue, the state's largest health insurer. To lower costs and improve its member communications, the company transitioned to a subsidiary, **Incepture Print Solutions**, to develop a best-in-class production operation. Incepture selected the Pitney Bowes White Paper Factory, including our IntelliJet® Printing and Mailstream Wrapper™ Productivity Series systems. The result: transformation from a world of preprinted forms, separate jobs and manual handling to an integrated, automated workflow and personalized four-color documents and envelopes. The payoff for Incepture goes beyond lower costs and faster production. It is growing its business as other insurers turn to Incepture to take on their print and mail work.

At Pitney Bowes, we are inventing a future with our clients' needs in mind. We have the expertise and insight that help solve real business problems today and anticipate solutions for the challenges to come. Listen and innovate.

It's what we do at Pitney Bowes.

Summary of Selected Financial Data

For the year	2012	2011	2010
(Dollars in thousands, except per share amounts)			
As reported

Free cash flow, as adjusted	\$ 769,084	\$ 1,058,363	\$ 962,307

The sum of the earnings per share amounts may not equal the totals above due to rounding.

Management believes this presentation provides a reasonable basis on which to present the adjusted financial information. The Company's financial results are reported in accordance with generally accepted accounting principles (GAAP). The earnings per share and free cash flow results are adjusted to exclude the impact of special items such as restructuring charges and asset impairments, goodwill impairment charges and other income and expense that materially impact the comparability of the Company's results of operations. The use of free cash flow has limitations. GAAP cash flow has the advantage of including all cash available to the Company after actual expenditures for all purposes. Free cash flow is the amount of cash that management could have available for discretionary uses if it made different decisions about employing its cash. It adjusts for long-term commitments such as capital expenditures, and for special items such as cash used for restructuring charges and contributions to its pension funds. All these items use cash that is not otherwise available to the Company and are important expenditures. Management compensates for these limitations by using a combination of GAAP cash flow and free cash flow in doing its planning.

The adjusted financial information and certain financial measures such as earnings before interest and taxes (EBIT) and EBIT to interest are intended to be more indicative of the ongoing operations and economic results of the Company. EBIT excludes interest and taxes and, as a result, has the effect of showing a greater amount of earnings than net income. The Company believes that interest and taxes, though important, do not reflect management effectiveness, as these items are largely outside of its control. In assessing performance, the Company uses both EBIT and net income.

This adjusted financial information should not be construed as an alternative to our reported results determined in accordance with GAAP. Further, our definition of this adjusted financial information may differ from similarly titled measures used by other companies.

PART I

ITEM 1. BUSINESS

General

Pitney Bowes Inc. (we, us, our, or the company), was incorporated in the state of Delaware on April 23, 1920, as the Pitney Bowes Postage Meter Company. Today, we are a global provider of software, hardware and services that enables and integrates both physical and digital communications. We offer a full suite of equipment, supplies, software, services and solutions for managing and integrating physical and digital communication channels. Our growth strategies focus on leveraging our expertise in physical communications with our expanding capabilities in digital and hybrid communications. We will continue to develop and invest in products, software, services and solutions that help our clients grow their business by more effectively communicating with their customers across physical, digital and hybrid channels.

For more information about us, our products, services and solutions, visit www.pb.com. Also, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments or exhibits to those reports are available, free of charge, through the Investor Relations section of our website at www.pb.com/investorrelations, as soon as reasonably practicable after these reports are electronically filed with, or furnished to, the Securities and Exchange Commission (the SEC). The information found on our website is not part of this or any other report we file with or furnish to the SEC.

Our Forms 10Ks, 10Qs, 8Ks, proxy statements and other information can also be obtained from the SEC's website at www.sec.gov. You may also read and copy any document we file with the SEC at the SEC's Public Reference Room at 450 Fifth Street, NW, Washington, DC 20549 or request copies of these documents by writing to the Office of Public Reference. Call the SEC at (800) 732-0330 for further information on the operations of the Public Reference Room and copying charges.

Business Segments

We organize and report our business activities within two groups based on the clients they primarily serve, Small & Medium Business Solutions and Enterprise Business Solutions. See Note 16 to the Consolidated Financial Statements for financial information concerning our reporting segments. The principal products and services of each of our reporting segments are as follows:

Small & Medium Business Solutions:

North America Mailing: Includes the U.S. and Canadian revenue and related expenses from the sale, rental and financing of our mail finishing, mail creation, shipping equipment and software; supplies; support and other professional services; and payment solutions.

International Mailing: Includes the revenue and related expenses from the sale, rental and financing of our mail finishing, mail creation, shipping equipment and software; supplies; support and other professional services; and payment solutions outside North America.

Enterprise Business Solutions:

Production Mail: Includes the worldwide revenue and related expenses from the sale, support and other professional services of our high-speed, production mail systems, sorting and production print equipment.

Software: Includes the worldwide revenue and related expenses from the sale and support services of non-equipment-based mailing, client relationship and communication and location intelligence software.

Management Services: Includes worldwide revenue and related expenses from facilities management services; secure mail services; reprographic, document management services; print outsourcing services; and litigation support and eDiscovery services.

Mail Services: Includes worldwide revenue and related expenses from presort mail services and cross-border ecommerce solutions.

Marketing Services: Includes the revenue and related expenses from direct marketing services for targeted clients.

Support Services

We maintain extensive field service organizations to provide servicing for our clients' equipment, usually in the form of annual maintenance contracts.

Marketing

We market our products and services through our sales force, direct mailings, outbound telemarketing, independent distributors and the Internet. We sell to a variety of business, governmental, institutional and other organizations. We have a broad base of clients, and we are not dependent upon any one client or type of client for a significant part of our revenue.

Credit Policies

We establish credit approval limits and procedures based on the credit quality of the client and the type of product or service provided to control risk in extending credit to clients. In addition, we utilize an automatic approval program for certain leases. This program is designed to facilitate low dollar transactions by utilizing historical payment patterns and losses realized for clients with common credit characteristics. The program defines the criteria under which we will accept a client without performing a more detailed credit investigation, such as maximum equipment cost, a client's time in business and payment experience.

We closely monitor the portfolio by analyzing industry sectors and delinquency trends by product line, industry and client to ensure reserve levels and credit policies reflect current trends. Management continues to closely monitor credit lines, collection resources and revise credit policies as necessary to be more selective in managing the portfolio.

Competition

We are a major provider of products and services in the majority of our business segments and our long experience, reputation for product quality and our sales and support service organizations are important factors in influencing client choices. All of our segments face competition from a number of companies. In particular, we face competition from companies that offer products and services as alternative means of message communications, including from postage meter and mailing machine suppliers for new placements of mailing equipment and from companies that offer alternatives to our mailing products, services and software. We also face competition from companies looking to digitize mail, as well as those providing on-line payment services. We offer a variety of finance and payment offerings to our clients to finance their equipment purchases through our captive financing business. Our financing operations face competition, in varying degrees, from large, diversified financial institutions, including leasing companies, commercial finance companies and commercial banks, to small, specialized firms. We are a major provider of facilities management and document management services to the corporate, financial services, professional services and government markets and compete against national, regional and local firms offering similar services.

Research, Development and Intellectual Property

We invest in research and development programs to develop new products and service offerings. As a result of our research and development efforts, we have been awarded a number of patents with respect to several of our existing and planned products. We do not believe our businesses are materially dependent on any one patent or license or any group of related patents or group of related licenses. Our expenditures for research and development were \$137 million, \$149 million and \$156 million in 2012, 2011 and 2010, respectively.

Material Suppliers

We depend on third-party suppliers for a variety of services, components, supplies and a large portion of our product manufacturing. In certain instances, we rely on single sourced or limited sourced suppliers around the world because the relationship is advantageous due to quality, price, or there are no alternative sources. We have not historically experienced shortages in services, components or products and believe that our available sources for materials, components, services and supplies are adequate.

Regulatory Matters

We are subject to the regulations of postal authorities worldwide related to product specifications and business practices involving our postage meters. From time to time, we will work with these governing bodies to help in the enhancement and growth of mail and the mail channel.

Employees and Employee Relations

At December 31, 2012, we employed approximately 20,800 persons in the U.S. and 6,600 persons outside the U.S. The large majority of our employees are not represented by any labor union and we believe that our current relations with employees are good. Management follows the policy of keeping employees informed of decisions and encourages and implements employee suggestions whenever practicable.

Executive Officers

See Part III, Item 10. "Directors, Executive Officers and Corporate Governance" of this Form 10-K for information about Executive Officers of the Registrant.

ITEM 1A. RISK FACTORS

In addition to the disclosures and other information discussed in this report, the following risk factors should be considered in evaluating our business. We work to manage and mitigate these risks proactively, including through the use of an enterprise risk management program. Nevertheless, the following risks, some of which may be beyond our control, could materially impact our businesses, our brand and reputation, financial condition and results of operations and may cause future results to be materially different than our current expectations:

We are subject to postal regulations and processes, which could adversely affect our revenue and profitability.

The majority of our revenue is directly or indirectly subject to regulation and oversight by postal authorities worldwide. We depend on a healthy postal sector in the geographic markets where we do business, which could be influenced positively or negatively by legislative or regulatory changes in those countries. Our profitability and revenue in a particular country could be affected by adverse changes in postal regulations, the business processes and practices of individual posts, the decision of a post to enter into particular markets in direct competition with us and the impact of any of these changes on postal competitors that do not use our products or services. These changes could affect product specifications, service offerings, client behavior and the overall mailing industry. Further, if we are found to have violated postal regulations, we could be subject to fines or civil or criminal penalties.

An accelerated decline in physical mail volumes could have an increasingly adverse effect on our revenues and profitability as we transition to more digital offerings and other services.

The use of postal services to send physical mail continues to decline, which has had an adverse effect on our revenues and profitability. An accelerated or sudden decline in physical mail volumes could result from, among other things, changes in our clients' communication behavior; changes in communications technologies; expansion of mobile Internet access; the growing trend by businesses to incent or require their clients to use alternatives to mail for payments and statement presentment; government actions such as executive orders, legislation or regulations that mandate electronic substitution, prohibit certain types of mailings, increase the difficulty of using information or materials in the mail, or impose higher taxes or fees on mailing or postal services; and unexpected events such as the transmission of biological or chemical agents or acts of terrorism.

We do not expect total mail volumes to rebound to prior peak levels. We have introduced various product and service offerings as alternatives to physical mail. However, margin on these new product and service offerings are lower than our traditional mailing business; there is no guarantee that these offerings will be widely accepted in the marketplace; and if accepted, they will face competition from existing and emerging alternative products and services.

We may not realize the anticipated benefits of our strategic acquisitions and divestitures, which may harm our financial results.

We have made, and we may continue to make, strategic acquisitions and divestitures that involve significant risks and uncertainties, including:

- challenges in identifying and evaluating the acquisitions and divestitures that best enable our future success;
- inability to complete acquisitions or divestitures on satisfactory terms or time frames or at all;
- loss of key employees or clients of businesses acquired or divested;
- difficulties in integrating newly acquired businesses and operations, including combining product and service offerings and entering new markets;
- difficulties in reducing fixed costs previously associated with divested assets or businesses; and
- difficulties in identifying and separating intellectual property to be divested from intellectual property we wish to keep.

In addition, as we increase our focus towards providing more digital technology and software solutions for businesses while maintaining a leadership role in the mailing industry, restructuring charges, asset impairments and other expenses may result. We may also need to divert and/or dedicate management and other resources to complete the transactions. Furthermore, such transactions often have post-closing arrangements including but not limited to post-closing adjustments, transition services, escrows or indemnifications, the financial results of which can be difficult to predict. If we do not realize the anticipated benefits or synergies of our acquisitions and divestitures, our consolidated financial position, results of operations, cash flows and stock price could be negatively affected.

We depend on third-party suppliers and outsource providers and our business could be adversely affected if we fail to manage these constituents effectively.

We depend on third-party suppliers and outsource providers for a variety of services, components and supplies, including a large portion of our product manufacturing and some non-core functions and operations. In certain instances, we rely on single sourced or limited sourced suppliers and outsourcing vendors around the world because doing so is advantageous due to quality, price or lack of alternative sources. If production or service was interrupted and we were not able to find alternate third-party suppliers, we could experience

disruptions in manufacturing and operations including product shortages, higher freight costs and re-engineering costs. If outsourcing services are interrupted or not performed or the performance is poor, our ability to process, record and report transactions with our clients and other constituents could be impacted. Such interruptions in the provision of supplies and/or services could result in our inability to meet client demand, damage our reputation and client relationships and adversely affect our business.

Market and business deteriorations and credit downgrades could adversely affect our cost of funds and related margins, liquidity, competitive position and access to capital markets.

We provide financing services to our clients for equipment, postage and supplies purchases. Our ability to provide these services is largely dependent upon our continued access to the U.S. capital markets. An additional source of liquidity consists of deposits held in our wholly owned industrial loan corporation, The Pitney Bowes Bank. A credit ratings downgrade, material capital market disruptions, significant withdrawals by depositors at The Pitney Bowes Bank, adverse changes to our industrial loan charter or a significant decline in cash flow could impact our ability to maintain adequate liquidity and provide competitive offerings to our clients. If such events occurred, there can be no assurance that liquidity funding sources would be available or sufficient, and those funding sources that may be available could result in a significantly higher cost of borrowing and adversely impact our ability to fund various discretionary priorities, including business investments, pension contributions and dividend payments.

Failure to comply with privacy laws and other related regulations could subject us to significant liability and damage our reputation.

Several of our businesses use, process and store client information that could include confidential, personal or financial information. We also provide third-party benefits administrators with access to our employees' personal information. Privacy laws and similar regulations in many jurisdictions where we do business, as well as contractual provisions, require that we and our benefits administrators take significant steps to safeguard this information. These laws are continuing to evolve. We, and our third-party benefits administrators, have security systems and procedures in place that are designed to protect against unauthorized access to such information; however, there is no guarantee that experienced computer programmers or hackers will not be able to gain access to our securities systems or the security systems of our third-party benefits administrators and misappropriate confidential information. Any significant violations of data privacy, disclosure of other confidential information or failure to comply with any of these laws, regulations or contract provisions could damage our reputation and business and subject us to significant remediation costs and/or liability.

A disruption of our information technology systems could adversely impact our business and operating results.

Our portfolio of product, service and financing solutions is dependent on reliable information technology systems. We maintain secure systems to collect revenue for certain postal services, which is critical to enable both our systems and the postal systems to run reliably. In addition, we rely extensively on our computer systems to manage our business. These systems are subject to adverse acts of nature, targeted or random security breaches, cyber-attacks, computer viruses, vandalism, power loss, computer or communications failures and other unexpected events. Although we have disaster recovery plans in place to protect our business operations in case of such events, those plans may not be successful. If our information technology systems are damaged or cease to function properly, we could be prevented from fulfilling orders and servicing clients and postal services. Also, we may have to make a significant investment to repair or replace these systems, and could suffer loss of critical data and interruptions or delays in our operations. The continuous and uninterrupted performance of our information technology systems is critical to our ability to support and service our clients, to support postal services and to manage our business.

Our inability to obtain and protect our intellectual property and defend against claims of infringement by others may negatively impact our operating results.

We do not believe our businesses are materially dependent on any one patent or license or group of patents or licenses. However, we rely on copyright, trade secret, patent and other intellectual property laws in the United States and similar laws in other countries to establish and protect proprietary rights that are important to our business. If we fail to enforce our intellectual property rights, our businesses may suffer. We, or our suppliers, may be subject to third-party claims of infringement on intellectual property rights. These claims, if successful, may require us to redesign affected products, enter into costly settlement or license agreements, pay damage awards, or face a temporary or permanent injunction prohibiting us from marketing or selling certain of our products.

If we fail to comply with government contracting regulations, our operating results, brand name and reputation could suffer.

Many of our contracts are with governmental entities. Government contracts are subject to extensive and complex government procurement laws and regulations, along with regular audits of contract pricing and our business practices by government agencies. If we are found to have violated some provisions of the government contracts, we could be required to provide a refund, pay significant damages, or be subject to contract cancellation, civil or criminal penalties, fines or debarment from doing business with the government. Any of these events could not only affect us financially, but also adversely affect our brand and reputation.

Our operations expose us to the risk of material environmental liabilities, litigation and violations.

We are subject to numerous foreign, federal, state and local environmental protection and health and safety laws governing, among other things:

- the generation, storage, use and transportation of hazardous materials;
- emissions or discharges of substances into the environment;
- substances that may be subject to regulation in the manufacture, distribution, use or disposal of our products; and
- the health and safety of our employees.

If we are found to have violated these laws, we could be fined, criminally charged or otherwise sanctioned by regulators. In addition, private parties could bring personal injury or other claims due to the presence of, or exposure to, hazardous substances. From time to time, we may be involved in litigation over these issues.

Certain environmental laws assess liability on current and previous owners or operators of real property for the cost of removal or remediation of hazardous substances at their property or at properties at which they have disposed of hazardous substances. We may be subject to material liabilities for environmental claims for personal injury or cleanup in the future based on existing environmental conditions resulting from events that happened long ago.

The ultimate cost of cleanup at disposal sites and manufacturing facilities is difficult to predict. Environmental laws are complex, change frequently and have tended to become more stringent over time. There can be no assurance that our costs of complying with environmental protection and health and safety laws, or our liabilities arising from releases of, or exposures to, hazardous substances will not materially adversely affect our financial condition, results of operations or cash flows.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our world headquarters is located in Stamford, Connecticut. We have facilities worldwide that are either leased or owned. Our primary manufacturing and assembly facility is located in Danbury, Connecticut and our principal research and development facilities are located in Danbury, Connecticut and Noida, India. We believe that our manufacturing and assembly, administrative and sales office locations are adequate for the needs of all of our operations.

ITEM 3. LEGAL PROCEEDINGS

In the ordinary course of business, we are routinely defendants in, or party to, a number of pending and threatened legal actions. These may involve litigation by or against us relating to, among other things, contractual rights under vendor, insurance or other contracts; intellectual property or patent rights; equipment, service, payment or other disputes with clients; or disputes with employees. Some of these actions may be brought as a purported class action on behalf of a purported class of employees, clients or others.

In October 2009, the company and certain of its current and former officers were named as defendants in NECA-IBEW Health & Welfare Fund v. Pitney Bowes Inc. et al., a class action lawsuit filed in the U.S. District Court for the District of Connecticut. The complaint asserts claims under the Securities Exchange Act of 1934 on behalf of those who purchased the common stock of the company during the period between July 30, 2007 and October 29, 2007 alleging that the company, in essence, missed two financial projections. Plaintiffs filed an amended complaint in September 2010. After briefing on the motion to dismiss was completed, the plaintiffs filed a new amended complaint on February 17, 2012. We have moved to dismiss this new amended complaint. We expect to prevail in this legal action; however, as litigation is inherently unpredictable, there can be no assurance in this regard. If the plaintiffs do prevail, the results may have a material effect on our financial position, results of operations or cash flows. Based upon our current understanding of the facts and applicable laws, we do not believe there is a reasonable possibility that any loss has been incurred.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR THE COMPANY'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is traded under the symbol "PBI" and is principally traded on the New York Stock Exchange (NYSE). At January 31, 2013, we had 20,614 common stockholders of record. The following table sets forth the high and low sales prices, as reported on the NYSE, and the cash dividends paid per share of common stock, for the periods indicated.

	Stock Price		Dividend Per Share
	High	Low	
Year Ended December 31, 2012			
First Quarter	\$19.65	\$17.45	\$0.375
Second Quarter	\$17.87	\$12.81	0.375
Third Quarter	\$15.27	\$12.64	0.375
Fourth Quarter	\$14.73	\$10.34	0.375
			\$1.50
Year Ended December 31, 2011			
First Quarter	\$26.15	\$23.46	\$0.37
Second Quarter	\$26.36	\$22.05	0.37
Third Quarter	\$23.47	\$18.00	0.37
Fourth Quarter	\$21.20	\$17.33	0.37
			\$1.48

Share Repurchases

We periodically repurchase shares of our common stock to manage the dilution created by shares issued under employee stock plans and for other purposes in the open market. There were no shares repurchased in 2012. At December 31, 2012, we have remaining authorization to repurchase up to \$50 million of our common stock.

Stock Performance Graph

In 2012, we revised our Peer Group. Our previous peer group (Old Peer Group) was weighted towards companies with higher revenues and market capitalization than ours. Our new group (New Peer Group) consists of services, industrial and technology companies and eliminates our previous focus on industrial machinery companies. The New Peer Group consists of companies with revenues between \$2 billion and \$22 billion and market capitalization between \$1 billion and \$14 billion.

The New Peer Group is comprised of the following companies: Agilent Technologies Inc., Alliance Data Systems Corp., Avery Dennison Corp., Diebold Inc., R.R. Donnelley & Sons Co., DST Systems, Inc., Fiserv Inc., Harris Corp., Iron Mountain Inc., Lexmark International, Inc., NCR Corp., Pitney Bowes Inc., Rockwell Automations Inc., Unisys Corp. and Xerox Corporation.

The Old Peer Group is comprised of the following companies: Automatic Data Processing, Inc., Diebold, Inc., R.R. Donnelley & Sons Co., DST Systems, Inc., FedEx Corporation, Hewlett-Packard Company, Lexmark International, Inc., Pitney Bowes Inc., United Parcel Service, Inc., and Xerox Corporation.

All information is based upon data independently provided to us by Standard & Poor's Corporation and is derived from their official total return calculation. Total return for the S&P 500 Composite Index, the New Peer Group and the Old Peer Group is based on market capitalization, weighted for each year.

The accompanying graph compares the most recent five-year share performance of Pitney Bowes, the Standard and Poor's (S&P) 500 Composite Index, the New Peer Group and the Old Peer Group and shows that on a total return basis, assuming reinvestment of all dividends, \$100 invested in the company's common stock, the S&P 500 Composite Index, the New Peer Group and the Old Peer Group on December 31, 2007 would have been worth \$40, \$109, \$90 and \$74, respectively, on December 31, 2012.

Comparison of Cumulative Five Year Total Return to Shareholders

Company Name / Index	Indexed Returns December 31,					
	2007	2008	2009	2010	2011	2012
Pitney Bowes	\$100	\$70	\$67	\$76	\$62	\$40
S&P 500	\$100	\$63	\$80	\$92	\$94	\$109
New Peer Group	\$100	\$56	\$72	\$86	\$79	\$90
Old Peer Group	\$100	\$74	\$93	\$95	\$81	\$74

ITEM 6. SELECTED FINANCIAL DATA

The following table of selected financial data should be read in conjunction with the more detailed consolidated financial statements and related notes thereto included under Item 8 of this Form 10-K.

	Years Ended December 31,				
	2012	2011 ⁽¹⁾	2010 ⁽¹⁾	2009 ⁽¹⁾	2008 ⁽¹⁾
Total revenue	\$ 4,904,015	\$ 5,122,596	\$ 5,260,356	\$ 5,373,163	\$ 6,070,552
Amounts attributable to common stockholders:					
Net income from continuing operations	\$ 435,932	\$ 400,556	\$ 324,267	\$ 415,149	\$ 435,529
Income (loss) from discontinued operations	9,231	216,924	(31,888)	8,296	(15,736)
Net income - Pitney Bowes Inc.	\$ 445,163	\$ 617,480	\$ 292,379	\$ 423,445	\$ 419,793
Basic earnings per share attributable to common stockholders ⁽²⁾ :					
Continuing operations	\$ 2.18	\$ 1.98	\$ 1.57	\$ 2.01	\$ 2.10
Discontinued operations	0.05	1.07	(0.15)	0.04	(0.08)
Net income - Pitney Bowes Inc.	\$ 2.22	\$ 3.06	\$ 1.42	\$ 2.05	\$ 2.01
Diluted earnings per share attributable to common stockholders ⁽²⁾ :					
Continuing operations	\$ 2.16	\$ 1.98	\$ 1.57	\$ 2.00	\$ 2.08
Discontinued operations	0.05	1.07	(0.15)	0.04	(0.08)
Net income - Pitney Bowes Inc.	\$ 2.21	\$ 3.05	\$ 1.41	\$ 2.04	\$ 2.00
Cash dividends paid per share of common stock	\$ 1.50	\$ 1.48	\$ 1.46	\$ 1.44	\$ 1.40

Balance sheet data:

	December 31,				
	2012	2011	2010	2009	2008
Total assets	\$ 7,859,891	\$ 8,147,104	\$ 8,444,023	\$ 8,571,039	\$ 8,810,236
Long-term debt	\$ 3,642,375	\$ 3,683,909	\$ 4,239,248	\$ 4,213,640	\$ 3,934,865
Total debt	\$ 4,017,375	\$ 4,233,909	\$ 4,289,248	\$ 4,439,662	\$ 4,705,366
Noncontrolling interests (Preferred stockholders' equity in subsidiaries)	\$ 296,370	\$ 296,370	\$ 296,370	\$ 296,370	\$ 374,165

(1) Amounts have been revised to reflect the results of IMS as a discontinued operation.

(2) The sum of earnings per share may not equal the totals due to rounding.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations contains statements that are forward-looking. We want to caution readers that any forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 in this Form 10-K may change based on various factors. These forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties and actual results could differ materially. Words such as "estimate", "target", "project", "plan", "believe", "expect", "anticipate", "intend", and similar expressions may identify such forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Factors which could cause future financial performance to differ materially from the expectations as expressed in any forward-looking statement made by or on our behalf include, without limitation:

- declining physical mail volumes
- mailers' utilization of alternative means of communication or competitors' products
- access to capital at a reasonable cost to continue to fund various discretionary priorities, including business investments, pension contributions and dividend payments
- timely development and acceptance of new products and services
- successful entry into new markets
- success in gaining product approval in new markets where regulatory approval is required
- changes in postal or banking regulations
- interrupted use of key information systems
- third-party suppliers' ability to provide product components, assemblies or inventories
- our success at managing the relationships with our outsource providers, including the costs of outsourcing functions and operations not central to our business
- changes in privacy laws
- intellectual property infringement claims
- regulatory approvals and satisfaction of other conditions to consummate and integrate any acquisitions
- negative developments in economic conditions, including adverse impacts on customer demand
- our success at managing customer credit risk
- significant changes in pension, health care and retiree medical costs
- changes in interest rates, foreign currency fluctuations or credit ratings
- income tax adjustments or other regulatory levies for prior audit years and changes in tax laws, rulings or regulations
- impact on mail volume resulting from concerns over the use of the mail for transmitting harmful biological agents
- changes in international or national political conditions, including any terrorist attacks
- acts of nature

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our Consolidated Financial Statements contained in this report. Certain amounts and discussions below have been changed to reflect the reclassification of our International Mailing Services (IMS) operations, previously included in our Mail Services segment, as a discontinued operation. All table amounts are presented in millions of dollars, unless otherwise stated. Table amounts may not sum to the total due to rounding.

Overview

Revenue for 2012 decreased 4% to \$4,904 million compared to \$5,123 million in 2011 as worldwide economic conditions, pricing pressures, declining mail volumes and constrained public sector spending in Europe all contributed to the decline. Worldwide economic conditions continue to impact equipment sales, which declined 5% compared to last year. Declining equipment sales in prior periods also impacts financing revenue, which declined 10% in 2012 compared to 2011. Rentals and supplies revenue both declined 8% due to a decline in mail volumes and our installed meter base. Software revenue declined 3% mainly due to an overall economic uncertainty in our global markets, particularly in our European and Asia Pacific markets.

Net income from continuing operations and earnings per diluted share for 2012 were \$436 million and \$2.16, respectively, compared to \$401 million and \$1.98, respectively, in 2011. The improvement in 2012 was primarily due to lower restructuring charges and goodwill impairment charges partially offset by higher tax expense due to tax benefits recognized from tax settlements in 2011.

As a result of the continuing under-performance of our IMS operations, and to enable us to better focus on higher growth cross-border ecommerce parcel opportunities, we began exploring strategic alternatives to exit the IMS operations related to the international delivery

of mail and catalogs. During the year, we recorded goodwill and asset impairment charges of \$35 million to write down the net assets of IMS to their estimated fair value less costs to sell. These charges and the operating results of IMS for all periods presented have been classified as discontinued operations.

For the year, cash flow from operations declined to \$660 million compared to \$949 million in 2011. Lower cash flow in 2012 was primarily due to higher tax payments and a lower cash impact from net collections of finance and accounts receivables. Also in 2012, we received \$106 million from the sale of leveraged lease assets and \$340 million from the issuance of new debt, while uses of cash included \$550 million to redeem maturing debt, \$319 million to pay dividends and \$177 million to fund capital investments. At December 31, 2012, cash and cash equivalents and short-term investments were \$950 million.

Outlook

Worldwide economic conditions continue to create a challenging business environment causing many of our clients to remain cautious about spending and therefore impact the performance of our business segments. Our growth initiatives continue to focus on leveraging our expertise in physical communications with our expanding capabilities in digital and hybrid communications and developing products, software, services and solutions that help our clients grow their businesses by more effectively communicating with their customers. We expect to make continued investments in these growth initiatives during the first half of 2013, which are expected to lead to greater revenue and margin contribution in the second half of 2013.

We expect revenue growth in certain of our Enterprise Business Solutions segments in 2013 from our ecommerce, print outsourcing and software solutions. We expect our mix of business will continue to shift to more enterprise related products and solutions and that these new revenue streams will have lower margins than our traditional Mailing business.

Small and Medium Business Solutions revenues will continue to be challenged by the decline in physical mail volumes. However, in 2013, we expect revenue will benefit from an improvement in equipment sales trends, due in part to global sales of our Connect+™ communications systems and SendSuite Live™ shipping solutions, and that this improvement will lead to a moderation in the decline of rentals, financing and supplies revenue in the second half of 2013.

RESULTS OF OPERATIONS

Revenue by source and the related cost of revenue are shown in the following tables:

Revenue

	Year Ended December 31,			% change	
	2012	2011	2010	2012	2011
Equipment sales	\$ 938	\$ 986	\$ 1,023	(5)%	(4)%
Supplies	284	308	318	(8)%	(3)%
Software	413	427	390	(3)%	9 %
Rentals	570	619	651	(8)%	(5)%
Financing	495	547	587	(10)%	(7)%
Support services	690	707	712	(2)%	(1)%
Business services	1,515	1,529	1,579	(1)%	(3)%
Total revenue	\$ 4,904	\$ 5,123	\$ 5,260	(4)%	(3)%

Cost of revenue

	Year Ended December 31,					
	2012		2011		2010	
	\$	% of revenue	\$	% of revenue	\$	% of revenue
Cost of equipment sales	\$ 459	48.9%	\$ 449	45.6%	\$ 469	45.9%
Cost of supplies	88	30.9%	97	31.6%	97	30.5%
Cost of software	93	22.5%	99	23.2%	93	23.9%
Cost of rentals	115	20.3%	139	22.4%	155	23.9%
Financing interest expense	81	16.4%	88	16.0%	88	15.0%
Cost of support services	440	63.8%	453	64.1%	452	63.5%
Cost of business services	1,157	76.4%	1,161	76.0%	1,173	74.3%
Total cost of revenue	\$ 2,433	49.6%	\$ 2,486	48.5%	\$ 2,529	48.1%

Equipment sales

Equipment sales revenue decreased 5% to \$938 million in 2012 compared to 2011 as worldwide economic conditions continue to impact customer purchasing behavior. Foreign currency translation had an unfavorable impact on revenue of 2%. Cost of equipment sales as a percentage of revenue increased to 48.9% compared to 45.6% in the prior year primarily due to a higher mix of lower margin product sales, pricing pressure on competitive placements and a decline in the number of lease extensions relative to prior year.

In 2011, equipment sales revenue decreased 4% to \$986 million compared to 2010, including a positive impact of 2% from foreign currency translation. Equipment sales were adversely impacted as many customers delayed capital investment commitments and extended leases of existing equipment. Cost of equipment sales as a percentage of revenue improved to 45.6% compared with 45.9% in the prior year due to the mix of higher margin product sales and lease extensions.

Supplies

Supplies revenue decreased 8% to \$284 million in 2012 compared to 2011 primarily due to reduced mail volumes, fewer installed meters worldwide and lower ink and toner sales. Foreign currency translation had a 2% unfavorable impact on revenue. Cost of supplies as a percentage of revenue was 30.9% compared to 31.6% in the prior year primarily due to a favorable mix of higher margin core supplies sales.

Supplies revenue in 2011 decreased 3% to \$308 million compared to 2010 due to reduced mail volumes and fewer installed meters worldwide. Foreign currency translation had a 2% favorable impact. Cost of supplies as a percentage of revenue was 31.6% compared with 30.5% in the prior year primarily due to the mix of lower margin supply sales worldwide.

Software

Software revenue decreased 3% to \$413 million in 2012 compared to 2011. Foreign currency translation had a 1% unfavorable impact on revenue. The decrease was primarily attributable to weak economic conditions and constrained public sector spending in Europe and lower sales in Asia Pacific. Cost of software as a percentage of revenue improved to 22.5% compared with 23.2% in the prior year primarily due to reduced headcount.

Software revenue in 2011 increased 9% to \$427 million compared to 2010 driven by higher licensing revenue (3%), the full year impact of 2010 acquisitions (3%) and foreign currency translation (3%). Cost of software as a percentage of revenue improved to 23.2% compared with 23.9% in the prior year due to the increase in high margin licensing revenue.

Rentals

Rentals revenue decreased 8% to \$570 million in 2012 compared to 2011 primarily due to declines in North America from fewer meters in service and lower rentals in France due to a change in mix from rental to equipment sales. Foreign currency translation had an unfavorable impact on revenue of 1%. Cost of rentals as a percentage of revenue improved to 20.3% compared with 22.4% in the prior year mainly due to lower depreciation expense.

Rentals revenue decreased 5% to \$619 million in 2011 compared to 2010 as customers in the U.S. continued to downsize to smaller, fully featured machines and fewer installed meters worldwide. Foreign currency translation had a 1% positive impact. Cost of rentals as a percentage of revenue improved to 22.4% compared with 23.9% in the prior year primarily due to lower depreciation associated with higher levels of lease extensions.

Financing

Financing revenue decreased 10% in 2012 compared to 2011 and 7% in 2011 compared to 2010 primarily due to declining equipment sales in prior periods. Financing interest expense as a percentage of revenue was 16.4%, 16.0% and 15.0% in 2012, 2011 and 2010, respectively. The year-over-year increases were due to higher effective interest rates. Financing interest expense represents our cost of borrowing associated with the generation of financing revenue. In computing financing interest expense, we assume a 10:1 leverage ratio of debt to equity and apply our overall effective interest rate to the average outstanding finance receivables.

Support Services

Support services revenue decreased 2% to \$690 million in 2012 compared to 2011 primarily due to foreign currency translation. Cost of support services as a percentage of revenue was 63.8% in 2012, a slight improvement versus 64.1% in 2011.

Support services revenue decreased 1% to \$707 million in 2011 compared to 2010 driven by lower new equipment placements worldwide. Foreign currency translation had a positive impact of 2%. Cost of support services as a percentage of revenue increased to 64.1% compared with 63.5% in the prior year primarily due to an increase in installations of high-end integrated mailing systems.

Business Services

Business services revenue decreased 1% to \$1,515 million in 2012 compared to 2011 primarily due to lower facilities management volumes, account contractions and pricing pressures on new business and contract renewals. Revenue in 2012 benefited from the recovery during the year of \$20 million in revenue lost in 2011 as a result of a fire at our Dallas presort facility. Cost of business services as a percentage of revenue was 76.4% in 2012 and 76.0% in 2011 due to lower revenues and pricing pressure on new business and contract renewals.

Business services revenue decreased 3% to \$1,529 million in 2011 compared to 2010 primarily due to the loss of several large contracts in 2010 and the lost revenue from the fire at the Dallas presort facility. Foreign currency translation had a 1% favorable impact. Cost of business services as a percentage of revenue increased to 76.0% compared with 74.3% in the prior year primarily due to lower revenues and pricing pressure on new business and contract renewals.

Selling, general and administrative (SG&A)

SG&A expense decreased 5% in 2012 to \$1,598 million compared to 2011 primarily driven by lower employee-related costs due to prior restructuring actions and productivity initiatives, and to a lesser extent, lower intangible asset amortization expense and credit loss and bad debt provisions.

SG&A expense decreased 2% in 2011 to \$1,690 million compared to 2010 primarily driven by a 4% decrease in employee-related costs due to prior restructuring actions and productivity initiatives and a 27% decrease in credit loss and bad debt provisions.

Restructuring charges and asset impairments

Restructuring charges and asset impairments were \$23 million, \$137 million and \$182 million, in 2012, 2011 and 2010, respectively. During 2012, we announced actions to further streamline our business operations and reduce our cost structure. These actions consisted primarily of workforce reductions and resulted in a pre-tax restructuring charge of \$38 million. During the year, we also reversed a net \$15 million of restructuring reserves based on a review of our remaining obligations under prior programs.

Restructuring charges in 2011 and 2010 represent charges taken in connection with a series of strategic transformation initiatives announced in 2009. These initiatives were designed to transform and enhance the way we operate as a global company, enhance our responsiveness to changing market conditions and create improved processes and systems and were implemented over a three year period through 2011. Restructuring charges and asset impairments also include asset impairment charges unrelated to restructuring actions of \$5 million in both 2011 and 2010. Restructuring charges associated with our IMS operations have been reclassified as discontinued operations.

During 2012 and 2011, we also recorded asset impairment charges of \$10 million and \$12 million, respectively, associated with our IMS operations. These charges are included in discontinued operations in the Consolidated Statements of Income. See Critical Accounting Estimates section below for further details.

Goodwill impairment

During 2012 and 2011, we recorded goodwill impairment charges of \$18 million and \$46 million, respectively, associated with our IMS operations. These charges are included in discontinued operations in the Consolidated Statements of Income. In 2011, we also recorded a goodwill impairment charge of \$84 million associated with the international operations of our Management Services segment (PBMSi). This charge was included as Goodwill impairment in the Consolidated Statements of Income. See Critical Accounting Estimates section below for further details of these charges.

Other expense (income), net

Other expense, net in 2012 includes income of \$11 million from insurance proceeds received in connection with the February 2011 fire at our Dallas presort facility offset by a loss of \$6 million on a forward rate swap agreement, a loss of \$2 million on the early redemption of debt and a pre-tax loss of \$4 million on the sale of leveraged lease assets. We do not anticipate receiving any further insurance proceeds relating to the Dallas fire.

Other income, net in 2011 includes income of \$27 million from insurance proceeds received in connection with the fire at our Dallas presort facility and a pre-tax loss of \$7 million on the sale of leveraged lease assets.

Income taxes

See Note 8 to the Consolidated Financial Statements.

Discontinued operations

See Note 18 to the Consolidated Financial Statements.

Preferred stock dividends of subsidiaries attributable to noncontrolling interests

See Note 9 to the Consolidated Financial Statements.

Business Segments

We conduct our business activities in seven reporting segments within two business groups, Small & Medium Business Solutions and Enterprise Business Solutions. The following tables show revenue and EBIT by business segment for 2012, 2011 and 2010. The IMS business, now reported as a discontinued operation, was previously included in our Mail Services segment. Segment EBIT, a non-GAAP measure, is determined by deducting from segment revenue the related costs and expenses attributable to the segment. Segment EBIT excludes interest, taxes, general corporate expenses not allocated to a particular business segment, restructuring charges, asset impairments and goodwill charges, which are recognized on a consolidated basis. Management uses segment EBIT to measure profitability and performance at the segment level. Segment EBIT may not be indicative of our overall consolidated performance and therefore, should be read in conjunction with our consolidated results of operations. Refer to Note 16 to the Consolidated Financial Statements for a reconciliation of segment EBIT to income from continuing operations before income taxes.

<i>Revenue</i>	Year Ended December 31,			% change	
	2012	2011	2010	2012	2011

Small & Medium Business Solutions

Small & Medium Business Solutions revenue decreased 7% to \$2,495 million in 2012 compared to \$2,669 million in 2011. EBIT decreased 7% to \$768 million compared to \$827 million in 2011. Small and Medium Business Solutions revenue in 2011 decreased 4% compared to \$2,775 million in 2010 and EBIT decreased 1% compared to \$834 million in 2010. Within the Small & Medium Business Solutions group:

North America Mailing

North America Mailing revenue decreased 7% to \$1,819 million in 2012 compared to 2011. Equipment sales declined 6% due to continued uncertain economic conditions and declining mail volumes. Financing revenue was 9% lower than last year due to the declining equipment sales in prior periods. Rentals revenue declined 7% primarily due to fewer meters in service and supplies revenue declined 11% due to lower mail volumes, a declining installed meter base and lower ink and toner sales. EBIT decreased 5% to \$689 million in 2012 compared to \$728 million in 2011 primarily due to the decline in revenue; however, EBIT margin was slightly improved over last year due in part to prior strategic initiatives, productivity improvements and lower credit losses.

North America Mailing revenue in 2011 decreased 7% to \$1,961 million compared to \$2,101 million in 2010. Foreign currency translation had a less than 1% favorable impact on revenue. Excluding the effects of foreign currency, equipment sales declined 7% as increased concerns about economic conditions resulted in customers delaying purchases of new equipment and extending leases of existing equipment. Lease extensions are profitable transactions but generate less revenue in the current period than new equipment sales. The lagging effects of lower equipment sales in prior periods, fewer meter placements and declining mail volumes contributed to declines in financing revenue (11%), rental revenue (6%), supplies revenue (8%) and service revenue (4%). EBIT decreased 4% to \$728 million in 2011 compared to \$755 million in 2010 primarily due to lower revenues; however, EBIT margin improved as a result of continued productivity improvements and lower credit losses.

International Mailing

International Mailing revenue decreased 4% to \$676 million in 2012 compared to \$707 million in 2011; however, excluding the effects of foreign currency translation, revenue was flat compared to last year. Excluding the effects of foreign currency, equipment sales increased 3% due to higher sales in the Nordics and France, partially offset by lower sales in the U.K. Equipment sales in France increased due to the launch of the Connect+™ mailing system in 2012 and a change in mix from rentals to equipment sales. The decline in the U.K. was due to overall economic condition. Rental revenue declined 6% primarily due to the change in mix from rentals to equipment sales in France and lower rentals in the U.K. EBIT decreased 20% to \$79 million compared to \$99 million in 2011 primarily due to an increase in the mix of lower margin product sales, including the equipment sales in the Nordics. Foreign currency translation unfavorably impacted EBIT by 5%.

International Mailing revenue increased 5% in 2011 to \$707 million compared to \$675 million in 2010, but included a favorable impact of 6% from foreign currency translation. Excluding the effects of foreign currency, the underlying decrease was primarily due to lower equipment sales in the U.K., Germany, Asia Pacific and Latin America due to increased concerns about economic conditions throughout the regions. EBIT increased 25% to \$99 million in 2011 compared to \$79 million in 2010 primarily due to continued productivity improvements. Foreign currency translation favorably impacted EBIT by 5%.

Enterprise Business Solutions

Enterprise Business Solutions revenue decreased 2% in 2012 to \$2,409 million compared to \$2,454 million in 2011. EBIT decreased 10% in 2012 to \$248 million compared to \$276 million in 2011. Enterprise Business Solutions revenue in 2011 decreased 1% to \$2,454 million compared to \$2,485 million in 2010 and EBIT decreased 9% to \$276 million compared to \$304 million in 2010. Within the Enterprise Business Solutions group:

Production Mail

Production Mail revenue decreased 6% in 2012 to \$512 million compared to \$544 million in 2011 primarily due to global economic uncertainty that existed throughout the year. Foreign currency translation had an unfavorable impact on revenue of 2%. EBIT decreased 21% to \$26 million in 2012 compared to \$33 million in 2011 primarily due to the decline in revenue and higher mix of lower margin sales.

Production Mail revenue decreased 3% in 2011 to \$544 million compared to \$561 million in 2010. Foreign currency translation had a favorable impact of 2% on revenue. Excluding the effects of foreign currency, equipment sales decreased 11% as many enterprise accounts worldwide, especially in Europe, delayed capital investment commitments. EBIT decreased 47% to \$33 million compared to \$61 million in 2010 due to lower revenue and the expenses incurred in the development of Volly™, our future secure digital mail delivery service offering.

Software

Software revenue decreased 3% in 2012 to \$393 million compared to \$407 million in 2011 primarily attributable to weak economic conditions and constrained public sector spending in Europe and lower sales in Asia Pacific. Foreign currency translation had a 1% unfavorable impact on revenue. EBIT for 2012 and 2011 was \$38 million.

In 2011, Software revenue increased 9% to \$407 million compared to \$375 million in 2010. Foreign currency translation had a 3% favorable impact on revenue and the full year impact of 2010 acquisitions accounted for 3% of the increase. The remaining increase was primarily due to higher licensing revenue in most regions, particularly North America and Asia Pacific. EBIT decreased 5% in 2011 to \$38 million compared to \$40 million in 2010 due to higher selling costs as a percentage of revenue. Foreign currency had a favorable impact of 7% on EBIT.

Management Services

Management Services revenue decreased 3% in 2012 to \$921 million compared to \$949 million in 2011 and EBIT decreased 28% to \$55 million compared to \$76 million in 2011. The decline in revenue and EBIT was primarily due to lower document volumes, account contractions and reduced pricing on new business and contract renewals. Foreign currency translation had an unfavorable impact on revenue of 1%.

Management Services revenue in 2011 decreased 5% to \$949 million compared to \$999 million in 2010. Foreign currency translation had a positive impact of 1% on revenue. EBIT decreased 18% to \$76 million compared to \$93 million in 2010. The decrease in revenue and EBIT was primarily due to the full year impact of account contractions and terminations in the U.S. during 2010 and pricing pressure on new business and contract renewals.

Mail Services

Mail Services revenue increased 8% to \$445 million in 2012 compared to \$412 million in 2011; however, 5% of the increase was due to lost revenue of \$20 million in 2011 caused by the February 2011 fire at our Dallas presort facility. The remaining increase of 3% was primarily due to higher standard mail volumes processed in our Presort business. EBIT decreased 2% to \$101 million in 2012 compared to \$103 million in 2011. EBIT in 2012 includes a benefit of \$11 million from insurance recoveries while EBIT in 2011 includes a benefit of \$27 million from insurance recoveries, partially offset by the adverse impact of \$20 million from lost revenues (net benefit of \$7 million). Excluding the fire-related benefits, underlying EBIT decreased 6% primarily due to start-up costs related to our partnership with eBay to provide cross-border ecommerce solutions.

Mail Services revenue increased 1% to \$412 million in 2011 compared to \$408 million in 2010 and EBIT increased 22% to \$103 million compared to \$85 million in 2010. However, taking into account the lost revenue of \$20 million and EBIT benefit of \$7 million in 2011, revenue and EBIT increased 6% and 14%, respectively. The increase in revenue and EBIT was primarily due to the full year impact of a 2010 acquisition, higher standard mail volumes processed in our Presort business and lower costs from productivity initiatives.

Marketing Services

Marketing Services revenue decreased 3% to \$138 million compared to \$142 million in 2011 in part due to a decline in household moves but EBIT increased 7% to \$28 million compared to \$26 million in 2011 due to lower print production costs and administrative costs. We expect segment revenue in 2013 to decline 10-15% and EBIT to decline by about a third due to lower fees for certain renegotiated contracts. Marketing Services revenue and EBIT for 2011 were flat compared to 2010.

LIQUIDITY AND CAPITAL RESOURCES

We believe that cash generated from operations, existing cash and investments and borrowing capacity under our commercial paper program are currently sufficient to support our cash needs, including items like business operations, debt repayments and customer deposits as well as discretionary uses such as capital investments, dividends and share repurchases. Cash and cash equivalents and short-term investments were \$950 million at December 31, 2012 and \$869 million at December 31, 2011.

We have had the ability to supplement short-term liquidity through our consistent and uninterrupted access to the commercial paper market to date. We have the ability to fund the long-term needs of our business through broad access to capital markets, cash flow, proceeds from divestitures, a credit line facility and our effective shelf registration statement.

During the year, the rating agencies reduced our credit ratings. There can be no assurances that one or more of the rating agencies will not take additional adverse actions in the future.

We continuously review our liquidity profile through published credit ratings and the credit default swap market. We also monitor the creditworthiness of those banks acting as derivative counterparties, depository banks or credit providers.

Cash Flow Summary

During the fourth quarter of 2012, we determined that, beginning with the three month period ended December 31, 2011 and each subsequent three month period through September 30, 2012, changes in certain investment-related working capital accounts that were classified in the Consolidated Statement of Cash Flows as cash flows from operating activities should have been classified as cash flows from investing activities. The cash flow amounts in the table below for the year ended December 31, 2011 have been revised to reflect the correct classification of cash flows, resulting in an increase in cash provided by operating activities and an increase in cash used in investing activities of \$29 million.

The change in cash and cash equivalents is as follows:

	Year Ended December 31,			Change	
	2012	2011	2010	2012	2011
Net cash provided by operating activities	\$ 660	\$ 949	\$ 952	\$ (289)	\$ (3)
Net cash used in investing activities	(87)	(117)	(301)	30	184
Net cash used in financing activities	(520)	(455)	(580)	(65)	125
Effect of exchange rate changes on cash and cash equivalents	3	(5)	1	8	(6)
Change in cash and cash equivalents	\$ 57	\$ 372	\$ 72	\$ (316)	\$ 300

Net cash provided by operating activities was \$660 million in 2012 compared to \$949 million in 2011. The decrease in cash provided by operations was primarily due to higher tax payments in 2012 resulting from the sale of leveraged lease assets, the loss of bonus depreciation and higher income tax refunds received in 2011. The cash impact of finance and accounts receivables were also \$105 million lower in 2012 compared to 2011.

Net cash provided by operating activities of \$949 million in 2011 was relatively unchanged from cash provided by operating activities of \$952 million in 2010. Cash flow in 2011 benefited from lower tax payments of \$187 million and higher net collections of finance and accounts receivables of \$26 million but these benefits were offset by a special pension plan contribution of \$123 million and higher payments of accounts payable and accrued liabilities of \$42 million. Cash flow in 2010 benefited from proceeds of \$32 million received from the unwinding of interest rate swaps. The decrease in current and non-current income taxes of \$258 million in 2011 includes the tax benefits recognized in connection with the 2001-2008 IRS tax settlements.

Net cash used in investing activities was \$87 million in 2012 and \$117 million in 2011. The improvement in cash used in 2012 was due to lower net purchases of investment securities partially offset by higher capital expenditures and lower growth in customer deposits.

Net cash used in investing activities was \$117 million in 2011 compared to \$301 million in 2010. The decrease in cash used was primarily due to proceeds of \$102 million from the sale of leveraged lease assets, lower net purchases of investment securities of \$26 million and acquisitions of \$78 million in 2010. These improvements were partially offset by higher capital expenditures of \$36 million.

Net cash used in financing activities was \$520 million in 2012 compared to \$455 million in 2011. The increase in cash used was due to higher debt reduction partially offset by lower share repurchases. During the year, \$550 million of debt matured and was repaid and we issued \$340 million of new debt. In 2011, the reduction in debt was \$50 million. During 2012, we did not repurchase any shares of our common stock compared to \$100 million of share repurchases in 2011.

Net cash used in financing activities was \$455 million in 2011 compared to \$580 million in 2010. The decrease in cash used was primarily due to lower repayments of notes payable due to an overall decline in commercial paper borrowings in 2011 compared to 2010.

Dividends

We paid dividends to our common stockholders of \$301 million (\$1.50 per share), \$300 million (\$1.48 per share) and \$301 million (\$1.46 per share) in 2012, 2011 and 2010, respectively.

Going forward, each quarter our Board of Directors will continue to consider our recent and projected earnings and other capital needs and priorities in deciding whether to approve the amount and payment of a dividend.

On January 31, 2013, our Board of Directors declared a cash dividend of \$0.375 cent per share for the first quarter of 2013. There are no material restrictions on our ability to declare dividends.

Financings and Capitalization

We are a Well-Known Seasoned Issuer with the SEC, which allows us to issue debt securities, preferred stock, preference stock, common stock, purchase contracts, depositary shares, warrants and units in an expedited fashion. We have a commercial paper program that is an important source of liquidity for us and a committed credit facility of \$1.0 billion to support our commercial paper issuances. The credit facility expires in April 2016. We have not drawn upon the credit facility.

At December 31, 2012, there were no outstanding commercial paper borrowings. During the year, commercial paper borrowings averaged \$221 million at a weighted-average interest rate of 0.39% and the maximum amount outstanding at any time was \$709 million. In 2011,

commercial paper borrowings averaged \$138 million at a weighted-average interest rate of 0.22% and the maximum amount of commercial paper outstanding at any point in time was \$450 million.

In October 2012, we borrowed \$230 million under term loan agreements. The loans bear interest at the applicable London Interbank Offered Rate (LIBOR) plus 2.25% or Prime Rate plus 1.25%, at our option. Interest is payable quarterly and the loans mature in 2015 and 2016. The proceeds from the loans are for general corporate purposes, including the repayment of 2013 debt maturities.

In November 2012, we issued \$110 million of 10-year notes with a coupon rate of 5.25%. Interest is paid quarterly beginning February 2013. The notes mature in November 2022; however, we may redeem some or all of the notes at anytime on or after November 2015 at a redemption price equal to 100% of the principal amount, plus accrued and unpaid interest. The proceeds from the notes are for general corporate purposes, including the repayment of 2013 debt maturities.

Cash and cash equivalents held by our foreign subsidiaries were \$219 million at December 31, 2012 and \$538 million at December 31, 2011. Cash and cash equivalents held by our foreign subsidiaries are generally used to support the liquidity needs of these subsidiaries. Most of these amounts could be repatriated to the U.S. but would be subject to additional taxes. Repatriation of some foreign balances is restricted by local laws.

Contractual Obligations and Off-Balance Sheet Arrangements

The following summarizes our known contractual obligations and off-balance sheet arrangements at December 31, 2012 and the effect that such obligations are expected to have on our liquidity and cash flow in future periods:

	Payments due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term debt	\$ 3,965	\$ 375	\$ 900	\$ 1,180	\$ 1,510
Interest payments on debt (1)	1,254	174	309	211	560
Non-cancelable operating lease obligations	284	91	120	51	22
Purchase obligations (2)	274	225	48	1	—
Pension plan contributions (3)	30	30	—	—	—
Retiree medical payments (4)	218	26	49	45	98
Total	\$ 6,025	\$ 921	\$ 1,426	\$ 1,488	\$ 2,190

The amount and period of future payments related to our income tax uncertainties cannot be reliably estimated and are not included in the above table. See Note 8 to the Consolidated Financial Statements for further details.

- (1) Interest payments on debt includes interest on our \$500 million 5.25% notes due in 2037. Bondholders may redeem these notes, in whole or in part, at par plus accrued interest, in January 2017. If all \$500 million of the notes are redeemed in January 2017, total interest payments would be reduced by \$524 million. Interest payments on debt also include interest on the \$110 million 5.25% notes due in 2022. These notes may be redeemed by us, in whole or in part, at anytime on or after November 2015 at par plus accrued interest. If we redeem all the notes in November 2015, total interest payments would be reduced by \$40 million.
- (2) Purchase obligations include unrecorded agreements to purchase goods or services that are enforceable and legally binding upon us and that specify all significant terms, including fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. Purchase obligations exclude agreements that are cancelable without penalty.
- (3) Pension plan contributions represent the amount we anticipate making to our pension plans during 2013; however, we will assess our funding alternatives as the year progresses.
- (4) Our retiree health benefit plans are non-funded plans and cash contributions are made each year to cover medical claims costs incurred. The amounts reported in the above table represent our estimate of future benefits payments.

Critical Accounting Estimates

The preparation of our financial statements in conformity with GAAP requires management to make estimates and assumptions about certain items that affect the reported amounts of assets, liabilities, revenues, expenses and accompanying disclosures, including the disclosure of contingent assets and liabilities. The accounting policies below have been identified by management as those accounting policies that are most critical to our financial statements due to the estimates and assumptions required. Management believes that the estimates and assumptions used are reasonable and appropriate based on the information available at the time the financial statements were prepared; however, actual results could differ from those estimates and assumptions. See Note 1 to the Consolidated Financial Statements for a summary of our accounting policies.

Revenue recognition - Multiple element arrangements

We derive our revenue from multiple sources including sales, rentals, financing and services. Certain of our transactions are consummated at the same time and can therefore generate revenue from multiple sources. The most common form of these transactions involves a sale of non-cancelable lease of equipment, a meter rental and an equipment maintenance agreement. As a result, we are required to determine whether the deliverables in a multiple element arrangement should be treated as separate units of accounting for revenue recognition purposes, and if so, how the price should be allocated among the delivered elements and when to recognize revenue for each element.

In multiple element arrangements, revenue is recognized for each of the elements based on their respective fair values. We recognize revenue for delivered elements only when the fair values of undelivered elements are known and uncertainties regarding customer acceptance are resolved. Revenue is allocated to the meter rental and equipment maintenance agreement elements using their respective fair values, which are determined based on prices charged in standalone and renewal transactions. For a sale transaction, revenue is allocated to the equipment based on a range of selling prices in standalone transactions. For a lease transaction, revenue is allocated to the equipment based on the present value of the remaining minimum lease payments. We then compare the allocated equipment fair value to the range of selling prices in standalone transactions during the period to ensure the allocated equipment fair value approximates average selling prices. The allocation of fair values to the various elements does not change the total revenue recognized from a transaction, but impacts the timing of revenue recognition.

Pension benefits

The valuation of our pension assets and obligations and the calculation of net periodic pension expense are dependent on assumptions and estimates relating to, among other things, the interest rate used to discount the future estimated liability (discount rate) and the expected rate of return on plan assets. These assumptions are evaluated and updated annually and are described in further detail in Note 17 to the Consolidated Financial Statements.

The discount rate for our largest plan, the U.S. Qualified Pension Plan (the U.S. Plan) is determined by matching the expected cash flows associated with our benefit obligations to a yield curve based on long-term, high quality fixed income debt instruments available as of the measurement date. The discount rate for our largest foreign plan, the U.K. Qualified Pension Plan (the U.K. Plan), is determined by using a model that discounts each year's estimated benefit payments by an applicable spot rate derived from a yield curve created from a large number of high quality corporate bonds. The discount rate used in the determination of net periodic pension expense for 2012 for both the U.S. Plan and the U.K. Plan was 4.95%. For 2013, the discount rate to be used in the determination of net periodic pension expense for the U.S. Plan and the U.K. Plan will be 4.05% and 4.55%, respectively. A 0.25% increase in the discount rate would decrease annual pension expense by approximately \$1 million for both the U.S. Plan and the U.K. Plan, and lower the projected benefit obligation of the U.S. Plan and U.K. Plan by \$42 million and \$21 million, respectively.

The expected return on plan assets is based on historical and expected future returns for current and targeted asset allocations for each asset class in the plans' investment portfolio, adjusted for historical and expected experience of active portfolio management results, as compared to the benchmark returns. When assessing the expected future returns for the portfolio, management places more emphasis on the expected future returns than historical returns. The expected rate of return used in the determination of net periodic pension expense for 2012 was 7.75% for the U.S. Plan and 7.25% for the U.K. Plan. For 2013, the expected rate of return to be used in the determination of net periodic pension expense for the U.S. Plan and the U.K. Plan will be 7.25%. A 0.25% increase in the expected rate of return on plan return on assets would decrease annual pension expense for the U.S. Plan and U.K. Plan by \$4 million and \$1 million, respectively.

Actual pension plan results that differ from our assumptions and estimates are accumulated and amortized over the estimated future working life of the plan participants and affect future pension expense. Net pension expense is also based on a market-related valuation of plan assets where differences between the actual and expected return on plan assets are amortized to pension expense over a five-year period.

We invest our pension plan assets in a variety of investment securities in accordance with our strategic asset allocation policy. The allocations of our U.S. and U.K. pension plan assets at December 31, 2012 and target allocations for 2013 are as follows:

	U.S. Pension Plan		U.K. Pension Plan	
	Allocation of plan assets at December 31, 2012	2013 Target allocation	Allocation of plan assets at December 31, 2012	2013 Target allocation
Equity securities	29%	28%	63%	65%
Fixed income	61%	62%	36%	35%
Real estate	4%	2%	—%	—%
Private equity	6%	8%	—%	—%
Cash	—%	—%	1%	—%
Total	100%	100%	100%	100%

Investment securities are exposed to various risks such as interest rate, market and credit risks, which could cause a change in the value of such investment securities. Such a change could have a material impact on our future results.

Residual value of leased assets

We provide lease financing for our products primarily through sales-type leases. Equipment residual values are determined at inception of the lease using estimates of equipment fair value at the end of the lease term. Residual value estimates impact the determination of whether a lease is classified as an operating lease or sales-type lease. Estimates of future equipment fair value are based primarily on our historical experience. We also consider forecasted supply and demand for our various products, product retirement and future product launch plans, end of lease customer behavior, regulatory changes, remanufacturing strategies, used equipment markets, if any, competition and technological changes.

We evaluate residual values on an annual basis or as changes to the above considerations occur and declines in estimated residual values considered "other-than-temporary" are recognized immediately. Estimated increases in future residual values are not recognized until the equipment is remarketed. If the actual residual value of lease assets were 10% lower than management's current estimates, pre-tax income would be lower by \$17 million.

Allowances for doubtful accounts and credit losses

We estimate our credit risk for accounts and finance receivables and provide allowances for estimated losses. We believe that our credit risk is limited because of our large number of customers, small account balances for most of our customers and customer geographic and industry diversification. We continuously monitor collections and payments from our customers and evaluate the adequacy of the applicable allowance based on historical loss experience, past due status, adverse situations that may affect a customer's ability to pay and prevailing economic conditions. We make adjustments to the reserves as deemed necessary. This evaluation is inherently subjective and actual results may differ significantly from estimated reserves.

Total allowance for credit losses as a percentage of finance receivables was 1.8% and 2.6% at December 31, 2012 and 2011, respectively. Holding all other assumptions constant, a 0.25% increase or decrease in the allowance rate at December 31, 2012 would have changed the 2012 provision by approximately \$6 million.

The allowance for doubtful accounts as a percentage of trade receivables was 2.7% and 3.4% at December 31, 2012 and 2011, respectively. Holding all other assumptions constant, a 0.25% increase or decrease in the allowance rate at December 31, 2012 would have changed the 2012 provision by approximately \$2 million.

Accounting for income taxes

We are subject to income taxes in the U.S. and numerous foreign jurisdictions. Our annual tax rate is based on our income, statutory tax rates, tax reserve changes and tax planning opportunities available to us in the various jurisdictions in which we operate. Significant judgment is required in determining our annual tax rate and in evaluating our tax positions.

We regularly assess the likelihood of tax adjustments in each of the tax jurisdictions in which we have operations and account for the related financial statement implications. Tax reserves have been established which we believe to be appropriate given the possibility of tax adjustments. Determining the appropriate level of tax reserves requires us to exercise judgment regarding the uncertain application of tax laws. The amount of reserves is adjusted when information becomes available or when an event occurs indicating a change in the

reserve is appropriate. Future changes in tax reserve requirements could have a material impact on our financial condition or results of operations.

Significant judgment is also required in determining the amount of valuation allowance to be recorded against deferred tax assets. In assessing whether a valuation allowance is necessary, and the amount of such allowance, we consider all available evidence for each jurisdiction including past operating results, estimates of future taxable income and the feasibility of ongoing tax planning strategies. As new information becomes available that would alter our determination as to the amount of deferred tax assets that will ultimately be realized, we adjust the valuation allowance with a corresponding impact to income tax expense in the period in which such determination is made.

Useful lives of long-lived assets

We depreciate property, plant and equipment and rental property and equipment principally using the straight-line method over the estimated useful lives of up to 50 years for buildings, three to 15 years for machinery and equipment, four to six years for rental equipment and three to five years for computer equipment. Leasehold improvements are amortized over the shorter of the estimated useful life or the remaining lease term. We amortize capitalized costs related to internally developed software using the straight-line method over the estimated useful life, which is principally three to 10 years. Intangible assets with finite lives are amortized using the straight-line method or an accelerated attrition method over their estimated useful lives, which are principally three to 15 years. Our estimates of useful lives could be affected by changes in regulatory provisions, technology or business plans and changes to the assets' estimated useful lives could have a material impact on our results of operations.

Impairment review

Long-lived and intangible assets are reviewed for impairment on an annual basis or whenever events or changes in circumstances indicate that the carrying amount may not be fully recoverable. The related estimated future undiscounted cash flows expected to result from the use and eventual disposition of the asset is compared to the asset's carrying amount. We derive the cash flow estimates from our future long-term business plans and historical experience. If the sum of the expected cash flows is less than the carrying amount, an impairment charge is recorded for an amount by which the carrying amount exceeds the fair value of the asset. The fair value of the asset is determined using probability weighted expected discounted cash flow estimates, quoted market prices when available and appraisals, as appropriate. Changes in the estimates and assumptions incorporated in our impairment assessment could materially affect the determination of fair value and the associated impairment charge.

Goodwill is tested annually for impairment, during the fourth quarter, or sooner when circumstances indicate an impairment may exist at the reporting unit level. The impairment test for goodwill is a two-step approach. In the first step, the fair value of each reporting unit is compared to the reporting unit's carrying value, including goodwill. If the fair value of a reporting unit is less than its carrying value, the second step of the goodwill impairment test is performed to measure the amount of impairment, if any. In the second step, the fair value of the reporting unit is allocated to the assets and liabilities of the reporting unit as if it had been acquired in a business combination and the purchase price was equivalent to the fair value of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to its assets and liabilities is referred to as the implied fair value of goodwill. The implied fair value of the reporting unit's goodwill is then compared to the actual carrying value of goodwill. If the implied fair value of goodwill is less than the carrying value of goodwill, an impairment loss is recognized for the difference.

Significant estimates and assumptions are used in our goodwill impairment review and include the identification of reporting units, assigning assets and liabilities to reporting units, assigning goodwill to reporting units and determining the fair value of each reporting unit. The fair value of each reporting unit is determined based on a combination of techniques, including the present value of future cash flows, applicable multiples of competitors and multiples from sales of like businesses, and requires us to make estimates and assumptions regarding discount rates, growth rates and our future long-term business plans. Changes in any of these estimates or assumptions could materially affect the determination of fair value and the associated goodwill impairment charge for each reporting unit.

During the third quarter of 2012, as a result of the continuing under-performance of our IMS operations, and to enable us to better focus on higher growth cross-border ecommerce parcel opportunities, we began exploring strategic alternatives to exit the IMS operations related to the international delivery of mail and catalogs and concluded it was appropriate to conduct a goodwill impairment review. We determined the fair value of IMS based on negotiations with potential buyers and preliminary indications of interests and written offers received for the IMS business, as well applying an income approach with revised cash flow projections. The inputs used to determine the fair value of the IMS operations were classified as Level 3 in the fair value hierarchy. Based on our review, we recorded a goodwill impairment charge of \$18 million and additional impairment charges of \$10 million to write-down the carrying values of certain intangible and fixed assets associated with the IMS business to their respective fair values. At December 31, 2012, the assets and liabilities of IMS were classified as held-for-sale and all historical amounts related to the IMS operations, including the above mentioned goodwill, intangible asset and fixed asset impairment charges, were included in discontinued operations.

In 2011, due to the under-performance of our IMS operations, management concluded that it was appropriate to perform a goodwill impairment review for IMS. We determined the fair value of IMS using a combination of techniques including the present value of future cash flows, multiples of competitors and multiples from sales of like businesses, and determined that the IMS reporting unit was impaired. The inputs used to determine the fair value of the IMS operations were classified as Level 3 in the fair value hierarchy. We allocated the implied fair value to the assets and liabilities of IMS and determined the implied fair value of goodwill. Based on our review, we recorded a goodwill impairment charge of \$46 million and identifiable intangible asset impairment charges of \$12 million to write-down the carrying values of goodwill and intangible assets associated with the IMS business to their respective fair values. These charges are recorded in discontinued operations in the Consolidated Statements of Income.

Also in 2011, based on the results of our annual goodwill impairment review process, we determined that the international operations of our Management Services segment (PBMSi) were impaired. We determined the fair value of PBMSi using a combination of techniques including the present value of future cash flows, derived from our long-term plans and historical experience, multiples of competitors and multiples from sales of like businesses and allocated the estimated fair value of the assets and liabilities of PBMSi. The inputs used to determine the fair value of PBMSi were classified as Level 3 in the fair value hierarchy. Based on our review, we recorded a goodwill impairment charge of \$84 million and intangible asset impairment charge of \$5 million to write down the carrying value of goodwill and intangible assets to their respective estimated fair values.

Based on the results of our annual impairment review conducted in 2012, the estimated fair values of our reporting units were substantially in excess of their respective carrying values, except for PBMSi, whose estimated fair value exceeded its carrying value by approximately 4%. At December 31, 2012, the goodwill allocated to PBMSi was \$5 million. The assumptions used to estimate fair value were based on projections incorporated in our current operating plans as well as other available information. The current operating plans included significant assumptions and estimates associated with sales growth, profitability and related cash flows, along with cash flows associated with taxes and capital spending. The discount rate used to estimate fair value was risk adjusted in consideration of the economic conditions of the reporting unit. We also considered other assumptions that market participants may use. The inputs used to determine the fair value of PBMSi were classified as Level 3 in the fair value hierarchy. By their nature, projections are uncertain. Potential events and circumstances, such as declining volumes, loss of client contracts and inability to acquire new clients could have an adverse effect on our assumptions. We will continue to monitor and evaluate the carrying values of goodwill and intangible assets of PBMSi, and should actual results differ significantly from our estimates and assumptions, additional non-cash impairment charges for goodwill could be recorded in 2013.

Stock-based compensation expense

We recognize compensation cost for stock-based awards based on the estimated fair value of the award, net of an estimated forfeiture rate. We recognize compensation costs for those shares expected to vest on a straight-line basis over the requisite service period.

We estimate the fair value of stock awards using a Black-Scholes valuation model or Monte Carlo simulation model. These models require assumptions be made regarding the expected stock price volatility, risk-free interest rate, expected life of the award and dividend yield. The estimate of stock price volatility is based on historical price changes of our stock. The risk-free interest rate is based on U.S. treasuries with a term equal to the expected life of the stock award. The expected life of the award and expected dividend yield are based on historical experience.

We believe that the valuation techniques and the approach utilized to develop the underlying assumptions are appropriate in estimating the fair value of our stock-based awards. If factors change and we use different assumptions, our stock-based compensation expense could be different in the future. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by employees who receive equity awards, and subsequent events are not indicative of the reasonableness of the original estimates of fair value. In addition, we are required to estimate the expected forfeiture rate and recognize expense only for those shares expected to vest. If our actual forfeiture rate is materially different from our estimate, the stock-based compensation expense could be significantly different from what we have recorded in the current period.

Restructuring

We have undertaken restructuring actions which require management to utilize certain estimates related to the amount and timing of expenses. If the actual amounts differ from our estimates, the amount of the restructuring charges could be impacted. On a quarterly basis, we update our estimates of future remaining obligations and costs associated with all restructuring actions and compare these updated estimates to our current restructuring reserves, and make adjustments if necessary.

Loss contingencies

In the ordinary course of business, we are routinely defendants in, or party to, a number of pending and threatened legal actions. On a quarterly basis, we review the status of each significant matter and assess the potential financial exposure. If the potential loss from any claim or legal action is considered probable and can be reasonably estimated, we establish a liability for the estimated loss. The assessment of the ultimate outcome of each claim or legal action and the determination of the potential financial exposure requires significant judgment. Estimates of potential liabilities for claims or legal actions are based only on information that is available at that time. As additional information becomes available, we may revise our estimates, and these revisions could have a material impact on our results of operations and financial position.

Legal and Regulatory Matters

Legal

See Legal Proceedings in Item 3 for information regarding our legal proceedings.

Other regulatory matters

As is the case with other large corporations, we are continually under examination by tax authorities in the United States, other countries and local jurisdictions in which we have operations. The years under examination vary by jurisdiction. Except for a dispute arising out of a partnership investment, the IRS examinations of tax years prior to 2009 are now closed to audit. We have other domestic and international tax filings currently under examinations or subject to examination. Tax reserves have been established which we believe to be appropriate given the possibility of tax adjustments. However, the resolution of such matters could have a material impact on our results of operations, financial position and cash flows. See Note 8 to the Consolidated Financial Statements.

We are currently undergoing unclaimed property audits, which are being conducted by various state authorities. The property subject to review in this audit process generally includes unclaimed wages, vendor payments and customer receipts. State escheat laws generally require entities to report and remit abandoned and unclaimed property. Failure to timely report and remit the property can result in the assessments of additional escheat liability, interest and penalties. It is too early to determine the ultimate outcome of such audits.

Foreign Currency Exchange

Over the last three years, approximately one-third of our consolidated revenue was derived from operations outside of the United States. The functional currency for most of our foreign operations is the local currency. Our largest foreign currency exposure is to fluctuations in the British pound, Euro and Canadian dollar, and to a lesser extent, the Australian dollar. Changes in the value of the U.S. dollar relative to the currencies of countries in which we operate impact our reported assets, liabilities, revenue and expenses. Exchange rate fluctuations can also impact the settlement of intercompany receivables and payables between our subsidiaries in different countries. For the years ended December 31, 2012, 2011 and 2010, currency rate movements increased/(decreased) revenue by (1.2)%, 1.6% and 0.4%, respectively. Based on the revenue contribution from our international operations in 2012, a 1% increase in the value of the U.S. dollar would have reduced revenue by \$15 million.

We use foreign exchange contracts to mitigate the risk of foreign currency exchange rate fluctuations. We enter into foreign exchange contracts with only those financial institutions that meet stringent credit requirements as set forth in our derivative policy to mitigate our exposure to counterparty credit risk. We regularly review our credit exposure balances as well as the creditworthiness of our counterparties. Maximum risk of loss on these contracts is limited to the amount of the difference between the spot rate at the date of the contract delivery and the contracted rate. At December 31, 2012, the fair value of our outstanding foreign exchange contracts was a net asset of \$1 million.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to the impact of interest rate changes and foreign currency fluctuations due to our investing and funding activities and our operations denominated in different foreign currencies.

Our objective in managing our exposure to changing interest rates is to limit the volatility and impact of changing interest rates on earnings and cash flows. To achieve these objectives, we use a balanced mix of debt maturities and interest rate swaps that convert the fixed rate interest payments on certain debt issuances to variable rates. At December 31, 2012, approximately 17% of our debt was at variable rates, including the fixed rate debt that has been swapped to variable rate through interest rate swaps. A one-percentage point increase/decrease in the effective interest rate of our variable rate debt in 2012 would have reduced/increased 2012 pre-tax income by \$7 million.

Our objective in managing our exposure to foreign currency fluctuations is to reduce the volatility in earnings and cash flows associated with the effect of foreign exchange rate changes on transactions that are denominated in foreign currencies. Accordingly, we enter into various contracts, which change in value as foreign exchange rates change, to protect the value of external and intercompany transactions. The principal currencies actively hedged are the British pound, Canadian dollar and Euro.

We employ established policies and procedures governing the use of financial instruments to manage our exposure to such risks. We do not enter into foreign currency or interest rate transactions for speculative purposes. The gains and losses on these contracts offset changes in the value of the related exposures.

We utilize a "Value-at-Risk" (VaR) model to determine the potential loss in fair value from changes in market conditions. The VaR model utilizes a "variance/co-variance" approach and assumes normal market conditions, a 95% confidence level and a one-day holding period. The model includes all of our debt, interest rate derivative contracts and foreign exchange derivative contracts associated with forecasted transactions. The model excludes all anticipated transactions and firm commitments and account receivables and payables denominated in foreign currencies, which certain of these instruments are intended to hedge. The VaR model is a risk analysis tool and does not purport to represent actual losses in fair value that will be incurred by us, nor does it consider the potential effect of favorable changes in market factors.

During 2012 and 2011, our maximum potential one-day loss in fair value of our exposure to foreign exchange rates and interest rates, using the variance/co-variance technique described above, was not material.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

See "Index to Consolidated Financial Statements and Supplemental Data" on page 33 of this Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the direction of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), we evaluated our disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) and internal control over financial reporting. Our CEO and CFO concluded that such disclosure controls and procedures were effective as of December 31, 2012, based on the evaluation of these controls and procedures required by paragraph (b) of Rule 13a-15 or Rule 15d-15 under the Exchange Act. Any system of controls is based in part upon certain assumptions designed to obtain reasonable (and not absolute) assurance as to its effectiveness, and there can be no assurance that any design will succeed in achieving its stated goals. Notwithstanding this caution, the CEO and CFO have reasonable assurance that the disclosure controls and procedures were effective as of December 31, 2012.

Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15 (f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with internal control policies or procedures may deteriorate.

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2012. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control - Integrated Framework*. Management's assessment included evaluating the design of our internal control over financial reporting and testing of the operational effectiveness of our internal control over financial reporting. Based on its assessment, management concluded that, as of December 31, 2012, our internal control over financial reporting was effective based on the criteria issued by COSO in *Internal Control - Integrated Framework*.

The effectiveness of our internal control over financial reporting as of December 31, 2012 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears in this Form 10-K.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the three months ended December 31, 2012, that have materially affected, or are reasonably likely to materially affect, such internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information pertaining to our Directors and the members of the Audit Committee of the Board of Directors is incorporated herein by reference to the sections entitled "Compensation Committee Interlocks and Insider Participation," "Election of Directors," "Security Ownership of Directors and Executive Officers," "Beneficial Ownership," "Report of the Audit Committee" and "Corporate Governance" of the Definitive Proxy Statement to be filed with the Commission pursuant to Regulation 14A in connection with our Annual Meeting of Stockholders to be held on May 13, 2013. Such Definitive Proxy Statement will be filed with the Commission within 120 days of our fiscal year ended December 31, 2012. Our executive officers are as follows:

Name	Age	Title	Executive Officer Since
Marc B. Lautenbach	51	President and Chief Executive Officer	2012
Leslie Abi-Karam	54	Executive Vice President and President, Pitney Bowes Communications Solutions	2005
Gregory E. Buoncontri	65	Executive Vice President and Chief Information Officer	2000
Daniel J. Goldstein	51	Executive Vice President and Chief Legal and Compliance Officer	2010
Michael Monahan	52	Executive Vice President and Chief Financial Officer	2005
John E. O'Hara	54	Executive Vice President and President, Pitney Bowes Software Solutions	2011
Vicki A. O'Meara	55	Executive Vice President and President, Pitney Bowes Services Solutions	2008
Joseph H. Timko	52	Executive Vice President and Chief Technology and Strategy Officer	2010
Johnna G. Torsone	62	Executive Vice President and Chief Human Resources Officer	1993

There is no family relationship among the above officers. All of the officers have served in various corporate, division or subsidiary positions with the Company for at least the past five years except as described below:

Mr. Lautenbach was appointed President and Chief Executive Officer of the Company in December 2012. Before joining Pitney Bowes, Mr. Lautenbach held numerous positions during his career at IBM, which he joined in 1985. His leadership roles at IBM included serving as Vice President Small and Medium Business in Asia Pacific from 1998-2000, General Manager of IBM Global Small and Medium Business from 2000-2005, General Manager of IBM North America from 2005-2010, and Managing Partner, North America, for IBM Global Business Services.

Mr. Goldstein re-joined the Company in October 2010 as Executive Vice President and Chief Legal and Compliance Officer. From September 2008 until October 2010, Mr. Goldstein served as the Senior Vice President and General Counsel for GAF Materials Corporation, International Specialty Products, and ISP Minerals, a group of privately held, commonly owned companies in the building materials, chemicals and mining industries. Mr. Goldstein originally joined Pitney Bowes in 1999 as Associate General Counsel and was appointed Vice President, Deputy General Counsel in 2005.

Ms. O'Meara joined the Company in June 2008 as Executive Vice President and Chief Legal and Compliance Officer. In July 2010, Ms. O'Meara became Executive Vice President and President, Pitney Bowes Management Services & Government and Postal Affairs, relinquishing her responsibilities as the Chief Legal and Compliance Officer. Prior to joining the Company, she was President - U.S. Supply Chain Solutions for Ryder System, Inc., a leading transportation and supply chain solutions company. Ms. O'Meara joined Ryder System, Inc. as Executive Vice President and General Counsel in June 1997.

Mr. Timko joined the Company in February 2010 as Executive Vice President and Chief Strategy and Innovation Officer. Prior to joining the Company, Mr. Timko was a partner in the technology / telecom and industrial sector practice at McKinsey & Company.

Code of Ethics

We have adopted a Code of Ethics that applies to all of our directors, officers and employees, including our principal executive, financial and accounting officers, or persons performing similar functions. Our Code of Ethics is posted on our corporate governance website located at www.pb.com/Our-Company/Leadership-and-Governance/Corporate-Governance. In addition, amendments to the Code of Ethics and any grant of a waiver from a provision of the Code of Ethics requiring disclosure under applicable SEC rules will be disclosed at the same location as the Code of Ethics.

ITEM 11. EXECUTIVE COMPENSATION

The sections entitled "Directors' Compensation," "Compensation Discussion and Analysis", and "Executive Compensation Tables and Related Narrative" of our Definitive Proxy Statement to be filed with the Commission within 120 days of our fiscal year ended December 31, 2012 are incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

EQUITY COMPENSATION PLAN INFORMATION TABLE

The following table provides information as of December 31, 2012 regarding the number of shares of common stock that may be issued under our equity compensation plans.

Plan Category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans excluding securities reflected in column (a)
Equity compensation plans approved by security holders	15,760,550	\$32.93	16,644,439
Equity compensation plans not approved by security holders	—	—	—
Total	15,760,550	\$32.93	16,644,439

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors of Pitney Bowes Inc.

In our opinion, the consolidated financial statements listed in the accompanying index present fairly, in all material respects, the financial position of Pitney Bowes Inc. and its subsidiaries at December 31, 2012 and 2011, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the accompanying index presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedule, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying Consolidated Financial Statements include the accounts of Pitney Bowes Inc. (we, us, our, or the company) and its wholly owned subsidiaries. The Consolidated Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). Operating results of acquired companies are included in the consolidated financial statements from the date of acquisition. Intercompany transactions and balances have been eliminated. Certain prior year amounts have been reclassified to conform to the current year presentation.

As a result of the continuing under-performance of our IMS operations, and to enable us to better focus on higher growth cross-border ecommerce parcel opportunities, we began exploring strategic alternatives to exit the IMS operations. The assets and liabilities of IMS met held-for-sale classification and all historical amounts related to the IMS operations, including the related goodwill and asset impairment charges, are presented as discontinued operations and have been excluded from continuing operations and from segment results for all periods presented. The IMS operations were historically part of our Mail Services segment.

Use of Estimates

The preparation of our financial statements in conformity with GAAP requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and accompanying disclosures, including the disclosure of contingent assets and liabilities. These estimates and assumptions are based on management's best knowledge of current events, historical experience and other information available when the financial statements are prepared. These estimates include, but are not limited to, revenue recognition for multiple element arrangements, goodwill and intangible asset impairment review, allowance for doubtful accounts and credit losses, residual values of leased assets, useful lives of long-lived and intangible assets, restructuring costs, pensions and other postretirement benefits, income tax reserves, deferred tax asset valuation allowance and loss contingencies. Actual results could differ from those estimates and assumptions.

Cash Equivalents and Short-Term Investments

Cash equivalents include short-term, liquid investments with maturities of three months or less at the date of purchase. Short-term investments include investments with a maturity of greater than three months but less than one year from the reporting date.

Accounts Receivable and Allowance for Doubtful Accounts

We estimate our accounts receivable risks and provide an allowance for doubtful accounts accordingly. We evaluate the adequacy of the allowance based on historical loss experience, aging of receivables, adverse situations that may affect a customer's ability to pay and prevailing economic conditions and make adjustments to the allowance as necessary. This evaluation is inherently subjective and actual results may differ significantly from estimated reserves. Accounts receivable are generally due within 30 days after the invoice date. Accounts deemed uncollectible are written off against the allowance after all collection efforts have been exhausted and management deems the account to be uncollectible. We believe that our accounts receivable credit risk is limited because of our large number of customers, small account balances for most of our customers and customer geographic and industry diversification.

Finance Receivables and Allowance for Credit Losses

Finance receivables are composed of sales-type lease receivables and unsecured revolving loan receivables. We estimate our finance receivable risks and provide an allowance for credit losses accordingly. We evaluate the adequacy of the allowance for credit losses based on historical loss experience, the nature and volume of our portfolios, adverse situations that may affect a customer's ability to pay, prevailing economic conditions and our ability to manage the collateral and make adjustments to the allowance as necessary. This evaluation is inherently subjective and actual results may differ significantly from estimated reserves.

We establish credit approval limits based on the credit quality of the customer and the type of equipment financed. Our policy is to discontinue revenue recognition for lease receivables that are more than 120 days past due and for unsecured loan receivables that are more than 90 days past due. We resume revenue recognition when customer payments reduce the account balance aging to 60 days or less past due. Finance receivables deemed uncollectible are written off against the allowance after all collection efforts have been exhausted and management deems the account to be uncollectible. We believe that our finance receivable credit risk is limited because of our large number of customers, small account balances for most of our customers and customer geographic and industry diversification.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined on the last-in, first-out (LIFO) basis for most U.S. inventories and on the first-in, first-out (FIFO) basis for most non-U.S. inventories.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

Fixed Assets and Depreciation

Property, plant and equipment and rental equipment are stated at cost and depreciated principally using the straight-line method over their estimated useful lives, which are up to 50 years for buildings, three to 15 years for machinery and equipment, four to six years for rental equipment and three to five years for computer equipment. Major improvements which add to productive capacity or extend the life of an asset are capitalized while repairs and maintenance are charged to expense as incurred. Leasehold improvements are amortized over the shorter of the estimated useful life or the remaining lease term.

Fully depreciated assets are retained in fixed assets and accumulated depreciation until they are removed from service. In the case of disposals, assets and related accumulated depreciation are removed from the accounts and the net amounts, less proceeds from disposal, are included in earnings.

Software Development Costs

We capitalize certain costs of software developed for internal use. Capitalized costs include purchased materials and services, payroll and personnel-related costs and interest costs. The cost of internally developed software is amortized on a straight-line basis over its estimated useful life, principally three to 10 years.

Costs incurred for the development of software to be sold, leased or otherwise marketed are expensed as incurred until technological feasibility has been established, at which time such costs are capitalized until the product is available for general release to the public. Capitalized software development costs include purchased materials and services and payroll and personnel-related costs attributable to programmers, software engineers, quality control and field certifiers. Capitalized software development costs are amortized generally on a straight-line basis over the product's estimated useful life, principally three to five years. Software development costs capitalized during 2012 and 2011 were \$4 million and \$5 million, respectively. Amortization of capitalized software development costs was \$10 million, \$10 million and \$8 million for the years ended December 31, 2012, 2011 and 2010, respectively. At December 31, 2012 and 2011, capitalized software development costs included in other assets were \$9 million and \$14 million, respectively.

Research and Development Costs

Research and product development costs, which primarily included personnel-related costs, are expensed as incurred. These costs include engineering costs related to research and product development activities in our hardware segments and all engineering costs in our software segment.

Business Combinations

We account for business combinations using the acquisition method of accounting, which requires that the assets acquired and liabilities assumed be recorded at the date of acquisition at their respective fair values. The fair value of intangible assets is estimated using a cost, market or income approach. Goodwill represents the excess of the purchase price over the estimated fair values of net tangible and intangible assets acquired. Finite-lived intangible assets are amortized over their estimated useful lives, principally three to 15 years, using either the straight-line method or an accelerated attrition method.

Impairment Review for Long-lived Assets

Long-lived assets are reviewed for impairment annually or whenever events or changes in circumstances indicate that the carrying amount may not be fully recoverable. The related estimated future undiscounted cash flows expected to result from the use of the asset and its eventual disposition is compared to the carrying amount. If the sum of the expected cash flows is less than the carrying amount, an impairment charge is recorded for an amount by which the carrying amount exceeds the fair value of the asset. The fair value of the impaired asset is determined using probability weighted expected cash flow estimates, quoted market prices when available and appraisals, as appropriate. We derive cash flow estimates from our long-term business plans and historical experience.

Impairment Review for Goodwill and Intangible Assets

Goodwill is tested annually for impairment during the fourth quarter or sooner when circumstances indicate an impairment may exist, at the reporting unit level. A reporting unit is the operating segment, or a business that is one level below that operating segment. Reporting units are aggregated as a single reporting unit if they have similar economic characteristics. Goodwill is tested for impairment using a two-step approach. In the first step, the fair value of each reporting unit is determined and compared to the reporting unit's carrying value, including goodwill. If the fair value of a reporting unit is less than its carrying value, the second step of the goodwill impairment test is performed to measure the amount of impairment, if any. In the second step, the fair value of the reporting unit is allocated to the assets and liabilities of the reporting unit as if it had been acquired in a business combination and the purchase price was equivalent to the fair value of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to its assets and liabilities is referred to as the implied fair value of goodwill. The implied fair value of the reporting unit's goodwill is then compared to the actual carrying value of goodwill. If the implied fair value of goodwill is less than the carrying value of goodwill, an impairment loss is recognized for the difference. The fair value of a reporting unit is determined based on a combination of various techniques, including the present value of future cash flows, multiples of competitors and multiples from sales of like businesses.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

Intangible assets are reviewed for impairment annually or whenever events or changes in circumstances indicate that the carrying amount may not be fully recoverable. The related estimated future undiscounted cash flows expected to result from the use of the asset and its eventual disposition is compared to the carrying amount. If the sum of the expected cash flows is less than the carrying amount, an impairment charge is recorded. The impairment charge is measured as the amount by which the carrying amount exceeds the fair value of the asset. The fair value of the asset is determined using probability weighted expected cash flow estimates, quoted market prices when available and appraisals, as appropriate.

Retirement Plans

Actual pension plan results that differ from our assumptions and estimates are accumulated and amortized over the estimated future working life of the plan participants and affect future pension cost. Net periodic pension cost includes current service cost, interest cost and return on plan assets. Net pension cost is also based on a market-related valuation of plan assets where differences between the actual and expected return on plan assets are amortized to pension cost over a five-year period. We recognize the overfunded or underfunded status of pension and other postretirement benefit plans in the Consolidated Balance Sheets. Gains and losses, prior service costs and credits and any remaining transition amounts that have not yet been recognized in net periodic benefit cost are recognized in accumulated other comprehensive income, net of tax, until they are amortized as a component of net periodic benefit cost.

Stock-based Compensation

We measure compensation expense for stock-based awards based on the estimated fair value of the award and recognize the expense on a straight-line basis (net of estimated forfeitures) over the employee requisite service period. We estimate the fair value of stock awards using a Black-Scholes valuation model or a Monte Carlo simulation model for those awards that contain a market condition. We believe that the valuation techniques and the approach utilized to develop the underlying assumptions are appropriate in estimating the fair value of our stock awards. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by employees and subsequent events are not indicative of the reasonableness of the original estimates of fair value.

Revenue Recognition

We derive our revenue from multiple sources including sales, rentals, financing and services. Certain of our transactions are consummated at the same time and generate revenue from multiple sources. The most common form of these transactions involves the sale or non-cancelable lease of equipment, a meter rental and an equipment maintenance agreement. In these multiple element arrangements, revenue is allocated to each of the elements based on their relative fair values. The allocation of fair values to the various elements does not change the total revenue recognized from a transaction, but impacts the timing of revenue recognition. Revenue is allocated to the meter rental and equipment maintenance agreement elements using their respective fair values, which are determined based on prices charged in standalone and renewal transactions. For a sale transaction, revenue is allocated to the equipment based on a range of selling prices in standalone transactions. For a lease transaction, revenue is allocated to the equipment based on the present value of the remaining minimum lease payments. The allocated equipment fair value is compared to the range of selling prices in standalone transactions during the period to ensure the allocated equipment fair value approximates average selling prices. More specifically, revenue related to our offerings is recognized as follows:

Sales Revenue

Sales of Equipment

We sell equipment directly to our customers and to distributors (re-sellers) throughout the world. We recognize revenue from these sales when the risks and rewards of ownership transfer to the customer, which is generally upon shipment. We recognize revenue from the sale of equipment under sales-type leases as equipment revenue at the inception of the lease. We do not typically offer any rights of return or stock balancing rights. Sales revenue from customized equipment, mail creation equipment and shipping products is generally recognized when installed.

Sales of Supplies

Revenue related to supplies is recognized at the point of title transfer, which is generally upon delivery.

Standalone Software Sales and Integration Services

We recognize revenue from standalone software licenses upon delivery of the product when persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed and determinable and collectability is probable. For software licenses that are included in a lease contract, we recognize revenue upon shipment of the software unless the lease contract specifies that the license expires at the end of the lease or the price of the software is deemed not fixed or determinable based on historical evidence of similar software leases. In these instances, revenue is recognized on a straight-line basis over the term of the lease contract. We recognize revenue from software requiring integration services at the point of customer acceptance. We recognize revenue related to off-the-shelf perpetual software licenses upon transfer of title, which is generally upon shipment.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

Rentals Revenue

We rent equipment, primarily postage meters and mailing equipment, under short-term rental agreements. Rental revenue includes revenue from the subscription for digital meter services. We may invoice in advance for postage meter rentals according to the terms of the agreement. We initially defer these advanced billings and recognize rental revenue on a straight-line basis over the invoice period. Revenues generated from financing customers for the continued use of equipment subsequent to the expiration of the original lease term are classified within rentals revenue.

We defer certain initial direct costs incurred in consummating a transaction and recognize these costs over the expected term of the agreement. Initial direct costs amortized in 2012, 2011 and 2010 were \$13 million, \$19 million and \$27 million, respectively. Initial direct costs deferred at December 31, 2012 and 2011 were \$26 million and \$31 million, respectively. These costs are included in rental property and equipment, net on our Consolidated Balance Sheets.

Financing Revenue

We provide lease financing for our products primarily through sales-type leases. We also provide revolving lines of credit to our customers for the purchase of postage and related supplies. The vast majority of our leases qualify as sales-type leases using the present value of minimum lease payments classification criteria. We believe that our sales-type lease portfolio contains only normal collection risk. Accordingly, we record the fair value of equipment as sales revenue, the cost of equipment as cost of sales and the minimum lease payments plus the estimated residual value as finance receivables. The difference between the finance receivable and the equipment fair value is recorded as unearned income and is amortized as income over the lease term using the interest method.

Equipment residual values are determined at inception of the lease using estimates of equipment fair value at the end of the lease term. Estimates of future equipment fair value are based primarily on our historical experience. We also consider forecasted supply and demand for our various products, product retirement and future product launch plans, end of lease customer behavior, regulatory changes, remanufacturing strategies, used equipment markets, if any, competition and technological changes. We evaluate residual values on an annual basis or as changes to the above considerations occur.

Support Services Revenue

We provide support services for our equipment primarily through maintenance contracts. Revenue related to these agreements is recognized on a straight-line basis over the term of the agreement.

Business Services Revenue

Business services revenue includes revenue from management services, mail services and marketing services. Management services include outsourcing of mailrooms, copy centers, print management or other document management functions. These service agreements are typically one to five year contracts that contain a monthly service fee and in many cases a “click” charge based on the number of copies made, documents processed, machines in use, etc. The monthly service fee is recognized over the term of the agreement and the “click” charges are recognized as earned. Mail services include the preparation, sortation and aggregation of mail to earn postal discounts and expedite delivery and ecommerce solutions for cross border transactions. Marketing services include direct mail marketing services. Revenue from mail services and marketing services is recognized as the services are provided.

Shipping and Handling

Shipping and handling costs are recorded in cost of revenues.

Product Warranties

We provide product warranties in conjunction with the sale of certain products, generally for a period of 90 days from the date of installation. We estimate our liability for product warranties based on historical claims experience and other currently available evidence. Our product warranty liability at December 31, 2012 and 2011 was not material.

Deferred Marketing Costs

We capitalize certain direct mail, telemarketing, Internet and retail marketing costs associated with the acquisition of new customers and recognize these costs over the expected revenue stream ranging from five to nine years. Deferred marketing costs expensed in 2012, 2011 and 2010 were \$30 million, \$34 million and \$39 million, respectively. Deferred marketing costs included in other assets in the Consolidated Balance Sheets were \$73 million and \$84 million at December 31, 2012 and 2011, respectively. We review individual marketing programs for impairment annually or as circumstances warrant.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

Restructuring Charges

Costs associated with exit or disposal activities, including lease termination costs and employee severance costs associated with restructuring, are recognized when they are incurred. The cost and related liability for one-time benefit arrangements is recognized when they are both probable and reasonably estimable.

Derivative Instruments

In the normal course of business, we are exposed to the impact of changes in interest rates and foreign currency exchange rates. We limit these risks by following established risk management policies and procedures, including the use of derivatives. We do not use derivatives for trading or speculative purposes.

We use derivative instruments to manage the related cost of debt and to limit the effects of foreign exchange rate fluctuations on financial results. Derivative instruments typically consist of interest-rate swaps, forward contracts and currency swaps depending upon the underlying exposure. We record our derivative instruments at fair value and the accounting for changes in the fair value of the derivatives depends on the intended use of the derivative, the resulting designation and the effectiveness of the instrument in offsetting the risk exposure it is designed to hedge.

To qualify as a hedge, a derivative must be highly effective in offsetting the risk designated for hedging purposes. The hedge relationship must be formally documented at inception, detailing the particular risk management objective and strategy for the hedge. The effectiveness of the hedge relationship is evaluated on a retrospective and prospective basis.

The use of derivative instruments exposes us to counterparty credit risk. To mitigate such risks, we enter into contracts with only those financial institutions that meet stringent credit requirements. We regularly review our credit exposure balances as well as the creditworthiness of our counterparties.

Income Taxes

We recognize deferred tax assets and liabilities for the future tax consequences attributable to differences between the carrying amounts of assets and liabilities and their respective tax bases. A valuation allowance is provided when it is more likely than not that a deferred tax asset will not be realized. The ultimate realization of deferred tax assets depends on the generation of future taxable income during the period in which related temporary differences become deductible. We consider the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in this assessment. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date of such change.

Earnings per Share

Basic earnings per share is based on the weighted-average number of common shares outstanding during the year. Diluted earnings per share also includes the dilutive effect of outstanding stock options, market stock units, restricted stock, preference stock, preferred stock and stock purchase plans.

Statement of Cash Flows

During the fourth quarter of 2012, we determined that beginning with the three month period ended December 31, 2011 and each subsequent three month period through September 30, 2012, changes in certain investment-related working capital accounts that were classified in the Consolidated Statement of Cash Flows as cash flows from operating activities should have been included in cash flows from investing activities. The Consolidated Statement of Cash Flows for the year ended December 31, 2011 has been revised in this Form 10-K by increasing cash provided by operating activities and increasing cash used by investing activities by \$29 million.

We have determined that the effect of this reclassification was not material to any of our previously issued consolidated financial statements and will revise our previously issued quarterly financial statements to reflect this reclassification adjustment in future Form 10-Q filings as appropriate. See Note 20.

Translation of Non-U.S. Currency Amounts

In general, the functional currency of our foreign operations is the local currency. Assets and liabilities of subsidiaries operating outside the U.S. are translated at rates in effect at the end of the period and revenue and expenses are translated at average monthly rates during the period. Net deferred translation gains and losses are included as a component of accumulated other comprehensive income.

Loss contingencies

In the ordinary course of business, we are routinely defendants in, or party to, a number of pending and threatened legal actions. On a quarterly basis, we review the status of each significant matter and assess the potential financial exposure. If the potential loss from any

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

claim or legal action is considered probable and can be reasonably estimated, we establish a liability for the estimated loss. The assessment of the ultimate outcome of each claim or legal action and the determination of the potential financial exposure requires significant judgment. Estimates of potential liabilities for claims or legal actions are based only on information that is available at that time. As additional information becomes available, we may revise our estimates, and these revisions could have a material impact on our results of operations and financial position. Legal fees are expensed as incurred.

2. Inventories

	December 31,	
	2012	2011
Raw materials and work in process	\$ 66,221	\$ 63,216
Supplies and service parts	72,551	68,600
Finished products	68,335	71,958
Inventory at FIFO cost	207,107	203,774
Excess of FIFO cost over LIFO cost	(27,429)	(25,175)
Total inventory, net	<u>\$ 179,678</u>	<u>\$ 178,599</u>

3. Fixed Assets

	December 31,	
	2012	2011
Land	\$ 22,064	\$ 23,852
Buildings	349,061	335,625
Machinery and equipment	1,299,475	1,278,332
	1,670,600	1,637,809
Accumulated depreciation	(1,285,223)	(1,233,663)
Property, plant and equipment, net	<u>\$ 385,377</u>	<u>\$ 404,146</u>
Rental property and equipment	\$ 580,243	\$ 649,343
Accumulated depreciation	(339,051)	(390,632)
Rental property and equipment, net	<u>\$ 241,192</u>	<u>\$ 258,711</u>

Depreciation expense was \$211 million, \$214 million and \$243 million for the years ended December 31, 2012, 2011 and 2010, respectively. In 2012, we recorded asset impairment charges of \$7 million to write down the carrying value of certain assets of IMS (see Note 18). In 2011, we recorded asset impairment charges of \$13 million associated with a restructuring program (see Note 13).

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

4. Finance Assets

Finance Receivables

Finance receivables are comprised of sales-type lease receivables and unsecured revolving loan receivables. Sales-type lease receivables are generally due in monthly, quarterly or semi-annual installments over periods ranging from three to five years. Loan receivables arise primarily from financing services offered to our customers for postage and related supplies. Loan receivables are generally due each month; however, customers may rollover outstanding balances.

Finance receivables at December 31, 2012 and 2011 consisted of the following:

	December 31, 2012			December 31, 2011		
	North America	International	Total	North America	International	Total
<u>Sales-type lease receivables</u>						
Gross finance receivables	\$1,581,711	\$ 461,510	\$2,043,221	\$1,727,653	\$ 460,101	\$2,187,754

Credit Quality

The extension of credit and management of credit lines to new and existing clients uses a combination of an automated credit score, where available, and a detailed manual review of the client's financial condition and, when applicable, payment history. Once credit is granted, the payment performance of the client is managed through automated collections processes and is supplemented with direct follow up should an account become delinquent. We have robust automated collections and extensive portfolio management processes. The portfolio management processes ensure that our global strategy is executed, collection resources are allocated appropriately and enhanced tools and processes are implemented as needed.

We use a third party to score the majority of the North America portfolio on a quarterly basis using a commercial credit score. We do not use a third party to score our International portfolio because the cost to do so is prohibitive, it is a localized process and there is no single credit score model that covers all countries.

The table below shows the North America portfolio at December 31, 2012 and 2011 by relative risk class (low, medium, high) based on the relative scores of the accounts within each class. The relative scores are determined based on a number of factors, including the company type, ownership structure, payment history and financial information. A fourth class is shown for accounts that are not scored. Absence of a score is not indicative of the credit quality of the account. The degree of risk, as defined by the third party, refers to the relative risk that an account in the next 12 month period may become delinquent.

- Low risk accounts are companies with very good credit scores and are considered to approximate the top 30% of all commercial borrowers.
- Medium risk accounts are companies with average to good credit scores and are considered to approximate the middle 40% of all commercial borrowers.
- High risk accounts are companies with poor credit scores, are delinquent or are at risk of becoming delinquent and are considered to approximate the bottom 30% of all commercial borrowers.

PITNEY BOWES INC.

Troubled Debt

We maintain a program for U.S. clients in our North America loan portfolio who are experiencing financial difficulties, but are able to make reduced payments over an extended period of time. Upon acceptance into the program, the client's credit line is closed and interest accrual is suspended. There is generally no forgiveness of debt or reduction of balances owed. The balance of loans in this program, related loan loss allowance and write-offs are insignificant to the overall portfolio.

Leveraged Leases

Our investment in leveraged lease assets consisted of the following:

	December 31,	
	2012	2011
Rental receivables	\$ 83,254	\$ 810,306
Unguaranteed residual values	14,177	13,784
Principal and interest on non-recourse loans	(55,092)	(606,708)
Unearned income	(7,793)	(79,111)
Investment in leveraged leases	<u>34,546</u>	<u>138,271</u>
Less: deferred taxes related to leveraged leases	<u>(19,372)</u>	<u>(101,255)</u>
Net investment in leveraged leases	<u>\$ 15,174</u>	<u>\$ 37,016</u>

During 2012 and 2011, we sold certain non-U.S. leveraged lease assets for cash. The investment in each of the leveraged leases at the time of sale was \$109 million. The leveraged lease assets sold in 2012 resulted in after-tax gain of \$13 million and the leveraged lease assets sold in 2011 resulted in an after-tax gain of \$27 million.

Pitney Bowes Bank

The Pitney Bowes Bank (the Bank) is an indirect wholly owned subsidiary whose primary business is to provide financing solutions to clients that rent or lease postage meters. The Bank's key product offering, Purchase Power, is a revolving credit solution, which enables clients to finance their postage costs when they refill their meter. The Bank also provides a deposit solution to those clients that prefer to prepay postage and earn interest on their deposits. When a client refills their postage meter, the funds are withdrawn from the savings account to pay for the postage.

The Bank's assets consist primarily of finance receivables, short and long-term investments and cash and liabilities consist primarily of deposit accounts. At December 31, 2012, the Bank had assets of \$796 million and liabilities of \$733 million. At December 31,

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

2011, the Bank had assets of \$738 million and liabilities of \$680 million. The Bank is regulated by the Federal Deposit Insurance Corporation (FDIC) and the Utah Department of Financial Institutions.

5. Intangible Assets and Goodwill

Intangible assets

Intangible assets at December 31, 2012 and 2011 consisted of the following:

	December 31, 2012			December 31, 2011		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Customer relationships	\$ 407,901	\$ (269,100)	\$ 138,801	\$ 409,489	\$ (237,536)	\$ 171,953
Supplier relationships	29,000	(22,113)	6,887	29,000	(19,213)	9,787
Software & technology	169,632	(151,628)	18,004	170,286	(143,456)	26,830
Trademarks & trade names	35,078	(32,615)	2,463	33,908	(30,076)	3,832
Non-compete agreements	7,471	(7,412)	59	7,564	(7,363)	201
Total intangible assets	<u>\$ 649,082</u>	<u>\$ (482,868)</u>	<u>\$ 166,214</u>	<u>\$ 650,247</u>	<u>\$ (437,644)</u>	<u>\$ 212,603</u>

Amortization expense for intangible assets was \$45 million, \$58 million and \$61 million for the years ended December 31, 2012, 2011 and 2010, respectively. The future amortization expense for intangible assets as of December 31, 2012 was as follows:

Year ended December 31,

2013	\$ 37,634
2014	36,944
2015	33,763
2016	25,412
2017	11,491
Thereafter	20,970
Total	<u>\$ 166,214</u>

Actual amortization expense may differ from the amounts above due to, among other things, fluctuations in foreign currency exchange rates, impairments, future acquisitions and accelerated amortization.

Goodwill

In 2011, based on the results of our annual goodwill impairment review, management determined that the international operations of our Management Services segment (PBMSi) were impaired. The fair value of PBMSi was determined using a combination of techniques including the present value of future cash flows, derived from our long-term plans and historical experience, multiples of competitors and multiples from sales of like businesses. The inputs used to determine the fair value were classified as Level 3 in the fair value hierarchy. Based on the results of our impairment test, we recorded a goodwill impairment charge of \$84 million and an intangible asset impairment charge of \$5 million to write-down the carrying value of goodwill and intangible assets to their respective implied fair values. The intangible asset impairment charge is included in restructuring changes and asset impairments in the Consolidated Statements of Income.

PITNEY BOWES INC.

5.25% notes due 2037 ⁽³⁾	500,000	500,000
Other ⁽⁴⁾	52,375	58,909
Total debt	4,017,375	4,233,909
Current portion long-term debt	375,000	550,000
Long-term debt	\$ 3,642,375	\$ 3,683,909

Term loans at December 31, 2012 bear interest at the applicable London Interbank Offered Rate (LIBOR) plus 2.25% or Prime Rate plus 1.25%, at our option. Interest is payable and resets quarterly and the loans mature in 2015 and 2016. Term loans at December 31, 2011 were repaid during 2012.

- (1) We have interest rate swap agreements with an aggregate notional value of \$450 million that effectively convert the fixed rate interest payments on this debt issue into variable interest rates. We pay a weighted-average variable rate based on three-month LIBOR plus 305 basis points and receive a fixed rate of 4.875%. The weighted-average rate paid during 2012 and 2011 was 3.5%.
- (2) In November 2012, we issued \$110 million of 10-year notes with a coupon rate of 5.25%. Interest is paid quarterly beginning February 2013. The notes mature on November 27, 2022; however, we may redeem some or all of the notes at anytime on or after November 27, 2015 at a redemption price equal to 100% of the principal amount, plus accrued and unpaid interest. The proceeds from the notes will be used for general corporate purposes, including the repayment of 2013 debt maturities.
- (3) Under the terms of these notes, in January 2017, bondholders may redeem the notes, in whole or in part, at par plus accrued interest.
- (4) Other consists of the unamortized net proceeds received from unwinding of interest rate swaps, the mark-to-market adjustment of interest rate swaps and debt discounts and premiums.

We have a commercial paper program that is an important source of liquidity for us and a committed credit facility of \$1.0 billion to support commercial paper issuances. There were no outstanding commercial paper borrowings at December 31, 2012 or 2011. As of December 31, 2012, we had not drawn upon the credit facility. The credit facility expires in April 2016.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

The effective tax rate for 2011 includes \$90 million of tax benefits from the IRS tax settlements (see Other Matters below), a \$34 million tax benefit from the sale of non-U.S. leveraged lease assets and a \$4 million charge from the write-off of deferred tax assets associated with the expiration of out-of-the-money vested stock options and the vesting of restricted stock units previously granted to our employees. In addition, the effective tax rate for 2011 was increased due to a reduced tax benefit associated with the goodwill impairment charges.

The effective tax rate for 2010 includes \$16 million of tax benefits associated with previously unrecognized deferred taxes on outside basis differences, a \$15 million charge for the write-off of deferred tax assets associated with the expiration of out-of-the-money vested stock options and the vesting of restricted stock units previously granted to our employees and a \$9 million charge for the write-off of deferred tax assets related to the U.S. health care reform legislation that eliminated the tax deduction for retiree health care costs to the extent of federal subsidies received by companies that provide retiree prescription drug benefits equivalent to Medicare Part D coverage.

The items described in the immediately preceding paragraphs that generated significant tax rate fluctuations are not expected to recur in future periods.

On January 2, 2013, the American Taxpayer Relief Act of 2012 (the Act) was signed into law. Among others provisions, the Act retroactively extends through 2013 certain expired provisions including the research credit and controlled foreign corporation look-thru rules. As a result, we expect an immaterial decrease to our 2013 tax rate.

The items accounting for the difference between income taxes computed at the federal statutory rate and our provision for income taxes consist of the following:

	Years Ended December 31,		
	2012	2011	2010
Federal statutory provision	\$ 211,614	\$ 170,289	\$ 194,668
State and local income taxes	1,694	16,327	14,729
Impact of non-U.S. leveraged lease asset sales	(30,367)	(31,423)	—
Other impact of foreign operations	22,699	16,388	13,556
Tax exempt income/reimbursement	(1,992)	(2,674)	(2,352)
Federal income tax credits/incentives	(8,918)	(10,741)	(7,580)
Unrealized stock compensation benefits	3,456	3,538	15,149
Resolution of U.S. tax examinations	(47,380)	(94,225)	(8,230)
U.S. health care reform tax change	—	—	9,070
Outside basis differences	—	—	(15,798)
Other, net	(501)	131	386
Provision for income taxes	<u>\$ 150,305</u>	<u>\$ 67,610</u>	<u>\$ 213,598</u>

Other impacts of foreign operations include income of foreign affiliates taxed at rates other than the 35% U.S. statutory rate, the accrual or release of tax uncertainty amounts related to foreign operations, the tax impacts of foreign earnings repatriation and the U.S. foreign tax credit impacts of other foreign income taxed in the U.S.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

Deferred tax liabilities and assets consisted of the following:

	December 31,	
	2012	2011
Deferred tax liabilities:		
Depreciation	\$ (65,205)	\$ (69,092)
Deferred profit (for tax purposes) on sale to finance subsidiary	(157,279)	(157,397)
Lease revenue and related depreciation	(306,612)	(422,541)
Amortizable intangibles	(104,156)	(99,980)
Other	(35,157)	(49,044)
Deferred tax liabilities	<u>(668,409)</u>	<u>(798,054)</u>
Deferred tax assets:		
Nonpension postretirement benefits	119,002	198,379
Pension	117,509	40,956
Inventory and equipment capitalization	26,778	24,806
Restructuring charges	20,793	8,185
Long-term incentives	35,056	37,019
Net operating loss and tax credit carry forwards	194,134	180,281
Tax uncertainties gross-up	28,492	46,773
Other	89,406	99,996
Valuation allowance	(142,176)	(111,438)
Deferred tax assets	<u>488,994</u>	<u>524,957</u>
Total deferred taxes, net	<u>\$ (179,415)</u>	<u>\$ (273,097)</u>

The above amounts are classified as current or long-term in the Consolidated Balance Sheets in accordance with the asset or liability to which they related or based on the expected timing of the reversal. A valuation allowance was recognized to reduce the total deferred tax assets to an amount that will more-likely-than-not be realized. The valuation allowance relates primarily to certain foreign, state and local net operating loss and tax credit carryforwards that are more likely than not to expire unutilized.

We have net operating loss carry forwards of \$339 million as of December 31, 2012. Most of these losses can be carried forward indefinitely.

As of December 31, 2012 we have not provided for income taxes on \$750 million of cumulative undistributed earnings of subsidiaries outside the U.S. as these earnings will be either indefinitely reinvested or remitted substantially free of additional tax; however, we estimate that withholding taxes on such remittances would be approximately \$10 million. Determination of the liability that would be incurred if these earnings were remitted to the U.S. is not practicable as there is a significant amount of uncertainty with respect to determining the amount of foreign tax credits and other indirect tax consequences that may arise from the distribution of these earnings.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

Uncertain Tax Positions

A reconciliation of the amount of unrecognized tax benefits is as follows:

	2012	2011	2010
Balance at beginning of year	\$ 198,635	\$ 531,790	\$ 515,565
Increases from prior period positions	11,811	67,065	17,775
Decreases from prior period positions	(17,985)	(140,107)	(27,669)
Increases from current period positions	28,255	28,686	43,804
Decreases from current period positions	—	—	(8,689)
Decreases relating to settlements with tax authorities	(1,948)	(18,204)	(1,434)
Reductions from lapse of applicable statute of limitations	(71,863)	(270,595)	(7,562)
Balance at end of year	<u>\$ 146,905</u>	<u>\$ 198,635</u>	<u>\$ 531,790</u>

The amount of the unrecognized tax benefits at December 31, 2012, 2011 and 2010 that would affect the effective tax rate if recognized was \$127 million, \$160 million and \$249 million, respectively.

On a regular basis, we conclude tax return examinations, statutes of limitations expire, and court decisions interpret tax law. We regularly assess tax uncertainties in light of these developments. As a result, it is reasonably possible that the amount of our unrecognized tax benefits will decrease in the next 12 months, and we expect this change could be up to 10% of our unrecognized tax benefits. We recognize interest and penalties related to uncertain tax positions in our provision for income taxes or discontinued operations as appropriate. During the years ended December 31, 2012, 2011 and 2010, we recorded interest and penalties of \$(28) million, \$(83) million and \$15 million, respectively, primarily in discontinued operations. We had \$11 million and \$67 million accrued for the payment of interest and penalties at December 31, 2012 and 2011, respectively.

Other Tax Matters

As is the case with other large corporations, our tax returns are examined each year by tax authorities in the U.S., other countries and local jurisdictions in which we have operations. Except for issues arising out of certain partnership investments, the IRS examinations of tax years prior to 2009 are closed to audit. Other than the pending application of legal principles to specific issues arising in earlier years, only post-2007 Canadian tax years are subject to examination. Other significant tax filings subject to examination include various post-2004 U.S. state and local, post-2007 German, and post-2008 French and U.K. tax filings. We have other less significant tax filings currently under examination or subject to examination.

We regularly assess the likelihood of tax adjustments in each of the tax jurisdictions in which we have operations and account for the related financial statement implications. We believe we have established tax reserves that are appropriate given the possibility of tax adjustments. However, determining the appropriate level of tax reserves requires judgment regarding the uncertain application of tax law and the possibility of tax adjustments. Future changes in tax reserve requirements could have a material impact, positive or negative, on our results of operations, financial position and cash flows.

On August 27, 2012, the Third Circuit Court of Appeals overturned a prior Tax Court decision and ruled in favor of the IRS and adverse to the Historic Boardwalk Hall LLC, a partnership in which we had made an investment in the year 2000. The decision has been appealed and, therefore, the judgment is not yet final. Based on our partnership contractual relationship, we do not expect this matter to have a material effect on our results of operations.

9. Noncontrolling Interests (Preferred Stockholders' Equity in Subsidiaries)

Pitney Bowes International Holdings, Inc. (PBIH), a subsidiary, has 300,000 shares, or \$300 million, of outstanding perpetual voting preferred stock (the Preferred Stock) held by certain institutional investors. The holders of the Preferred Stock are entitled as a group to 25% of the combined voting power of all classes of capital stock of PBIH. All outstanding common stock of PBIH, representing the remaining 75% of the combined voting power of all classes of capital stock, is owned directly or indirectly by the company. The Preferred Stock is entitled to cumulative dividends at a rate of 6.125% through 2016 after which it becomes callable and, if it remains outstanding, will yield a dividend that increases by 50% every six months thereafter. No dividends were in arrears at December 31, 2012 or December 31, 2011. There was no change in the carrying value of noncontrolling interests during the years ended December 31, 2012 or 2011.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

10. Stockholders' Equity

Preferred Stock

We have two classes of Preferred Stock issued and outstanding: the 4% Preferred Stock and the \$2.12 Preference Stock. The 4% Preferred Stock is entitled to cumulative dividends of \$2 per year and can be converted into 24.24 shares of common stock, subject to adjustment in certain events. The preferred stock is redeemable at our option at a price of \$50 per share, plus dividends accrued through the redemption date. We are authorized to issue 600,000 shares of 4% Preferred Stock. At December 31, 2012 and 2011, there were 85 shares outstanding. There are no unpaid dividends in arrears.

The \$2.12 Preference Stock is entitled to cumulative dividends of \$2.12 per year and can be converted into 16.53 shares of common stock, subject to adjustment in certain events. The preference stock is redeemable at our option at a price of \$28 per share. We are authorized to issue 5,000,000 shares of \$2.12 Preference Stock. At December 31, 2012 and 2011, there were 23,928 shares and 24,336 shares outstanding, respectively. There are no unpaid dividends in arrears.

Common Stock

We have 480,000,000 shares of common stock authorized and 323,337,912 shares were issued at December 31, 2012 and 2011. At December 31, 2012, 38,428,301 shares were reserved for issuance under our stock plans and dividend reinvestment program, 2,060 shares were reserved for issuance upon conversion of the 4% Preferred Stock and 395,530 shares were reserved for issuance upon conversion of the \$2.12 Preference Stock. The following table summarizes the changes in Common Stock and Treasury Stock:

	<u>Treasury</u>	<u>Outstanding</u>
Balance at December 31, 2009	116,140,084	207,197,828
Repurchases of common stock	4,687,304	(4,687,304)
Issuance of common stock	(876,794)	876,794
Conversions to common stock	(43,684)	43,684
Balance at December 31, 2010	119,906,910	203,431,002
Repurchases of common stock	4,692,200	(4,692,200)
Issuance of common stock	(963,448)	963,448
Conversions to common stock	(48,820)	48,820
Balance at December 31, 2011	123,586,842	199,751,070
Issuance of common stock	(1,118,089)	1,118,089
Conversions to common stock	(14,888)	14,888
Balance at December 31, 2012	<u>122,453,865</u>	<u>200,884,047</u>

Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss consisted of the following:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
Foreign currency translation adjustments	\$ 81,250	\$ 83,952	\$ 137,521
Net unrealized loss on derivatives	(7,777)	(8,438)	(10,445)
Net unrealized gain on investment securities	4,513	4,387	1,439
Net unamortized loss on pension and postretirement plans	(759,199)	(741,546)	(602,321)
Accumulated other comprehensive loss	<u>\$ (681,213)</u>	<u>\$ (661,645)</u>	<u>\$ (473,806)</u>

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

11. Stock-Based Compensation

The following table shows stock-based compensation expense as included in the Consolidated Statements of Income:

	Years Ended December 31,		
	2012	2011	2010
Cost of equipment sales	\$ 1,212	\$ 1,292	\$ 1,397
Cost of support services	522	557	602
Cost of business services	721	770	831
Selling, general and administrative	15,176	15,689	16,936
Research and development	596	640	686
Stock-based compensation expense	18,227	18,948	20,452
Income tax	(6,061)	(6,170)	(7,265)
Stock-based compensation expense, net of tax	<u>\$ 12,166</u>	<u>\$ 12,778</u>	<u>\$ 13,187</u>

Stock Plans

We have a long-term incentive program whereby eligible employees may be granted restricted stock units, market stock units, non-qualified stock options, other stock-based awards, cash or any combination thereof. The Executive Compensation Committee of the Board of Directors administers these plans. We settle employee stock compensation awards with treasury shares. At December 31, 2012, there were 16,644,439 shares available for future grants under our long-term incentive program.

Restricted Stock Units

Restricted stock units are granted to employees and entitle the holder to shares of common stock as the units vest, typically over a four year service period. The fair value of the units is determined on the grant date based on our stock price at that date less the present value of expected dividends. The following table summarizes information about restricted stock units during 2012 and 2011:

	2012		2011	
	Shares	Weighted average grant date fair value	Shares	Weighted average grant date fair value
Restricted stock units outstanding at beginning of year	1,629,055	\$ 22.33	1,637,242	\$ 25.55
Granted	999,381	14.72	662,049	22.44
Vested	(598,543)	22.27	(543,688)	26.89
Forfeited	(120,733)	18.75	(126,548)	23.12
Restricted stock units outstanding at end of year	<u>1,909,160</u>	<u>\$ 17.68</u>	<u>1,629,055</u>	<u>\$ 22.33</u>

At December 31, 2012, there was \$15 million of unrecognized compensation cost related to restricted stock units that is expected to be recognized over a weighted-average period of 2.2 years. The intrinsic value of restricted stock units outstanding at December 31, 2012 was \$20 million. The intrinsic value of restricted stock units vested during 2012, 2011 and 2010 was \$11 million, \$13 million and \$9 million, respectively.

Market Stock Units

In 2012, we issued market stock units to key executives and other eligible employees. Each market stock unit award reflects a base number of shares (Base Shares) that the recipient may receive before adjusting for performance and market conditions. The actual number of shares the recipient receives is determined at the end of a three-year performance period based on the company's attainment of a specified income target and a market condition based on total shareholder return of our common stock (including dividends) over a three-year period, and may range from 50% to 200% of the Base Shares granted. The expense for these awards, net of estimated forfeitures, is recorded over the performance period based on the fair value of the award, determined on the grant date using a Monte Carlo simulation model.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

The following table summarizes information about market stock units during 2012:

	Shares	Weighted average grant date fair value
Market stock units outstanding at January 1, 2012	—	\$ —
Granted	205,013	17.91
Forfeited	(6,868)	17.91
Market stock units outstanding at December 31, 2012	<u>198,145</u>	<u>\$ 17.91</u>

The fair value of market stock units was determined based on the following assumptions:

	Year Ended December 31, 2012
Expected dividend yield	6.7%
Expected stock price volatility	29.7%
Risk-free interest rate	0.4%

At December 31, 2012, there was \$1 million of unrecognized compensation cost related to market stock units that is expected to be recognized over a weighted-average period of 1.6 years.

Stock Options

Under our stock option plan, certain officers and employees are granted options at prices equal to the market value of our common shares at the date of grant. Options vest ratably over three or four years and expire ten years from the date of grant.

The following table summarizes information about stock option activity during 2012 and 2011:

	2012		2011	
	Shares	Per share weighted average exercise prices	Shares	Per share weighted average exercise prices
Options outstanding at beginning of the year	14,471,464	\$ 36.42	14,506,522	\$ 37.38
Granted	600,000	15.71	1,312,910	26.07
Exercised	—	—	(55,484)	25.15
Canceled	(525,361)	36.15	(1,266,537)	37.61
Forfeited	(892,858)	40.20	(25,947)	27.27
Options outstanding at the end of the year	<u>13,653,245</u>	<u>\$ 35.28</u>	<u>14,471,464</u>	<u>\$ 36.42</u>
Options exercisable at the end of the year	<u>11,762,341</u>	<u>\$ 37.44</u>	<u>11,478,630</u>	<u>\$ 39.13</u>

At December 31, 2012, there was \$1 million of unrecognized compensation cost related to stock options that is expected to be recognized over a weighted-average period of 1.7 years. The options outstanding and exercisable at December 31, 2012 had no intrinsic value. There were no options exercised in 2012 or 2010 and the intrinsic value of options exercised in 2011 was less than \$1 million.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

The following table summarizes information about stock options outstanding and exercisable at December 31, 2012:

Range of per share exercise prices	Options Outstanding			Options Exercisable		
	Shares	Per share weighted-average exercise price	Weighted-average remaining contractual life	Shares	Per share weighted-average exercise price	Weighted-average remaining contractual life
\$13.39 - \$22.99	1,959,735	\$ 20.14	8.0 years	906,744	\$ 22.09	7.1 years
\$23.00 - \$30.99	2,471,949	25.42	7.1 years	1,634,036	25.09	6.6 years
\$31.00 - \$38.99	2,962,324	34.73	2.8 years	2,962,324	34.73	2.8 years
\$39.00 - \$48.03	6,259,237	44.17	2.4 years	6,259,237	44.17	2.4 years
	<u>13,653,245</u>	<u>\$ 35.28</u>	<u>4.2 years</u>	<u>11,762,341</u>	<u>\$ 37.44</u>	<u>3.5 years</u>

We estimate the fair value of stock options using a Black-Scholes valuation model. Key input assumptions used to estimate the fair value of stock options include the volatility of our stock price, a risk-free interest rate, the expected dividend yield of our stock and expected life of the award. Expected stock price volatility is based on historical price changes of our stock. The risk-free interest rate is based on U.S. treasuries with a term equal to the expected option term. The expected life of the award and expected dividend yield are based on historical experience. The fair value of stock options granted during the year was determined using the following assumptions:

	Years Ended December 31,		
	2012	2011	2010
Expected dividend yield	9.3%	6.1%	6.1%
Expected stock price volatility	30.0%	26.1%	25.6%
Risk-free interest rate	1.2%	3.3%	3.2%
Expected life	7.9 years	7.4 years	7.3 years
Weighted-average fair value per option granted	\$0.48	\$3.45	\$2.82

Employee Stock Purchase Plan

We maintain a non-compensatory Employee Stock Purchase Plan that enables substantially all U.S. and Canadian employees to purchase shares of our common stock at an offering price of 95% of the average market price on the offering date. At no time will the exercise price be less than the lowest price permitted under Section 423 of the Internal Revenue Code. Employees purchased 291,859 shares and 258,667 shares in 2012 and 2011, respectively. We have reserved 4,816,935 common shares for future purchase under the ESPP.

Directors' Stock Plan

Each non-employee director is granted shares of restricted stock on an annual basis. In 2012 and 2011, we granted 26,653 shares and 22,000 shares to non-employee directors, respectively.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

12. Fair Value Measurements and Derivative Instruments

We measure certain financial assets and liabilities at fair value on a recurring basis. Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. An entity is required to classify certain assets and liabilities measured at fair value based on the following fair value hierarchy that prioritizes the inputs used to measure fair value:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2 – Quoted prices for identical assets and liabilities in markets that are not active, quoted prices for similar assets and liabilities in active markets or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity, may be derived from internally developed methodologies based on management's best estimate of fair value and that are significant to the fair value of the asset or liability.

The following tables show, by level within the fair value hierarchy, our financial assets and liabilities that are accounted for at fair value on a recurring basis at December 31, 2012 and 2011. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement requires judgment and may affect their placement within the fair value hierarchy.

Investment Securities

The valuation of investment securities is based on the market approach using inputs that are observable, or can be corroborated by observable data, in an active marketplace. The following information relates to our classification into the fair value hierarchy:

- *Money Market Funds / Commercial Paper:* Money market funds typically invest in government securities, certificates of deposit, commercial paper and other highly liquid, low-risk securities. Money market funds are principally used for overnight deposits and are classified as Level 1 when unadjusted quoted prices in active markets are available and as Level 2 when they are not actively traded on an exchange. Direct investments in commercial paper are not listed on an exchange in an active market and are classified as Level 2.
- *Equity Securities:* Equity securities are comprised of mutual funds investing in U.S. and foreign common stock. These mutual funds are classified as Level 2 as they are not separately listed on an exchange.
- *Commingled Fixed Income Securities:* Mutual funds that invest in a variety of fixed income securities including securities of the U.S. government and its agencies, corporate debt, mortgage-backed securities and asset-backed securities. The value of the funds is based on the market value of the underlying investments owned by each fund, minus its liabilities, divided by the number of shares outstanding, as reported by the fund manager. These commingled funds are not listed on an exchange in an active market and are classified as Level 2.
- *Debt Securities – U.S. and Foreign Governments, Agencies and Municipalities:* Debt securities are classified as Level 1 where active, high volume trades for identical securities exist. Valuation adjustments are not applied to these securities. Debt securities valued using quoted market prices for similar securities or benchmarking model derived prices to quoted market prices and trade data for identical or comparable securities are classified as Level 2.
- *Debt Securities – Corporate:* Corporate debt securities are valued using recently executed transactions, market price quotations where observable, or bond spreads. The spread data used are for the same maturity as the security. These securities are classified as Level 2.
- *Mortgage-Backed Securities (MBS) / Asset-Backed Securities (ABS):* These securities are valued based on external pricing indices. When external index pricing is not observable, MBS and ABS are valued based on external price/spread data. These securities are classified as Level 2.

Investment securities include investments held by the Bank. The Bank's investment securities are classified as available-for-sale and recorded at fair value on the Consolidated Balance Sheets as cash and cash equivalents, short-term investments and other assets depending on the type of investment and maturity. Unrealized holding gains and losses are recorded, net of tax, in accumulated other comprehensive income.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

At December 31, 2012 and 2011, available-for-sale securities consisted of the following:

	December 31, 2012			
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Estimated fair value
Money market funds / commercial paper	\$ 44,611	\$ 53	\$ —	\$ 44,664
U.S. and foreign governments, agencies and municipalities	127,807	3,972	(56)	131,723
Corporate	41,095	2,851	(20)	43,926
Mortgage-back / asset-back securities	162,180	3,340	(3,145)	162,375
Total	\$ 375,693	\$ 10,216	\$ (3,221)	\$ 382,688

	December 31, 2011			
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Estimated fair value
Money market funds / commercial paper	\$ 25,253	\$ 43	\$ —	\$ 25,296
U.S. and foreign governments, agencies and municipalities	93,995	4,264	(8)	98,251
Corporate	31,114	935	(582)	31,467
Mortgage-back / asset-back securities	131,982	3,303	(1,023)	134,262
Total	\$ 282,344	\$ 8,545	\$ (1,613)	\$ 289,276

At December 31, 2012, the amortized cost and estimated fair value of investment securities have scheduled maturities as follows:

	Amortized cost	Estimated fair value
Within 1 year	\$ 86,867	\$ 87,014
After 1 year through 5 years	56,732	58,117
After 5 years through 10 years	65,019	65,869
After 10 years	167,075	171,688
Total	\$ 375,693	\$ 382,688

We have not experienced any write-offs in our investment portfolio. The majority of our MBS are either guaranteed or supported by the U.S. government. We have no investments in inactive markets that would warrant a possible change in our pricing methods or classification within the fair value hierarchy. Further, we have no investments in auction rate securities.

Derivative Instruments

In the normal course of business, we are exposed to the impact of interest rate changes and foreign currency fluctuations. We limit these risks by following established risk management policies and procedures, including the use of derivatives. We use derivatives to manage the related cost of debt and to limit the effects of foreign exchange rate fluctuations on financial results. We do not use derivatives for trading or speculative purposes. We record our derivative instruments at fair value. The accounting for changes in the fair value of the derivatives depends on the intended use of the derivative, the resulting designation and the effectiveness of the instrument in offsetting the risk exposure it is designed to hedge.

As required by the fair value measurements guidance, we have incorporated counterparty credit risk and our credit risk into the fair value measurement of our derivative assets and liabilities, respectively. We derive credit risk from observable data related to credit default swaps. We have not seen a material change in the creditworthiness of those banks acting as derivative counterparties.

The valuation of our interest rate swaps is based on the income approach using a model with inputs that are observable or that can be derived from or corroborated by observable market data. The valuation of our foreign exchange derivatives is based on the market approach using observable market inputs, such as forward rates.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

The fair value of our derivative instruments at December 31, 2012 and 2011 was as follows:

Designation of Derivatives	Balance Sheet Location	December 31,	
		2012	2011
Derivatives designated as hedging instruments	Other current assets and prepayments:		
	Foreign exchange contracts	\$ 78	\$ 780
	Other assets:		
	Interest rate swaps	10,117	15,465
	Accounts payable and accrued liabilities:		
	Foreign exchange contracts	(320)	(79)
Derivatives not designated as hedging instruments	Other current assets and prepayments:		
	Foreign exchange contracts	2,504	3,450
	Accounts payable and accrued liabilities:		
	Foreign exchange contracts	(854)	(1,360)
	Total derivative assets	12,699	19,695
	Total derivative liabilities	(1,174)	(1,439)
	Total net derivative assets	\$ 11,525	\$ 18,256

Interest Rate Swaps

Derivatives designated as fair value hedges include interest rate swaps related to fixed rate debt. Changes in the fair value of both the derivative and item being hedged are recognized in earnings. The following represents the results of fair value hedging relationships for the years ended December 31, 2012 and 2011:

Derivative Instrument	Location of Gain (Loss)	Year Ended December 31,			
		Derivative Gain Recognized in Earnings		Hedged Item Expense Recognized in Earnings	
		2012	2011	2012	2011
Interest rate swaps	Interest expense	\$ 9,994	\$ 11,583	\$ (31,137)	\$ (33,125)

Foreign Exchange Contracts

We enter into foreign currency exchange contracts to mitigate the currency risk associated with the anticipated purchase of inventory between affiliates and from third parties. These contracts are designated as cash flow hedges. The effective portion of the gain or loss on cash flow hedges is included in accumulated other comprehensive income (AOCI) in the period that the change in fair value occurs and is reclassified to earnings in the period that the hedged item is recorded in earnings. At December 31, 2012 and 2011, we had outstanding contracts associated with these anticipated transactions with a notional amount of \$25 million and \$19 million, respectively. These contracts had a net liability value of less than \$1 million at December 31, 2012 and a net asset value of \$1 million at December 31, 2011.

The amounts included in AOCI at December 31, 2012 will be recognized in earnings within the next 12 months. No amount of ineffectiveness was recorded in earnings for these designated cash flow hedges.

The following represents the results of cash flow hedging relationships for the years ended December 31, 2012 and 2011:

Derivative Instrument	Year Ended December 31,				
	Derivative Gain (Loss) Recognized in AOCI (Effective Portion)		Location of Gain (Loss) (Effective Portion)	Gain (Loss) Reclassified from AOCI to Earnings (Effective Portion)	
	2012	2011		2012	2011
Foreign exchange contracts	\$ (2,055)	\$ 2,141	Revenue	\$ 1,298	\$ (166)
			Cost of sales	(185)	(719)
				\$ 1,113	\$ (885)

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

We also enter into foreign exchange contracts to minimize the impact of exchange rate fluctuations on short-term intercompany loans and related interest that are denominated in a foreign currency. The revaluation of the intercompany loans and interest and the mark-to-market adjustment on the derivatives are both recorded in earnings. Outstanding foreign exchange contracts to buy or sell various currencies had a net asset value of \$2 million at December 31, 2012 and December 31, 2011. All outstanding contracts at December 31, 2012 mature within one year.

The following represents the results of our non-designated derivative instruments for the years ended December 31, 2012 and 2011:

Derivatives Instrument	Location of Derivative Gain (Loss)	Year Ended December 31,	
		Derivative Gain (Loss) Recognized in Earnings	
		2012	2011
Foreign exchange contracts	Selling, general and administrative expense	\$ (4,254)	\$ (17,214)

Credit-Risk-Related Contingent Features

Certain derivative instruments contain credit-risk-related contingent features that would require us to post collateral based on a combination of our long-term senior unsecured debt ratings and the net fair value of our derivatives. At December 31, 2012, we were not required to post any collateral.

Fair Value of Financial Instruments

Our financial instruments include cash and cash equivalents, investment securities, accounts receivable, loan receivables, derivative instruments, accounts payable and debt. The carrying value for cash and cash equivalents, accounts receivable, loans receivable, and accounts payable approximate fair value because of the short maturity of these instruments.

The fair value of our debt is estimated based on recently executed transactions and market price quotations. The inputs used to determine the fair value of our debt were classified as Level 2 in the fair value hierarchy. The carrying value and estimated fair value of our debt at December 31, 2012 and 2011 was as follows:

	December 31,	
	2012	2011
Carrying value	\$ 4,017,375	\$ 4,233,909
Fair value	\$ 4,200,970	\$ 4,364,176

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

13. Restructuring Charges and Asset Impairments

Activity in our restructuring reserves for the years ended December 31, 2012, 2011 and 2010 was as follows:

	Severance and benefits costs	Pension and Retiree Medical	Asset impairments	Other exit costs	Total
Balance at December 31, 2009	\$ 73,792	\$ —	\$ —	\$ 14,834	\$ 88,626
Expenses, net	114,873	23,620	9,799	38,163	186,455
Gain on sale of facility	—	—	(8,897)	—	(8,897)
Cash payments	(87,026)	—	8,897	(41,436)	(119,565)
Non-cash charges	—	(23,620)	(9,799)	—	(33,419)
Balance at December 31, 2010	101,639	—	—	11,561	113,200
Expenses, net	101,043	8,178	13,528	12,471	135,220
Gain on sale of facility	—	—	(601)	—	(601)
Cash payments	(97,646)	—	601	(9,957)	(107,002)
Non-cash charges	—	(8,178)	(13,528)	—	(21,706)
Balance at December 31, 2011	105,036	—	—	14,075	119,111
Expenses, net	24,992	—	—	(1,627)	23,365
Cash payments	(67,488)	—	—	(7,230)	(74,718)
Non-cash charges	—	—	—	—	—
Balance at December 31, 2012	\$ 62,540	\$ —	\$ —	\$ 5,218	\$ 67,758

During 2012, we took actions to further streamline our business operations and reduce our cost structure. These actions consisted primarily of workforce reductions and resulted in a pre-tax restructuring charge of \$38 million. We anticipate that these actions will result in annualized benefits of \$45 million to \$55 million. Restructuring charges are net of reversals of \$15 million for changes in estimated reserves for prior period programs. Total restructuring reserves at December 31, 2012 are expected to be paid over the next 12-24 months. We expect to fund these payments from cash flows from operations.

Restructuring charges in 2011 and 2010 represent charges taken in connection with a series of strategic transformation initiatives announced in 2009. These initiatives were designed to transform and enhance the way we operate as a global company, enhance our responsiveness to changing market conditions and create improved processes and systems and were implemented over a three year period through 2011.

Restructuring charges and asset impairments on the Consolidated Statements of Income also includes asset impairment charges unrelated to restructuring programs, which are not included in the table above and excludes restructuring charges related to discontinued operations, which are included in the table above. Asset impairment charges unrelated to restructuring programs were \$5 million in both 2011 and 2010.

14. Commitments and Contingencies

In the ordinary course of business, we are routinely defendants in, or party to, a number of pending and threatened legal actions. These may involve litigation by or against us relating to, among other things, contractual rights under vendor, insurance or other contracts; intellectual property or patent rights; equipment, service, payment or other disputes with clients; or disputes with employees. Some of these actions may be brought as a purported class action on behalf of a purported class of employees, clients or others.

In October 2009, the company and certain of its current and former officers were named as defendants in NECA-IBEW Health & Welfare Fund v. Pitney Bowes Inc. et al., a class action lawsuit filed in the U.S. District Court for the District of Connecticut. The complaint asserts claims under the Securities Exchange Act of 1934 on behalf of those who purchased the common stock of the company during the period between July 30, 2007 and October 29, 2007 alleging that the company, in essence, missed two financial projections. Plaintiffs filed an amended complaint in September 2010. After briefing on the motion to dismiss was completed, the plaintiffs filed a new amended complaint on February 17, 2012. We have moved to dismiss this new amended complaint. We expect to prevail in this legal action; however, as litigation is inherently unpredictable, there can be no assurance in this regard. If the plaintiffs do prevail, the results may have a material effect on our financial position, results of operations or cash flows. Based upon our current understanding of the facts and applicable laws, we do not believe there is a reasonable possibility that any loss has been incurred.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

15. Leases

We lease office facilities, sales and service offices, equipment and other properties under operating lease agreements extending from three to eight years. Certain leases require us to pay property taxes, insurance and routine maintenance and include renewal options and escalation clauses. Rental expense was \$100 million, \$117 million and \$118 million in 2012, 2011 and 2010, respectively. Future minimum lease payments under non-cancelable operating leases at December 31, 2012 were as follows:

Years ending December 31,	
2013	\$ 90,936
2014	69,945
2015	49,835
2016	32,355
2017	18,647
Thereafter	22,360
Total minimum lease payments	<u>\$ 284,078</u>

16. Segment Information

We conduct our business activities in seven reporting segments within two business groups, Small & Medium Business Solutions and Enterprise Business Solutions. The principal products and services of each of our reporting segments are as follows:

Small & Medium Business Solutions:

North America Mailing: Includes the U.S. and Canadian revenue and related expenses from the sale, rental and financing of our mail finishing, mail creation, shipping equipment and software; supplies; support and other professional services; and payment solutions.

International Mailing: Includes the revenue and related expenses from the sale, rental and financing of our mail finishing, mail creation, shipping equipment and software; supplies; support and other professional services; and payment solutions outside North America.

Enterprise Business Solutions:

Production Mail: Includes the worldwide revenue and related expenses from the sale, support and other professional services of our high-speed, production mail systems, sorting and production print equipment and related software.

Software: Includes the worldwide revenue and related expenses from the sale and support services of non-equipment-based mailing, client relationship and communication and location intelligence software.

Management Services: Includes worldwide revenue and related expenses from facilities management services; secure mail services; reprographic, document management services; print outsourcing services; and litigation support and eDiscovery services.

Mail Services: Includes worldwide revenue and related expenses from presort mail services and cross-border ecommerce solutions.

Marketing Services: Includes revenue and related expenses from direct marketing services for targeted clients.

Segment earnings before interest and taxes (EBIT), a non-GAAP measure, is determined by deducting from segment revenue the related costs and expenses attributable to the segment. Segment EBIT excludes interest, taxes, general corporate expenses not allocated to a particular business segment, restructuring charges, asset impairments and goodwill charges which are recognized on a consolidated basis. Management uses segment EBIT to measure profitability and performance at the segment level. Segment EBIT may not be indicative of our overall consolidated performance and therefore, should be read in conjunction with our consolidated results of operations. Segment information for our Mail Services segment for all periods presented has been restated to reflect the presentation of the IMS business as a discontinued operation.

17. Retirement Plans and Postretirement Medical Benefits

We have several defined benefit retirement plans. Benefits are primarily based on employees' compensation and years of service. Our contributions are determined based on the funding requirements of U.S. federal and other governmental laws and regulations. We use a measurement date of December 31 for all of our retirement plans. U.S. employees hired after January 1, 2005, Canadian employees hired after April 1, 2005 and U.K. employees hired after July 1, 2005 are not eligible for our defined benefit retirement plans. Benefit accruals for all participants in our U.K. pension plans will be frozen effective June 30, 2013. Benefit accruals for participants with 16 or more years of service as of March 31, 2013 in our two largest U.S. pension plans and all participants in our Canadian pension plans, will be frozen effective December 31, 2014.

In January 2013, the Board of Directors approved a plan to freeze benefit accruals under our two largest U.S. pension plans for certain participants on March 31, 2013. The freeze is effective for those participants with less than 16 years of service as of March 31, 2013. We are in the process of re-measuring the assets and liabilities of these plans, but currently estimate that annual pension costs for 2013 will be \$10-\$15 million lower than 2012 pension costs.

The benefit obligations and funded status of defined benefit pension plans are as follows:

	United States		Foreign	
	2012	2011	2012	2011
Accumulated benefit obligation	\$ 1,802,811	\$ 1,684,050	\$ 648,439	\$ 543,599
Projected benefit obligation				
Benefit obligation at beginning of year	\$ 1,707,390	\$ 1,632,286	\$ 581,904	\$ 541,241
Service cost	18,939	19,450	7,763	7,310

<u>Used to determine benefit obligations</u>			
Discount rate	1.95% - 4.65%	1.80% - 6.10%	2.25% - 5.50%
Rate of compensation increase	1.50% - 3.50%	2.10% - 4.60%	2.50% - 5.50%
<u>Used to determine net periodic benefit cost</u>			
Discount rate	1.80% - 6.10%	2.00% - 5.50%	2.25% - 6.00%
Expected return on plan assets	3.25% - 7.50%	4.00% - 7.75%	4.50% - 7.75%
Rate of compensation increase	2.10% - 4.60%	2.10% - 5.50%	2.50% - 5.60%

A discount rate is used to determine the present value of our future benefit obligations. The discount rate for our U.S. pension and postretirement medical benefit plans is determined by matching the expected cash flows associated with our benefit obligations to a yield curve based on long-term, high-quality fixed income debt instruments available as of the measurement date. For the U.K. retirement benefit plan, our largest foreign plan, the discount rate is determined by discounting each year's estimated benefit payments by an applicable spot rate, derived from a yield curve created from a large number of high-quality corporate bonds. For our other smaller foreign pension plans, the discount rate is selected based on high-quality fixed income indices available in the country in which the plan is domiciled.

The expected return on plan assets is based on historical and expected rates of return for current and planned asset classes in the plans' investment portfolio after analyzing historical experience and future expectations of the returns and volatility of the various asset classes. The overall expected rate of return for the portfolio is based on the asset allocation at the end of the year for our U.S. pension plans and the target asset allocation for our international pension plans, adjusted for historical and expected experience of active portfolio management results, when compared to the benchmark returns. When assessing the expected future returns for the portfolio, management places more emphasis on the expected future returns than historical returns.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

Investment Strategy and Asset Allocation - U.S. Pension Plans

The investment strategy of our U.S. pension plans is to maximize returns within reasonable and prudent levels of risk, to achieve and maintain full funding of the accumulated benefit obligation and the actuarial liabilities and to earn a nominal rate of return of at least 7.25%. The fund has established a strategic asset allocation policy to achieve these objectives. Investments are diversified across asset classes and within each class to reduce the risk of large losses and are periodically rebalanced. Derivatives, such as swaps, options, forwards and futures contracts may be used for market exposure, to alter risk/return characteristics and to manage foreign currency exposure. Investments within the private equity and real estate portfolios are comprised of limited partnership units in primary and secondary fund of funds and units in open-ended commingled real estate funds, respectively. These types of investment vehicles are used in an effort to gain greater asset diversification. We do not have any significant concentrations of credit risk within the plan assets. The pension plans' liabilities, investment objectives and investment managers are reviewed periodically.

The target asset allocation for 2013 and the actual asset allocations at December 31, 2012 and 2011, for the U.S. pension plans are as follows:

Asset category	Target allocation	Percent of Plan Assets at December 31,	
	2013	2012	2011
U.S. equities	14%	14%	18%
Non-U.S. equities	14%	15%	16%
Fixed income	62%	61%	56%
Real estate	2%	4%	4%
Private equity	8%	6%	6%
Total	100%	100%	100%

The target asset allocation used to manage the investment portfolio is based on the broad asset categories shown above. The plan asset categories presented in the fair value hierarchy are subsets of the broad asset categories.

Investment Strategy and Asset Allocation - Foreign Pension Plans

Our foreign pension plan assets are managed by outside investment managers and monitored regularly by local trustees and our corporate personnel. The investment strategies adopted by our foreign plans vary by country and plan, with each strategy tailored to achieve the expected rate of return within an acceptable or appropriate level of risk, depending upon the liability profile of plan participants, local funding requirements, investment markets and restrictions. The U.K. plan represents 73% of the non-U.S. pension assets. The U.K. pension plan's investment strategy is to maximize returns within reasonable and prudent levels of risk, to achieve and maintain full funding of the accumulated benefit obligation and the actuarial liabilities and to earn a nominal rate of return of at least 7.25%. The fund has established a strategic asset allocation policy to achieve these objectives. Investments are diversified across asset classes and within each class to minimize the risk of large losses and are periodically rebalanced. Derivatives, such as swaps, options, forwards and futures contracts may be used for market exposure, to alter risk/return characteristics and to manage foreign currency exposure. We do not have any significant concentrations of credit risk within the plan assets. The pension plans' liabilities, investment objectives and investment managers are reviewed periodically.

The target asset allocation for 2013 and the actual asset allocations at December 31, 2012 and 2011, for the U.K. pension plan are as follows:

Asset category	Target Allocation	Percent of Plan Assets at December 31,	
	2013	2012	2011
U.K. equities	32%	32%	34%
Non-U.K. equities	33%	31%	28%
Fixed income	35%	36%	32%
Cash	—%	1%	6%
Total	100%	100%	100%

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

The target asset allocation used to manage the investment portfolio is based on the broad asset categories shown above. The plan asset categories presented in the fair value hierarchy are subsets of the broad asset categories.

The fair value of the U.K. plan assets was \$370 million and \$326 million at December 31, 2012 and 2011, respectively, and the expected long-term rate of return on these plan assets was 7.25% in both 2012 and 2011.

Fair Value Measurements of Plan Assets

The following tables show, by level within the fair value hierarchy, the financial assets and liabilities that are accounted for at fair value on a recurring basis at December 31, 2012 and 2011, respectively, for the U.S. and foreign pension plans. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement requires judgment and may affect placement within the fair value hierarchy levels.

The following information relates to our classification of investments into the fair value hierarchy:

- *Money Market Funds:* Money market funds typically invest in government securities, certificates of deposit, commercial paper of companies and other highly liquid, low-risk securities. Money market funds are principally used for overnight deposits. The money market funds are classified as Level 2 since they are not actively traded on an exchange.
- *Equity Securities:* Equity securities include U.S. and foreign common stock, American Depository Receipts, preferred stock and commingled funds. Equity securities classified as Level 1 are valued using active, high volume trades for identical securities. Equity securities classified as Level 2 represent those not listed on an exchange in an active market. These securities are valued based on quoted market prices of similar securities.
- *Commingled Fixed Income Securities:* Mutual funds that invest in a variety of fixed income securities including securities of the U.S. government and its agencies, corporate debt, mortgage-backed securities and asset-backed securities. Value of the funds is based on the net asset value (NAV) per unit as reported by the fund manager. NAV is based on the market value of the underlying investments owned by each fund, minus its liabilities, divided by the number of shares outstanding. Commingled fixed income securities are not listed on an active exchange and are classified as Level 2.
- *Debt Securities - U.S. and Foreign Governments, Agencies and Municipalities:* Government securities include treasury notes and bonds, foreign government issues, U.S. government sponsored agency debt and commingled funds. Municipal debt securities include general obligation securities and revenue-backed securities. Debt securities classified as Level 1 are valued using active, high volume trades for identical securities. Debt securities classified as Level 2 are valued through benchmarking model derived prices to quoted market prices and trade data for identical or comparable securities.
- *Corporate Debt Securities:* Investments are comprised of both investment grade debt (\geq BBB-) and high-yield debt (\leq BBB-). The fair value of corporate debt securities is valued using recently executed transactions, market price quotations where observable, or bond spreads. The spread data used are for the same maturity as the security. These securities are classified as Level 2.
- *Mortgage-Backed Securities (MBS):* Investments are comprised of agency-backed MBS, non-agency MBS, collateralized mortgage obligations, commercial MBS, and commingled funds. These securities are valued based on external pricing indices. When external index pricing is not observable, MBS are valued based on external price/spread data. If neither pricing method is available, broker quotes are utilized. When inputs are observable and supported by an active market, MBS are classified as Level 2 and when inputs are unobservable, MBS are classified as Level 3.
- *Asset-Backed Securities (ABS):* Investments are primarily comprised of credit card receivables, auto loan receivables, student loan receivables, and Small Business Administration loans. These securities are valued based on external pricing indices or external price/spread data and are classified as Level 2.
- *Private Equity:* Investments are comprised of units in fund-of-fund investment vehicles. Fund-of-funds consist of various private equity investments and are used in an effort to gain greater diversification. The investments are valued in accordance with the most appropriate valuation techniques, and are classified as Level 3 due to the unobservable inputs used to determine a fair value.
- *Real Estate:* Investments include units in open-ended commingled real estate funds. Properties that comprise these funds are valued in accordance with the most appropriate valuation techniques, and are classified as Level 3 due to the unobservable inputs used to determine a fair value.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

- *Derivatives:* Instruments are comprised of futures, forwards, options and warrants and are used to gain exposure to a desired investment as well as for defensive hedging purposes against currency and interest rate fluctuations. Derivative instruments classified as Level 1 are valued through a readily available exchange listed price. Derivative instruments classified as Level 2 are valued using observable inputs but are not listed or traded on an exchange.
- *Securities Lending Fund:* Investment represents a commingled fund through our custodian's securities lending program. The U.S. pension plan lends securities that are held within the plan to other banks and/or brokers, and receives collateral, typically cash. This collateral is invested in a short-term fixed income securities commingled fund. The commingled fund is not listed or traded on an exchange and is classified as Level 2. This amount invested in the fund is offset by a corresponding liability reflected in the U.S. pension plan's net assets available for benefits.

Level 3 Gains and Losses

The following table summarizes the changes in the fair value of Level 3 assets for the year ended December 31, 2012:

	Mortgage-backed securities	Private equity	Real estate	Total
Balance at beginning of year	\$ 3,702	\$ 88,870	\$ 57,918	\$ 150,490
Realized (losses) gains	(3)	(13)	1,780	1,764
Unrealized (losses) gains	(20)	742	5,711	6,433
Net purchases, sales and settlements	(488)	2,206	(2,241)	(523)
Balance at end of year	<u>\$ 3,191</u>	<u>\$ 91,805</u>	<u>\$ 63,168</u>	<u>\$ 158,164</u>

There are no shares of our common stock included in the plan assets of our pension plans.

During 2013, we anticipate making contributions of \$10 million to our U.S. pension plans and \$20 million to our foreign pension plans. We will reassess our funding alternatives as the year progresses.

Nonpension Postretirement Benefits

We provide certain health care and life insurance benefits in the U.S. and Canada to eligible retirees and their dependents. The cost of these benefits is recognized over the period the employee provides credited service to the company. Employees hired before January 1, 2005 in the U.S. and before April 1, 2005 in Canada become eligible for retiree health care benefits after reaching age 55 or in the case of employees of Pitney Bowes Management Services after reaching age 60 and with the completion of the required service period. U.S. employees hired after January 1, 2005 and Canadian employees hired after April 1, 2005, are not eligible for retiree health care benefits. Effective January 1, 2013, we amended our retiree medical coverage for certain eligible retirees by eliminating company provided coverage in some instances in favor of a Retirement Reimbursement Account and a third party health insurance exchange to assist retirees in making health care coverage choices. These changes do not impact active employees or pre-age 65 retirees who are not otherwise Medicare eligible.

The benefit obligation and funded status for nonpension postretirement benefit plans are as follows:

	2012	2011
Benefit obligation		
Benefit obligation at beginning of year	\$ 285,828	\$ 280,386
Service cost	3,563	3,328
Interest cost	11,187	13,528
Plan participants' contributions	9,547	8,861

Interest cost	11,187	13,528	13,828
Amortization of prior service benefit	(1,724)	(2,504)	(2,511)
Recognized net actuarial loss	8,214	7,666	6,793
Curtailment	—	2,839	6,954
Special termination benefits	—	300	191
Net periodic benefit cost	<u>\$ 21,240</u>	<u>\$ 25,157</u>	<u>\$ 28,979</u>

Other changes in plan assets and benefit obligation for nonpension postretirement benefit plans recognized in other comprehensive income were as follows:

	2012	2011
Net actuarial (gain) loss	\$ (195)	\$ 22,201
Amortization of net actuarial gain (loss)	4,631	(9,980)
Amortization of prior service credit	1,724	2,504
Adjustment for actual Medicare Part D Premium	(651)	(2,040)
Curtailment	—	308
Total recognized in other comprehensive income	<u>\$ 5,509</u>	<u>\$ 12,993</u>

The estimated amounts that will be amortized from AOCI into net periodic benefit cost in 2013 are as follows:

Net actuarial loss	\$ 8,961
Prior service cost	661
Total	<u>\$ 9,622</u>

The weighted-average discount rates used to determine end of year benefit obligation and net periodic pension cost include:

	2012	2011	2010
Discount rate used to determine benefit obligation			
U.S.	3.50%	4.50%	5.15%
Canada	3.90%	4.15%	5.15%
Discount rate used to determine net period benefit cost			
U.S.	4.50%	5.15%	5.35%
Canada	4.15%	5.15%	5.85%

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

The assumed health care cost trend rate used in measuring the accumulated postretirement benefit obligation for the U.S. plan was 7.50% for 2012 and 7.50% for 2011. The assumed health care trend rate is 7.00% for 2013 and will gradually decline to 5.0% by the year 2017 and remain at that level thereafter. Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A 1% change in the assumed health care cost trend rates would have the following effects:

	<u>1% Increase</u>	<u>1% Decrease</u>
Effect on total of service and interest cost components	573	(477)
Effect on postretirement benefit obligation	10,086	(8,703)

Estimated Future Benefit Payments

Benefit payments expected to be paid, which reflect expected future service, are shown in the table below. Nonpension benefit payments are net of expected Medicare Part D subsidy.

<u>Years ending December 31,</u>	<u>Pension Benefits</u>	<u>Nonpension Benefits</u>
2013	\$ 139,394	\$ 25,959
2014	137,336	24,905
2015	130,778	23,826
2016	132,252	22,932
2017	134,710	22,037
2018 - 2022	700,363	98,604
	<u>\$ 1,374,833</u>	<u>\$ 218,263</u>

Savings Plans

We offer voluntary defined contribution plans to our U.S. employees designed to help them accumulate additional savings for retirement. We provide a core contribution to all employees, regardless if they participate in the plan, and match a portion of each participating employees' contribution, based on eligible pay. Total contributions to our defined contribution plans were \$30 million in both 2012 and 2011.

PITNEY BOWES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollars in thousands, except per share amounts)

18. Discontinued Operations and Assets Held for Sale

Discontinued operations include our IMS operations (see Note 1) and our Capital Services business, which was sold in 2006. The details of discontinued operations are shown in the following table:

	Years Ended December 31,		
	2012	2011	2010
<i>International Mail Services</i>			
Revenue	\$ 135,222	\$ 155,378	\$ 164,898
Cost of revenue	120,251	142,165	163,818
SG&A	19,565	28,220	22,379
Restructuring charges and asset impairments	10,234	11,603	313
Goodwill impairment	18,315	45,650	—
Impairment on assets held for sale	6,941	—	—
Loss before taxes	(40,084)	(72,260)	(21,612)
Tax benefit	(15,003)	(23,025)	(7,828)
Net loss	(25,081)	(49,235)	(13,784)
Capital Services, net of tax	34,312	266,159	(18,104)
Income (loss) from discontinued operations	<u>\$ 9,231</u>	<u>\$ 216,924</u>	<u>\$ (31,888)</u>

In connection with our decision to exit our IMS operations, during the third quarter of 2012, we conducted a goodwill impairment review. We determined the fair value of the IMS operations based on third-party written offers to purchase the business as well applying an income approach with revised cash flow projections. The inputs used to determine the fair value of IMS were classified as Level 3 in the fair value hierarchy. Based on the results of our impairment test, in the third quarter of 2012, we recorded a goodwill impairment charge of \$18 million and asset impairment charges of \$10 million to write-down the carrying value of goodwill, intangible assets and fixed assets to their respective implied fair values. Based on the terms of the proposed agreement, we recorded an additional pre-tax loss of \$7 million in the fourth quarter to write down the carrying value of the net assets of IMS to their estimated fair value less costs to sell.

In 2011, due to the under-performance of our IMS operations and based on information developed during the early stages of our annual budgeting and long-term planning process started in the third quarter, we concluded that it was appropriate to perform a goodwill impairment review for IMS. We determined the fair value of IMS using a combination of techniques including the present value of future cash flows, multiples of competitors and multiples from sales of like businesses, and determined that the IMS reporting unit was impaired. The inputs used to determine the fair value of IMS were classified as Level 3 in the fair value hierarchy. Based on the results of our impairment test, we recorded a goodwill impairment charge of \$46 million and an intangible asset impairment charge of \$12 million to write-down the carrying value of goodwill and intangible assets to their respective implied fair values.

The assets and liabilities of IMS consists primarily of accounts receivable and accounts payable and other current accruals. At December 31, 2012, assets of IMS were \$25 million and liabilities were \$25 million.

The amount recognized for Capital Services in 2012 relates to tax benefits from the resolution of tax examinations. In 2011, we entered into a series of settlements with the IRS in connection with their examinations of our tax years 2001-2008. We agreed upon both the tax treatment of a number of disputed issues, including issues related to the Capital Services business, and revised tax calculations. As a result of these settlements, an aggregate \$264 million benefit was recognized in discontinued operations. The amount in 2010 includes the accrual of interest on uncertain tax positions.

As discussed in Note 1, we have revised each of our statements of cash flows by reducing operating cash flows and increasing investing cash flows for the year-to-date periods ended March, June and September 2012 by \$25 million, \$30 million and \$35 million, respectively. We have determined that these adjustments are not material to our consolidated financial statements for any of the affected periods. However, we will reflect these revisions in future Form 10-Q filings as appropriate.

PITNEY BOWES INC.
SCHEDULE II - VALUATION AND QUALIFYING ACCOUNTS AND RESERVES
(Dollars in thousands)

Description	Balance at beginning of year	Additions	Deductions	Balance at end of year
<u>Allowance for doubtful accounts</u>				
2012	\$ 25,667	\$ 13,112 ⁽¹⁾	\$ (18,560) ⁽²⁾	\$ 20,219
2011	\$ 26,649	\$ 9,161 ⁽¹⁾	\$ (10,143) ⁽²⁾	\$ 25,667
2010	\$ 39,334	\$ 9,266 ⁽¹⁾	\$ (21,951) ⁽²⁾	\$ 26,649
<u>Valuation allowance for deferred tax asset</u>				
2012	\$ 111,438	\$ 40,078	\$ (9,340)	\$ 142,176
2011	\$ 104,441	\$ 16,709	\$ (9,712)	\$ 111,438
2010	\$ 95,990	\$ 22,168	\$ (13,717)	\$ 104,441

(1) Includes additions charged to expenses, additions from acquisitions and impact of foreign exchange.

(2) Includes uncollectible accounts written off.

PITNEY BOWES INC.
COMPUTATION OF RATIO OF EARNINGS TO FIXED CHARGES
(Dollars in thousands)

	Years Ended December 31,				
	2012	2011	2010	2009	2008
Income from continuing operations before income taxes	\$ 604,613	\$ 486,541	\$ 556,189	\$ 676,771	\$ 701,213
Add:					
Interest expense ⁽¹⁾	196,368	203,061	203,911	208,855	229,343
Portion of rents representative of the interest factor	33,438	38,968	39,219	41,499	43,030
Amortization of capitalized interest	973	1,535	1,716	1,716	1,717
Income as adjusted	<u>\$ 835,392</u>	<u>\$ 730,105</u>	<u>\$ 801,035</u>	<u>\$ 928,841</u>	<u>\$ 975,303</u>
Fixed charges:					
Interest expense ⁽¹⁾	\$ 196,368	\$ 203,061	\$ 203,911	\$ 208,855	\$ 229,343
Portion of rents representative of the interest factor	33,438	38,968	39,219	41,499	43,030
Noncontrolling interests (preferred stock dividends of subsidiaries), excluding taxes	27,841	27,507	29,790	32,851	31,610
Total fixed charges	<u>\$ 257,647</u>	<u>\$ 269,536</u>	<u>\$ 272,920</u>	<u>\$ 283,205</u>	<u>\$ 303,983</u>
Ratio of earnings to fixed charges ⁽²⁾	<u>3.24</u>	<u>2.71</u>	<u>2.94</u>	<u>3.28</u>	<u>3.21</u>

(1) Interest expense includes both financing interest expense and other interest expense.

(2) The computation of the ratio of earnings to fixed charges has been computed by dividing income from continuing operations before income taxes as adjusted by fixed charges. Included in fixed charges is one-third of rent expense as the representative portion of interest.

**CERTIFICATION PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Marc B. Lautenbach, certify that:

1. I have reviewed this Annual Report on Form 10-K of Pitney Bowes Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Annual Meeting

Stockholders are cordially invited to attend the Annual Meeting at 9:00 a.m., Monday, May 13, 2013, at Pitney Bowes World Headquarters in Stamford, Connecticut. Notice of the meeting will be mailed or made available to stockholders of record as of March 15, 2013. Please refer to the Proxy Statement for information concerning admission to the meeting.

10-K Report

Included in this Annual Report to Stockholders is a copy of our Annual Report on Form 10-K for the fiscal year ended December 31, 2012, as filed with the Securities and Exchange Commission. This Annual Report contains statements that are forward-looking. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of factors discussed in the Forward-Looking Statements section of the Form 10-K. The CEO/CFD certifications required to be filed with the SEC under Section 302 of the Sarbanes-Oxley Act of 2002 were filed as exhibits to our Annual Report on Form 10-K for the fiscal year ended December 31, 2012. The CEO certification required to be submitted to the NYSE pursuant to Section 303A.12(a) of the NYSE Listed Company Manual was submitted on June 5, 2012.

Additional copies of our Form 10-K will be sent to stockholders free of charge upon written request to:
